Thomas Blake Earle

The Great Rapprochement England And The United States 1895 1914:

The Great Rapprochement Bradford Perkins, 1968 The Cambridge History of America and the World Kristin

Hoganson, Jay Sexton, 2022-03-03 The second volume of *The Cambridge History of America and the World* examines how the United States rose to great power status in the nineteenth century and how the rest of the world has shaped the United States. Mixing top down and bottom up perspectives, insider and outsider views, cultural, social, political, military, environmental, legal, technological, and other veins of analysis, it places the United States, Indigenous nations, and their peoples in the context of a rapidly integrating world. Specific topics addressed in the volume include nation and empire building, inter-Indigenous relations, settler colonialism, slavery, and statecraft, the Mexican American War, global integration, the antislavery international, the global dimensions of the Civil War, overseas empire building, state formation, international law, global capitalism, border crossing, movement, politics, technology, health, the environment, immigration, policy, missionary endeavors, mobility, tourism, expatriation, cultural production, colonial intimacies, borderlands, the liberal North Atlantic, US African relations, Islamic world encounters, the US island empire, the greater Caribbean world, and transimperial entanglements. *Colonel House* Charles E.

Neu, 2014-12-31 Charles E. Neu details the life of Colonel House, a Texas landowner who rose to become one of the century's greatest political operators. **The Lion and the Eagle** Kathleen Burk, 2018-08-23 An invigorating history of the arguments and cooperation between America and Britain as they divided up the world and an illuminating exploration of their underlying alliance. Throughout modern history, British and American rivalry has gone hand in hand with common interests. In this book, Kathleen Burk brilliantly examines the different kinds of power the two empires have projected and the means they have used to do it. What the two empires have shared is a mixture of pragmatism, ruthless commercial drive, a self-righteous foreign policy, and plenty of naked aggression. These have been aimed against each other more than once, yet their underlying alliance against common enemies has been historically unique and a defining force throughout the twentieth century. This is a global and epic history of the rise and fall of empires. It ranges from America's futile attempts to conquer Canada to her success in opening up Japan, but rapid loss of leadership to Britain, from Britain's success in forcing open China to her loss of the Middle East to the US, and from the American conquest of the Philippines to her destruction of the British Empire. The Pax Americana replaced the Pax Britannica, but now the American world order is fading, threatening Britain's belief in her own world role. **Churchill and the Anglo-American Special Relationship** Alan P. Dobson, Steve Marsh, 2017-02-24

offers a timely critical examination of Churchill's contribution to establishing the Anglo-American special relationship in the cold war. Draws together some of the most established and best emergent scholars in the field; will be of much interest to students of Anglo-American relations, Cold War History, foreign policy, international history, and IR in general. *Brothers Across the Ocean* Lestyn Adams, Lestyn Adams, 2005-04-22 The Special Relationship has long been a leading feature of ties between the USA and Britain, but never has it been more topical than now following wars in Iraq and Afghanistan. Brothers

Across the Ocean is a unique and revealing investigation into this relationship's early history vital to understanding its current incarnations focusing on the period when Britain's role as a leading global power began to be rivalled possibly eclipsed by the rising star of the USA Based on detailed examination of official and private papers Iestyn Adams shows how Anglo American diplomacy operated across the world from South America to Hawaii from Canada to the Far East Adams argues it was in the Far East that the leading example of Anglo American cooperation played out through the Russo Japanese War a conflict of global importance that set the stage for a relationship that has endured into the twenty first century This insightful study is a valuable resource for scholars of Modern History and International Relations

Britain and the Americas Will Kaufman, Heidi Slettedahl Macpherson, 2005-03-01 A comprehensive encyclopedia covering the close ties between Britain and the whole of the Americas examining Britain's cultural and political legacy to the nations of the New World From Vikings to redcoats from the Beatles to the war in Iraq Britain and the Americas examines Britain's cultural and political legacy to the nations of the Americas This comprehensive survey also traces how the Americas have in turn influenced contemporary Britain from the Americanization of language and politics to the impact of music and migration from the West Indies Complete with an extensive introduction and a chronology of key events this three volume encyclopedia contains introductory essays focusing on the four prime areas of British Atlantic engagement Canada the Caribbean the United States and Latin America Students of a wide range of disciplines as well as the lay reader will appreciate this exhaustive survey which traces the common themes of British policy and influence throughout the Americas and highlights how Britain has in turn benefited from the influence of American democracy technology culture and politics

