Deception to brew up a laugh out loud mystery today The Great American Fraud Samuel Adams,2022-03-11 The Great American Jobs Scam Greg LeRoy,2005-07-21 For the past 20 years corporations have been receiving huge tax breaks and subsidies in the name of jobs jobs jobs But as Greg LeRoy demonstrates in this important new book it s become a costly scam Playing states and communities off against each other in a bidding war for jobs corporations reduce their taxes to next to nothing and win subsidy packages that routinely exceed 100 000 per job But the subsidies come with few strings attached So companies feel free to provide fewer jobs or none at all or even outsource and lay people off They are also free to pay poverty wages without health care or other benefits All too often communities lose twice They lose jobs or gain jobs so low paying they do nothing to help the community and lose revenue due to the huge corporate tax breaks That means fewer resources for maintaining schools public services and infrastructure In the end the local governments that were hoping for economic revitalization are actually worse off They re forced to raise taxes on struggling small businesses and working families or reduce services or both Greg LeRoy uses up to the minute examples naming names including Wal Mart Raytheon Fidelity Bank of America Dell and Boeing to reveal how the process works He shows how carefully corporations orchestrate the bidding wars between states and communities He exposes shadowy site location consultants who play both sides against the middle and he dissects government and corporate mumbo jumbo with plain talk The book concludes by offering common sense reforms that will give taxpayers powerful new tools to deter future abuses and redirect taxpayer investments in ways that will really pay off **The Great American Nutrition Hassle** Lieselotte Hofmann,1978 Real Food/Fake Food Larry Olmsted,2017-10-03 Olmsted makes you insanely hungry and steaming mad a must read for anyone who cares deeply about the safety of our food and the welfare of our planet Steven Raichlen author of the Barbecue Bible series The world is full of delicious lovingly crafted foods that embody the terrain weather and culture of their origins Unfortunately it s also full of brazen impostors In this entertaining and important book Olmsted helps us fall in love with the real stuff and steer clear of the fraudsters Kirk Kardashian author of Milk Money Cash Cows and the Death of the American Dairy Farm You ve seen the headlines Parmesan cheese made from wood pulp Lobster rolls containing no lobster at all Extra virgin olive oil that isn t So many fake foods are in our supermarkets our restaurants and our kitchen cabinets that it s hard to know what we re eating anymore In Real Food Fake Food award winning journalist Larry Olmsted convinces us why real food matters and empowers consumers to make smarter choices Olmsted brings readers into the unregulated food industry revealing the shocking deception that extends from high end foods like olive oil wine and Kobe beef to everyday staples such as coffee honey juice and cheese It s a massive bait and switch in which counterfeiting is rampant and in which the consumer ultimately pays the price But Olmsted does more than show us what foods to avoid A bona fide gourmand he travels to the sources of the real stuff to help us recognize what to look for eat and savor genuine Parmigiano Reggiano from Italy fresh caught grouper from Florida authentic port from Portugal Real foods that are grown raised produced and prepared with care by masters of their

Dying to be Beautiful Gwen Kay, 2005 Dying to Be Beautiful tells the story of how cosmetics came to be regulated in early 20th century America In 1906 the Food and Drug Administration was given the power to control food and drugs Not until 1938 were other products that went into or onto the body including cosmetics similarly regulated The intervening years saw death by depilatory and blindness by mascara and a rise in consumer and grassroots political activism This book examines who fought for regulation of these inherently feminine products and why it took so long for their goals to be achieved Book jacket

Habit Forming Elizabeth Kelly Gray, 2023 Habitual drug use in the United States is at least as old as the nation itself Habit Forming traces the history of unregulated drug use and dependency before 1914 when the Harrison Narcotic Tax Act limited sales of opiates and cocaine under US law Many Americans used opiates and other drugs medically and became addicted Some tried Hasheesh Candy injected morphine or visited opium dens but neither use nor addiction was linked to crime due to the dearth of restrictive laws After the Civil War American presses published extensively about domestic addiction Later in the nineteenth century many used cocaine and heroin as medicine As addiction became a major public health issue commentators typically sympathized with white middle class drug users while criticizing such use by poor or working class people and people of color When habituation was associated with middle class morphine users few advocated for restricted drug access By the 1910s as use was increasingly associated with poor young men support for regulations increased In outlawing users access to habit forming drugs at the national level a public health problem became a larger legal and social problem one with an enduring influence on American drug laws and their enforcement

Spitting in the Soup Mark Johnson, 2016-07-01 Doping is as old as organized sports From baseball to horse racing cycling to track and field drugs have been used to enhance performance for 150 years For much of that time doping to do better was expected It was doping to throw a game that stirred outrage Today though athletes are vilified for using performance enhancing drugs Damned as moral deviants who shred the fair play fabric dopers are an affront to the athletes who don't take shortcuts But this tidy view swindles sports fans While we may want the world sorted into villains and victims putting the blame on athletes alone ignores decades of history in which teams coaches governments the media scientists sponsors sports federations and even spectators have played a role The truth about doping in sports is messy and shocking because it holds a mirror to our own reluctance to spit in the soup that is to tell the truth about the spectacle we crave In Spitting in the Soup sports journalist Mark Johnson explores how the deals made behind closed doors keep drugs in sports Johnson unwinds the doping culture from the early days when pills meant progress and uncovers the complex relationships that underlie elite sports culture the essence of which is not to play fair but to push the boundaries of human performance It's easy to assume that drugs in sports have always been frowned upon but that's not true Drugs in sports are old It's banning drugs in sports that is new Spitting in the Soup offers a bitingly honest clear eyed look at why that's so and what it will take to kick pills out of the locker room once and for all
