The Grizzly Bear, Portraits from Life Bessie Doak Haynes,1966

Taken by Bear in Yellowstone Kathleen Snow,2016-03-07 Since its founding in 1872 humans and grizzly bears have come into contact in Yellowstone National Park Most of these encounters have ended peacefully but many have not Snow went to the National Park Service archives collected more than 100 years worth of hair raising stories and tells the stories of those involved in the more deadly incidents *The Last Grizzly and Other Southwestern Bear Stories* David Earl Brown,John A. Murray,1988 This collection of true stories about grizzly and black bears in the greater southwest from the 1820s to present day demonstrates changing attitudes toward bears and the preservation of the animals and their habitats *The Grizzly in the Southwest* David E. Brown,1996 In this lively historically accurate account David E Brown chronicles the demise of the grizzly bear in the Southwest He presents the personal narratives of those who knew grizzlies accounts of hunters and administrators in wildlife management agencies and the popular legends and lore of the grizzly that one would hear around the campfire Scientists Southwest historians and those interested in America s wildlife will appreciate this readable study of the bear s life history and of the unique spirit of adventure associated with the grizzly bear a spirit that passed from southwest game ranges with the expirpation of the species in the first half of this century This edition includes a new foreword by Charles Jonkel and a new preface in which the author discusses the latest developments in the debate over the grizzly s place in the Southwest **Grizzly West** Michael J. Dax,2015-08-01 Based on the author s master s thesis University of Montana **Varmints and Victims** Frank Van Nuys,2015-11-09 It used to be If you see a coyote shoot it Better yet a bear Best of all perhaps A wolf How we ve gotten from there to here where such predators are reintroduced protected and in some cases revered is the story Frank Van Nuys tells in Varmints and Victims a thorough and enlightening look at the evolution of predator management in the American West As controversies over predator control rage on Varmints and Victims puts the debate into historical context tracing the West s relationship with charismatic predators like grizzlies wolves and cougars from unquestioned eradication to ambivalent recovery efforts Van Nuys offers a nuanced and balanced perspective on an often emotional topic exploring the intricacies of how and why attitudes toward predators have changed over the years Focusing primarily on wolves coyotes mountain lions and grizzly bears he charts the logic and methods of management practiced by ranchers hunters and federal officials Broad in scope and rich in detail this work brings new much needed clarity to the complex interweaving of economics politics science and culture in the formulation of ideas about predator species and in policies directed at these creatures In the process we come to see how the story of predator control is in many ways the story of the American West itself from early attempts to connect the frontier region to mainstream American life and economics to present ideas about the nature and singularity of the region *The World of the Grizzly Bear* Walter J. Schoonmaker,1968 Describes the characteristics of the grizzly bear and his life during each of the four

seasons Also discusses his possible extinction and relationship to man Lewis and Clark among the Grizzlies Paul Schullery, 2002-06 Lewis and Clark's expedition was full of adventures but few were as exhilarating as their moments with grizzly bears The author has combed the journals to provide readers with Lewis and Clark's own words on the Ursus horribilis and offers new insight into the role of the grizzly bear in this tale of Western exploration and discovery **Wild Carnivores of New Mexico** Jean-Luc E. Cartron, Jennifer K. Frey, 2024-02-15 Winner of the 2024 New Mexico Arizona Book Award for Reference In this first ever landmark study of New Mexico's wild carnivores Jean Luc E Cartron and Jennifer K Frey have assembled a team of leading southwestern biologists to explore the animals and the major issues that shape their continued presence in the state and region The book includes discussions on habitat evolving or altered ecosystems and new discoveries about animal behavior and range and it also provides details on the distribution habitat associations life history population status management and conservation needs of individual carnivore species in New Mexico Like Cartron's award winning *Raptors of New Mexico* *Wild Carnivores of New Mexico* shares the same emphasis on scientific rigor and thoroughness high readability and visual appeal Each chapter is illustrated with numerous color photographs to help readers visualize unique morphological or life history traits habitat research techniques and management and conservation issues Contributors Scott C Bender David L Bergman Stewart Breck David E Brown Kenneth C Calhoun Jean Luc E Cartron Joseph A Cook Cecily M Costello Jerry W Dragoo Jonathan L Dunnum Jennifer K Frey Colby M Gardner Eric M Gese Phillip S Gipson Elise Goldstein Matthew E Gompper Matthew J Gould David S Gutzler Arthur H Harris Robert L Harrison Christine C Hass Charles L Hayes IV Jacob S Ivan F Jack Triepke Kenneth A Logan Brian J Long Dustin H Long Robert C Lonsinger Timothy K Lowrey J Alan May Tracy Melbhiess John K Oakleaf Gary W Roemer Melissa Savage Cassidy M Steckbeck James N Stuart Linda L Sweanor Don E Wilson *Wahb* Ernest Thompson Seton, 2015-07-30 First published more than a century ago *The Biography of a Grizzly* recounts the life of a fictitious bear named Wahb who lived and died in the Greater Yellowstone region This new edition combines Ernest Thompson Seton's classic tale and original illustrations with historical and scientific context for Wahb's story providing a thorough understanding of the setting cultural connections biology and ecology of Seton's best known book By the time *The Biography of a Grizzly* was published in 1900 grizzly bears had been hunted out of much of their historical range in North America The characterization of Wahb along with Seton's other anthropomorphic tales of American wildlife helped to change public perceptions and promote conservation As editors Jeremy M Johnston and Charles R Preston remind us however Seton's approach to writing about animals put him at the center of the Nature Faker controversy of the early twentieth century when John Burroughs and Theodore Roosevelt among others denounced sentimental representations of wildlife The editors address conservation scientists' continuing concerns about inaccurate depictions of nature in popular culture Despite its anthropomorphism Seton's paradoxical book imparts a good deal of insightful and accurate natural history even as its exaggerations shaped early twentieth century public opinion on