The Liberty to Take Fish Thomas Blake Earle, 2023-08-15 In The Liberty to Take Fish Thomas Blake Earle offers an incisive and nuanced history of the long American Revolution describing how aspirations to political freedom coupled with the economic imperatives of commercial fishing roiled relations between the young United States and powerful Great Britain The American Revolution left the United States with the liberty to take fish from the waters of the North Atlantic Indispensable to the economic health of the new nation the cod fisheries of the Grand Banks the Bay of Fundy and the Gulf of St Lawrence quickly became symbols of American independence in an Atlantic world dominated by Great Britain The fisheries issue was a near constant concern in American statecraft that impinged upon everything from Anglo American relations to the operation of American federalism and even to the nature of the marine environment Earle explores the relationship between the fisheries and the state through the Civil War era when closer ties between the United States and Great Britain finally surpassed the contentious interests of the fishing industry on the nation's agenda The Liberty to Take Fish is a rich story that moves from the staterooms of Washington and London to the decks of fishing schooners and into the Atlantic itself to understand how ordinary fishermen and the fish they pursued shaped and were in turn shaped by those far off political and economic forces Earle returns fishing to its once central place in American history and shows that the nation of the nineteenth century was

indeed a maritime one **The ^Astruggle for Recognition in International Relations** Michelle Murray,2018-11-07

How established powers can facilitate the peaceful rise of new great powers is a perennial question of international relations and has gained increased salience with the emergence of China as an economic and military rival of the United States Highlighting the social dynamics of power transitions The Struggle for Recognition in International Relations offers a powerful new framework through which to understand important historical cases of power transition and more recently the rise of China and how the United States can facilitate its peaceful rise *Comic empires* Richard Scully,Andrekos

Varnava,2019-11-04 *Comic empires* is an innovative collection of new scholarly research exploring the relationship between imperialism and cartoons caricature and comic art **American Foreign Relations Reconsidered** Gordon

Martel,2002-11-01 This major new textbook brings together twelve of the leading scholars of U S foreign relations Each contributor provides a clear concise summary of an important period or theme in US diplomatic and strategic affairs since the Spanish American War Michael Hunt and Joan Hoff provide an overview of the traditions behind US policy and a preview of things to come Together the contributors offer a succinct explanation of the controversies and questions that historians have grappled with throughout the twentieth century Students will find these essays a reliable and useful guide to the various schools of thought which have emerged Although each of the scholars is well known for their detailed and original work these essays are new and have been specially commissioned for this book The articles follow the chronological development of the emergence of the United States as a world power but special themes such as the American policy process economic interests relations with the Third World and the dynamics of the nuclear arms race have been singled out for separate treatment *American Foreign Relations Reconsidered* 1890 1993 represents essential reading for upper level undergraduates studying modern American history The book has been designed and written exclusively to meet the needs of students either as a major course text or as a set of supplementary readings to support other texts *Dixie Looks Abroad*

Joseph A. Fry,2002-01-01 As America s most self conscious section the South has exercised an important and often decisive influence on U S foreign relations but the extent of this influence has been largely unexplored by historians In this groundbreaking study Joseph A Fry provides a comprehensive overview of the South s role in U S international involvement from 1789 to 1973 revealing the enormous impact of southern pressure on broader national interests In a gracefully written and engaging narrative Fry chronicles the South s numerous foreign policy opinions over time including its opposition to closer relations with Great Britain and war with France in the 1790s its leadership in the War of 1812 its flawed diplomatic attempts during the years of the Confederacy and its fifty year protest against the increasingly assertive Republican dominated political agenda following the Civil War With the election of Woodrow Wilson Fry shows the South reversed its tendency toward isolationism and consistently supported Wilson s activist foreign policies The South sustained this interventionist mind set into the 1970s ardently supporting cold war containment policy Fry is careful to note that

southerners seldom presented a completely united front on foreign affairs Yet even while disagreeing among themselves he argues they consistently viewed the world through a distinctly southern lens and acted on a variety of perceived common interests including a dedication to honor and patriotism a determination to protect slavery a proclivity for personal violence a commitment to partisan politics a concern for economics and a preoccupation with race Though the South s foreign policy opinions varied widely through the years Fry s extraordinary work affirms that Dixie has always held considerable clout on the world stage

