The Green Clinic:

Poor Women, Powerful Men Martha C Ward, 2019-07-09 *Poor Women Powerful Men* chronicles the achievements and subsequent failure of the Louisiana Family Health Foundation the most extensive family planning program ever to operate in the United States Martha C Ward's even handed account reveals the mechanisms of politics poverty and public health policies at work in the perpetual controversies surrounding reproductive rights and the delivery of health care services to the poor Ward's book begins in the early 1960s when Louisiana was among the most underdeveloped states and ranked at the bottom of all scales measuring illiteracy illegitimacy and infant mortality Despite the free statewide Charity Hospital system many routine preventive medical and public health services were not available to poor women and their children particularly if they were black But in the mid 1960s a visionary group of doctors and health care practitioners began to clear the hurdles erected by law church and the medical political establishment By 1970 they had set up the first statewide family planning program for poor people in the United States The Louisiana experiment was a spectacular success The Ford Rockefeller and Kellogg Foundations poured millions of dollars into the program The Great Society and War on Poverty programs placed a high priority on the health of poor mothers and infants With the help of the population lobby including Planned Parenthood and the Agency for International Development the Family Health Foundation moved into Latin America and other developing areas But in 1974 the bubble burst Accusations of fiscal mismanagement fraudulent statistics patronage and political payoffs led to federal indictments and jail sentences for top officials *Poor women and powerful men* the black and white communities and the liberal and conservative medical factions were pitted against each other With the collapse of the program methods for handling the epidemic of adolescent pregnancies and the high infant mortality rate reverted to the state bureaucracies *Poor Women Powerful Men* is the first book length account of the Louisiana experiment In a clear and dispassionate voice Ward demonstrates that many of the questions raised by the experiment persist Is family planning an answer to the cycle of poverty teenage pregnancies and infant mortality How can the conflict between private and public delivery of medical care be resolved Where do the reproductive rights of women fit into governmentally supported birth control programs We seem no closer today to answering these questions than the Louisiana Family Health Foundation was more than a decade ago

Beyond the Green Zone Dahr Jamail, 2016-12-05 The critically acclaimed account of life in Iraq under US occupation with a new afterword ***The Green Wound Contract*** Philip Atlee, 2021-02-16 The grand spy chase novel highly successful and realistic that introduced the international operative with a lethal touch Publishers Weekly Secret agent Joe Gall has a puzzle to put together that stretches from the streets of Laredo Texas to the steamy island of Trinidad and along the way he must deal with a New Orleans nun with some surprising fighting skills as well as civil unrest in a small southern town As he battles bad guys using all the smarts and survival tactics he learned from the CIA there are two beautiful women who may hold the answers but Gall has to start asking the right questions in the debut thriller of this action packed series that would go on to

earn an Edgar Award nomination I admire Philip Atlee s writing tremendously Raymond Chandler **The Green Cross of Kafira** Imbuga, Francis,2014-01-16 In his last play published posthumously the late Francis Imbuga presents the dramatic dialogue of his characters as mind games In addition to using a narrator Sikia Macho to fill us in on the broken politics of Kafira centring around detention without trial Imbuga deliberately delays the inciting action the formation of the Green Party of Kafira which then challenges the hitherto political monolith called the National Party The candidate of the new party former detainee Pastor Mgei wins the election and thereby dethrones the so called Chief of Chiefs In *The Green Cross of Kafira* Imbuga with a renewed sense of urgency addresses the theme of dictatorship in Africa and completes his trilogy of the Kafira plays which begins with *Betrayal in the city* followed by *Man of Kafira* *The Black and the Green* Ada Nicolescu,2013-02-15 This sequel to *Prelude in Black and Green* tells the story of the Steins and their relatives a Jewish family in Romania that in 1940 have to live with Fascism and the war What will their future be Will they survive How will they cope with the many challenges facing them These questions are on everybodys mind Van Nostrand's Chemical Annual ,1922 The issues for 1907 and 1909 contain a Review of chemical literature **180 Days in the Green Zone** Latif Al-Bayati,2014-07-25 The book covers actual experiences and reflections through the diaries of a UN Staff Member stationed in the Green Zone also called the International Zone in Baghdad Iraq The original staffs mission was planned for 180 days yet it was extended later to cover a longer period from January 2006 to September 2007 It is a story about the daily life of the author colleagues and counterparts national and international staffs working with the UN other International Agencies Diplomatic Missions as well as officers parliamentarians and employees of the Iraqi Government during tough times in an unstable country While all international staffs were not allowed to leave the well fortified and safe grounds of the Green Zone except in very limited cases and when given prior security authorization always escorted with heavily armed professional military force the author had the advantage and flexibility of residing inside the Green Zone yet having at the same time the freedom as an Iraqi national to leave unescorted to the dangerous Red Zone Therefore he was in a position to reflect the tough and risky daily life of suffering Iraqis bearing the brunt due to security deterioration as well as other hardships and lack of basic needs and services Mentioning real names of certain UN and Iraqi high ranking national and international officials was necessary for the true credible sequence of events with no intention of compromising any one but just to reflect the genuine happenings during that period of time in the Green Zone the Red Zone and in Iraq from the authors perspective about what actually happened in a story worth to be told **The Saga of the Green Nails** J. Lesley Graham,2015-09-15 Taking a single Quality of Life pill did away with all sickness including the infirmities associated with old age The only side effect was the fingernails and toenails turned bright green Plain Nails the miniscule minority who refused to become Green Nails soon became the pariah of humanity Then the unthinkable happened The five founders of GreenLife the company manufacturing and distributing the pills died on the fifth anniversary of them becoming Green Nails Worse their bodies

