John Sloan's Women Janice Marie Coco, John Sloan, 2004 Challenging the cornerstone assumption of Sloan as a neutral spectator Coco suggests the ways that he used art to define himself as both man and artist at a time when the ideals of masculinity and artistic identity were at issue Examining his self admitted fear of women she demonstrates how Sloan's perception of them as potentially threatening to his manhood and his career manifests itself subtextually in the fetishized nature of his windowed compositions

Rendering Violence Ross Barrett, 2014-08-29 Rendering Violence explores the problems and possibilities that the subject of political violence presented to American painters working between 1830 and 1890 a turbulent period during which common citizens frequently abandoned orderly forms of democratic expression to riot strike and protest violently Examining a range of critical texts this book shows for the first time that nineteenth century American aesthetic theory defined painting as a privileged vehicle for the representation of political order and the stabilization of liberal democratic life Analyzing seven paintings by Thomas Cole John Quidor Nathaniel Jocelyn George Henry Hall Thomas Nast Martin Leisser and Robert Koehler Ross Barrett reconstructs the

strategies that American artists developed to explore the symbolic power of violence in a medium aligned ideologically with lawful democracy He argues that American paintings of upheaval render their subjects in divergent ways By exploring the inner conflicts that structure these painterly projects Barrett sheds new light on the politicized pressures that shaped visual representation in the nineteenth century and on the anxieties and ambivalences that have long defined American responses to political turmoil