Total Defense Andrew Preston,2025-05-06 In the 1930s amid rising fascism FDR and the New Dealers invented the doctrine of national security which obligated the state to guard against not just territorial invasion but also remote threats to the American way of life Total Defense explores how the new idea of national security transformed the United States and its place in the world

Historical Dictionary of U.S. Diplomacy from the Civil War to World War I Kenneth J. Blume,2016-10-20 The period encompassed by this volume with the start of the Civil War and World War I as bookends has gone by a number of colorful names The Imperial Years The New American Empire America s Rise to World Power Imperial Democracy The Awkward Years or Prelude to World Power for example A different organizing theme would describe the period as one in which a transformation took place in American foreign relations But whatever developments or events historians have emphasized there is general agreement that the period was one in which something changed in the American approach to the world This second edition of Historical Dictionary of U S Diplomacy from the Civil War to World War I contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 1 000 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about diplomacy during this period

Britain, America, and the Special Relationship since 1941 B. J. C McKercher,2017-06-07 Britain America and the Special Relationship since 1941 examines the Anglo American strategic and military relationship that developed during the Second World War and continued until recent years Forged on a common ground of social cultural and ideological values as well as political expediency this partnership formed the basis of the western alliance throughout the Cold War playing an essential part in bringing stability to the post 1945 international order Clearly written and chronologically organized the book begins by discussing the origins of the Special Relationship and its progression from uneasy coexistence in the eighteenth century to collaboration at the start of the Second World War McKercher explores the continued evolution of this partnership during the conflicts that followed such as the Suez Crisis the Vietnam War and the Falklands War The book concludes by looking at the developments in British and American politics during the past two decades and analysing the changing dynamics of this alliance over the course of its existence Illustrated with maps and photographs and supplemented by a chronology of events and list of key figures this is an essential introductory resource for students of the political history and foreign policies of Britain and the United States in the twentieth century

The ^AOxford Handbook of Peaceful

Change in International Relations T. V. Paul, Deborah Welch Larson, Harold A. Trinkunas, Anders Wivel, Ralf Emmers, 2021-08-05 This work provides a thorough examination of research on the problem of change in the international arena and the reasons why change happens peacefully at times and at others violently It contains over forty chapters which examine the historical theoretical global regional and national foreign policy dimensions of peaceful change As the world enters a new round of power transition conflict involving a rapidly rising China and a relatively declining United States this Handbook provides a necessary resource for decisionmakers and scholars engaged in this vital area of research

Anglo-American Relations in the Twentieth Century Ritchie Owendale, 1998-10-30 A critique of Anglo American relations in the twentieth century in the light of the most recent research It challenges many existing interpretations and argues that the basis of the Anglo American special relationship was laid by Roosevelt and Chamberlain that Roosevelt preferred Stalin to Churchill and that the origins of the Cold War should be seen as a British education of the Americans to the Soviet threat Suez is reassessed following the recent release of material in the Eisenhower Library There is a consideration of the relationship of mutual interdependence and why Wilson and Heath chose to move instead towards the European connection as well as Mrs Thatcher s reasons for preferring the Atlantic alliance *External Research* United States. Department of State. External Research Division, **Culture matters** Robert Hendershot, Steve Marsh, 2020-10-13 This book examines how intangible aspects of international relations including identity memory representation and symbolic perception have helped to shape the development and contribute to the endurance of the Anglo American special relationship Challenging traditional interpretations of US UK relations and breaking new ground with fresh analyses of cultural symbols discourses and ideologies this volume fills important gaps in our collective understanding of the special relationship s operation and exposes new analytical spaces in which we can re evaluate its strengths and weaknesses Designed to breathe new life into old debates about the relationship s purported specialness this book offers a multidisciplinary exploration of literary representations screen representations political representations representations in memory and the influence of cultural connections and constructs which have historically animated Anglo American interaction *Notable U.S. Ambassadors Since 1775* Cathal J. Nolan, 1997-10-28 This book spans more than 200 years of U S diplomatic history Its geographical scope widens along with the expanding interests of America itself from initial exclusive concern with the empires of Europe to the emerging nations of Latin America to the commercial opportunities and geopolitical concerns of Asia and Africa The ambassadors chosen for inclusion reflect these historical changes in American foreign relations Organized alphabetically the biographies present an implicit account of the evolution of the U S diplomatic service from its founding and early principles through the 20th century evolution of its habits and culture
