The Earliest Solar Shrines In Egypt And Other Similar Shrines Elsewhere:

The Dawn of Astronomy Sir Norman Lockyer, 1894 **The Dawn of Astronomy** J. Norman Lockyer, 2006-04-28 A pioneer in the fields of astrophysics and astro archeology J Norman Lockyer believed that ancient Egyptian monuments were constructed in strict relation to the stars In this celebrated study he explores the relationship between astronomy and architecture in the age of the pharaohs Lockyer addresses one of the many points already extensively investigated by Egyptologists the chronology of the kings of Egypt All experts are in accord regarding the identity of the first monarch but they cannot agree upon the dates of his reign within a thousand years The author contends that by applying a knowledge of astronomy to the actual site orientation of the region s pyramids and temples accurate dating can be achieved In order to accomplish this Lockyer had to determine the level of the ancient Egyptian ideas of astronomy Some of his inferences have been invalidated by subsequent scholarship but many of his other conclusions stand firm and continue to provide sensational leads into contemporary understanding of archaic astronomy **Astronomy and Astro-physics** ,1894 **Understanding Early Civilizations** Bruce G. Trigger, 2003-05-05 This book offers the first detailed comparative study of the seven best documented early civilizations ancient Egypt and Mesopotamia Shang China the Aztecs and adjacent peoples in the Valley of Mexico the Classic Maya the Inka and the Yoruba Unlike previous studies equal attention is paid to similarities and differences in their sociopolitical organization economic systems religion and culture Many of this study s findings are surprising and provocative Agricultural systems technologies and economic behaviour turn out to have been far more diverse than was expected These findings and many others challenge not only current understandings of early civilizations but also the theoretical foundations of modern archaeology and anthropology The key to understanding early civilizations lies not in their historical connections but in what they can tell us about similarities and differences in human behaviour *The Penguin Handbook of Ancient Religions* Various contributors, 2009-08-27 This overview of the religious customs of ancient cultures boasts an international selection of contributors all of whom are leading scholars in their field The cultural practices of popular as well as formal religion are explored in detail giving an impression of all not only elite societies Every topic is placed in its own cultural context while bearing in mind its relevance to a wider historical and sociological debate The result is an erudite and thoroughly readable handbook to ancient religions from Palaeolithic cave art to the rituals of Aztec and Inca civilizations **Mammisis of Egypt** Ali Abdelhalim Ali, Dagmar Budde, 2023-12-04 Birth Houses Mammisis are important components of late Egyptian temple complexes but have not been investigated in detail since the fundamental study of Francois Daumas published in 1958 In the meantime new archaeological findings as well as re evaluations of theology and piety in Greco Roman Egypt have considerably expanded our traditional understanding of these extraordinary buildings Therefore reassessment of phenomena and expanded research approaches need to be undertaken This book presents the printed versions of the lectures given by international Egyptologists at the IFAO in Cairo on March 27 28 2019 as part of the

1st Colloquium on Mammisis of Egypt In the publication criteria and reconsiderations are put up for discussion that can be decisive for the identification and definition of Mammisis The spectrum of topics ranges from theological basics including the significant birth cycle and typical features through historical development and cultic events to the architecture of these temple buildings Special motifs theoretical and iconographic concepts and finally the persistence of certain rites in modern Egypt are also covered One chapter introduces current scientific projects and their methods that are dedicated to selected mammisis or chapels Coptos Deir el Medina Edfu Kom Ombo Philae Bahariya Kellis Jebel Barkal Numerous illustrations complement the contributions They contain new material from excavations that is being published for the first time
