

"... this book may represent one of the most startling theological discoveries of the ages."

—Paul Zimmerman, author of many distinguished books and articles on Creation

The explosive culmination of 40 years of painstaking research—**The Discovery of Genesis**

Fact or astonishing coincidence?—

"... quickly he wrote down the character for to create 造 and was astonished as he analyzed the components in this figure for the first time: 土 is dust or mud; 口 a mouth; 丿 the small downward stroke to the left of 土 indicates movement of life; and 止 means able to walk. The text in Genesis 2:7 (italics supplied) came to mind. Then the Lord God formed man of dust from the ground, and breathed (with His mouth) into his nostrils the breath of life, and man became a living being (not a baby, but an adult, able to walk)."

"Dissection of this character stimulated ... a search which has lasted four decades."

—from the Prolog to
The Discovery of Genesis

Now, the explosive question—

Were the ancient Chinese a remnant of the Tower of Babel Dispersion ... clinging to their belief in one God ... forced to seek refuge and isolation in the East by persecuting nonbelievers?