conservation in often counterproductive ways By complicating Seton's enthralling tale with scientific observations of grizzly behavior in the wild Johnston and Preston evaluate the story's accuracy and bring the story of Yellowstone grizzlies into the present day Preserving the 1900 edition's original design and illustrations Wahb brings new understanding to an American classic updating the book for current and future generations

The Bear Doesn't Know Paul Schullery, 2021-09 At once a stirring adventure tale a candid memoir an offbeat natural history and a smart literary chronicle *The Bear Hunter's Century* Paul D Schullery, 2014-05-14 The years from 1820 to 1920 saw the sport of bear hunting at its greatest flowering Much of the country was still wild enough to support large numbers of both black and grizzly bears who in turn supported a remarkable assortment of bear hunters Some like David Crockett and Theodore Roosevelt became internationally famous Others like Wilburn Waters and Holt Collier are almost completely forgotten though their exploits were just as extraordinary *The Bear Hunter's Century* brings to life the hard thrilling lives of these men Not just a book of adventures this a fascinating social history told with wit and style a penetrating examination of the often inaccurate lore of bear hunting and a celebration of the amazing skills developed by the best bear hunters

[Taken By Bear in Glacier National Park](#) Kathleen Snow, 2020-05 With help from personnel at park headquarters Snow has collected more than 100 years worth of harrowing true stories that read like crime scene investigations and provide hard learned lessons in outdoor safety

Myths, Legends, and Folktales of America David Adams Leeming, Jake Page, 2000 Presents a variety of myths tales and legends Includes Native American tales about creation goddesses trickster gods the Indian and the white man as well as Hispanic American Asian American Anglo American and African American stories Features patriotic heroes American loners frontiersman and tall tales Western outlaws lawmen and cowboys slave rebels and Blues legends among other topics

[Desperate Journeys, Abandoned Souls](#) Edward E. Leslie, 1988 Explores the lives of survivors who were shipwrecked banished or abandoned during the past several centuries

The Bears of Alaska in Life and Legend Jeff Rennie, 1987 Looks at three species of bear inhabiting Alaska the black bear the grizzly bear and the polar bear through the legends and artifacts of the native people and through the research work of scientists

Close Encounters with Deadly Dangers Kendall Haven, 1998-12-15 The sounds of an anaconda slithering along the steamy jungle floor in search of prey a lion's breath rippling through the dry savannah grass as it crouches waiting to spring the frantic thrashing of a seal pup's tail as it recoils from the vicious attack of a tiger shark these are part of the natural drama of the animal world and daily events when deadly predators come face to face with their prey This book includes 15 exciting tales that are packed with accurate scientific information Students will thrill to the dramatic spine tingling accounts of natural predators in the wild As they read the stories they will learn about many of the world's ecosystems from tropical rain forests to the Arctic tundra from African watering holes to the Pacific reef

from Siberian forests to the Midwest prairie Each story is followed by suggestions for research and other activities
References on predators and ecosystems are also listed
