of queerness upon existing theories of opacity and temporality which involves a creative interdisciplinary approach to musical interpretation He advocates a model of analysis that involves both temporal specific listening and biographic oriented viewing Music analysis is woven into this illuminating aspects of parody nostalgia camp naivety masquerade irony and mimesis in pop music One of the principal aims is to uncover the subversive strategies of pop artists through a wide range of audiovisual texts that situate the debates on gender and sexuality within an aesthetic context that is highly stylized and ritualized Queerness in Pop Music also addresses the playfulness of much pop music offering insights into how discourses of resistance are mediated through pleasure Given that pop artists songwriters producers directors choreographers and engineers all contribute to the final composite of the pop recording it is argued that the staging of any pop act is a collective project The implications of this are addressed through structures of gender ethnicity nationality class and sexuality Ultimately Hawkins contends that queerness is a performative force that connotes futurity and utopian promise
