GAMBIT

The *Grandmaster's Mind* investigates how chess-players find good ideas. Amatzia Avni, a psychologist by profession, pursues this goal by interviewing top players and analysts. The discussion focuses on their most interesting and instructive games and compositions.

Avni has been careful to allow his interviewees to convey their own thoughts, rather than direct their answers to comply with any pre-existing theories. We experience the events on the board through the vivid recollections of the player. This gives us a realistic view of each struggle and how the critical decisions were really made.

Avni also presents the players with some unfamiliar positions, and records their reactions upon encountering these new situations. Once we have heard from the grandmasters, Avni discusses the essence of what was said, and provides some insights and recommendations.

The interviewees include famous grandmasters such as Boris Gelfand, Ilia Smirin and Lev Psakhis.

Amatzia Avni is an Israeli psychologist. He is a FIDE Master in both game and composition, an international judge of studies, a former editor of the Israeli magazine *Schachmat*, and a regular contributor to *Chess Monthly* and *Kingpin*.

The Grandmasters Mind A Look Inside The Chess Thinking Process

Jacob Aagaard

The Grandmasters Mind A Look Inside The Chess Thinking Process:

Better Thinking, Better Chess Joel Benjamin, 2018-10-09 Finding strong moves does not simply depend on how much you know about chess. In fact, greater knowledge often makes choosing a move more complex because it increases the number of directions your mind can take. It's about the way you think. His many years as a chess trainer have taught grandmaster Joel Benjamin how fundamental failings in their thought process cause his students to make mistakes. Pointing out the moves his students missed was just half the job. He needed to explain why they didn't arrive at the right move. Analysing your game with a chess engine will not tell you where and why you went wrong. Chess engines represent a different reality: the top computer move isn't always the right move to play. This book teaches how you can improve the structure and effectiveness of your thinking when sitting at the board. How to look for the right things. If you take the wrong direction at the start of your deliberations as club players often do, you may be losing before you know it. Joel Benjamin concentrates on a wide array of practical issues that players frequently have to deal with. By applying a grandmaster's train of thought, club players will more often arrive at strong moves and substantially improve their game.

The Grandmaster's Mind Amatzia Avni, 2004 This book investigates how chess players find good ideas. The interviewees include famous grandmasters such as Boris Gelfand, Ilia Smirin, and Lev Psakhis.

Inside the Chess Mind Jacob Aagaard, 2004 What separates a Grandmaster from an International Master? How do the thought processes of strong club players differ from that of middling club players? What techniques can enthusiastic chess players employ when striving to reach the next rung on the ladder? Jacob Aagaard provides the answers to these questions in this fascinating and entertaining new book. The material is based around numerous carefully selected tests which are offered to a group of players of a very wide range of ages and playing strengths. Once all the participants have attempted the tests, their discoveries, solving methods, and difficulties with the exercises are evaluated and compared, and conclusions are drawn. The players are also quizzed about their exercise techniques, ideas, and opinions about chess in general. *Inside the Chess Mind* enters fresh territory in chess literature by providing a thought-provoking insight as to how the chess brains of the great, the good, and the improver operate. Highlights include: Clarifies both the differences and similarities between Grandmasters and amateurs. Suitable for players of all strengths. Includes challenging puzzles. Written by a highly experienced chess coach.
