Desert Visions and the Making of Phoenix, 1860-2009 Philip VanderMeer, 2010-12-16 Whether touted for its burgeoning economy affordable housing and pleasant living style or criticized for being less like a city than a sprawling suburb Phoenix by all environmental logic should not exist Yet despite its extremely hot and dry climate and its remoteness Phoenix has grown into a massive metropolitan area This exhaustive study examines the history of how Phoenix came into being and how it has sustained itself from its origins in the 1860s to its present status as the nation's fifth largest city From the beginning Phoenix sought to grow and although growth has remained central to the city's history its importance meaning and value have changed substantially over the years The initial vision of Phoenix as an American Eden gave way to the Cold War Era vision of a High Tech Suburbia which in turn gave way to rising concerns in the late twentieth century about the environmental social and political costs of growth To understand how such unusual growth occurred in such an improbable location Philip VanderMeer explores five major themes the natural environment urban infrastructure economic development social and cultural values and public leadership Through investigating Phoenix's struggle to become a major American metropolis his study also offers a unique view of what it means to be a desert city

Mexicans at War Santiago A. Flores, 2019-09-19 The untold story of Mexican aviators in WWII including their role in the Battle of the Philippines is revealed in this illustrated military history When Mexico's neighbor to the north entered World War II German U Boats began haunting the North American coastline And when the Kriegsmarine torpedoed Mexican tankers the young republic was

drawn into the global conflict At first Mexico was forced to defend its coastline and shipping with general purpose biplanes But it quickly organized a modern aviation force equal to the task The newly formed Mexican Naval Aviation established its first squadron to patrol the Gulf of Mexico Meanwhile the Mexican Air Force experienced its most rapid growth since it was established in 1915 In 1944 it sent combat pilots to fight alongside the U S in the liberation of the Philippines Even before Mexico s official involvement Mexican nationals were volunteering for the Allied air forces of the British Commonwealth and the Free French naval and air forces Using photos and archival testimony Mexicans at War sheds much needed light on Mexican involvement in the Second World War The introduction also provides a detailed overview of Mexican military aviation from the Mexican Revolution to WWII Arizona Transportation History Mark E.