melted into gelatinous blobs It now became a race against time with a deadline of only five years Dr Jim Graywolf a Plain Nails struggled to protect his family and his small community against the upcoming ugliness The President of the United States struggled to save as many Plain Nails as he could so the country would have a future The world struggled to find a cure before all of the Green Nails die off *The Conspiracy of Feelings and The Little Theatre of the Green Goose* Daniel Gerould,2014-04-04 Two outstanding examples of socialist themed plays are combined in this remarkable volume The Conspiracy of Feelings by Yurii Olesha 1899 1960 is based on his highly respected short novel Envy about the struggle between the old and new in Soviet society The play called The Conspiracy of Feelings is not a simple adaptation but an original work that reconceived the novel The play explores the precarious position of the intelligentsia in the new collective state The Little Theatre of The Green Goose was written by Konstanty Ildefons Galczynski 1905 53 who was one of Poland s most beloved poets After World War II he began work as a playwright inventing a colorful theatre troupe of performers animal and human and contributing a new instalment of The Little Theatre of the Green Goose each week to Przekroj the Cracow literary magazine Intended for reading only The Green Goose went unperformed in Galczynski s life and was finally staged in 1955 and gained a permanent place in the theatre and became a force for the creation of the new Polish drama that flourished in the 1960s *The Clinique* ,1891 **The Five Secrets from Oz** Steve Garrison,2009-10-08 One of the greatest books ever written about life transformation and finding your inner light This book is pure empowerment packaged in a way that has never been done before **The Laryngoscope** ,1899 A monthly journal on diseases of the ear nose throat

The Green Fuse Hilary Mifflin,2021-04-20 The Green Fuse is a tribute to plants describing their powers and their connections to humanity the earth and the cosmos Left unconvinced of the enduring success of her cancer treatment by conventional medicine the gift of a little book along with an opportunity of six months off to find her happiness had unexpected consequences While doing the 40 day herbal cancer cure the author experienced feelings of supreme wellbeing She decided to investigate why this should be The book outlines extensive research from many disciplines both worldwide and across the ages Hilary s findings chart the drastic loss of the use of plants in western medicine This has been accompanied by the erosion of our deep rooted harmony with the world wide web of nature through the loss of valuable traditional knowledge These have been replaced by our modern system of treating symptoms Alongside her research she developed a beautiful garden to grow plants based on her findings and from these plants she created and marketed high quality products with exceptional healing properties This is Hilary s story about seeking a felt understanding of the nature of human healing It shows that regaining the connections we have lost can enhance our health in body and mind and enrich our creativity and spirituality In the words of Dylan Thomas The force that through the green fuse drives the flower Drives my green age *Gone to Green* Judy Christie,2009-08-01 The paper was an unexpected inheritance from a close colleague and Lois must keep it for at least a year bringing a host of challenges lessons and blessings into her life When Lois pulls into

Green on New Year's Day she expects a charming little town full of smiling people. She quickly realizes her mistake. After settling into a loaned house out on Route 2 she finds herself battling town prejudices and inner doubts and making friends with the most surprising people: troubled teenager Katy, good-looking catfish farmer Chris, wise and feisty Aunt Helen, and a female African American physician named Kevin. Whether fighting a greedy, deceitful politician or rescuing a dog, she fears Lois notices the headlines in her life have definitely improved. She learns how to provide small town news in a big-hearted way and realizes that life is full of newsworthy moments. When she encounters racial prejudice and financial corruption, Lois also discovers more about the goodness of real people and the importance of being part of a community. While secretly preparing the paper for a sale, Lois begins to realize that God might indeed have a plan for her life and that perhaps the allure of city life and career ambition are not what she wants after all.

Tapping the Green Market

Abraham Guillen, Sarah A Laird, Alan R Pierce, Patricia Shanley, 2012-08-21 There is a rapidly growing interest in and demand for non timber forest products (NTFPs). They provide critical resources across the globe fulfilling nutritional, medicinal, financial, and cultural needs. However, they have been largely overlooked in mainstream conservation and forestry politics. This volume explains the use and importance of certification and eco labelling for guaranteeing best management practices of non timber forest products in the field. Using extensive case studies and global profiles of non timber forest products, this work not only seeks to further our comprehension of certification processes but also broaden understanding of non timber forest product management, harvesting, and marketing. It should be useful to forest managers, policy makers, and conservation organizations as well as for academics in these areas.

Integrative Medicine

David Rakel, 2007-01-01 Drawing on solid scientific evidence as well as extensive first-hand experience, this manual provides the practical information you need to safely and effectively integrate complementary and alternative treatment modalities into your practice. It explains how alternative therapies can help you fight diseases that do not respond readily to traditional treatments, presents integrative treatments for a full range of diseases and conditions including autism, stroke, chronic fatigue syndrome, and various forms of cancer. Explores how to advise patients on health maintenance and wellness and offers advice on topics such as meditation, diet, and exercises for back pain. 24 new chapters. A new organization makes this landmark reference more useful than ever. Provides dosages and precautions to help you avoid potential complications. Delivers therapy-based pearls to enhance your patient care. Facilitates patient education with helpful handouts. Offers helpful icons that highlight the level and quality of evidence for each specific modality. Includes bonus PDA software that lets you load all of the therapeutic review sections onto your handheld device. Presents a new organization with numerous section headings and subheadings for greater ease of reference. Provides additional clinical practice and business considerations for incorporating integrative medicine into clinical practice.
