from the glossy pages of magazines or appear larger than life on movie screens With role models such as these it's easy to find yourself wanting During his 25 year career as a plastic surgeon Dr Robert M Tornambe has worked with thousands of women and spent countless hours contemplating the nature of beauty particularly in situations where he was asked to perform a procedure he believed would diminish his patient's natural good looks In an attempt to provide as many options as possible he focused on helping women understand that while surgery has its place it isn't the only roadmap to looking and feeling great This focus led Dr Tornambe to devise The Beauty Quotient Formula a much more useful way to look at beauty While physical traits do play a role in beauty Dr Tornambe shows us that what makes any woman truly attractive is based largely on confidence charisma personality and a solid beauty routine and that more often than not going under the knife isn't necessary The Beauty Quotient Formula begins with a detailed quiz that helps you identify your strengths and weaknesses so you can work to enhance your intrinsic good qualities Your answers to the quiz will point you toward specific parts of Dr Tornambe's unique beauty regimen covering everything from firming your body to improving your skin to dealing with social anxiety to perfecting your unique style
