Skys The Limit Stories Of Discovery By Women And Girls:

The Sky's the Limit Catherine Thimmesh, 2002 This book presents brief accounts of the work of a variety of women scientists in such fields as astronomy biology anthropology and medicine **American Women of Science since 1900**

Tiffany K. Wayne, 2010-10-11 A comprehensive examination of American women scientists across the sciences throughout the 20th century providing a rich historical context for understanding their achievements and the way they changed the practice of science Much more than a Who's Who this exhaustive two volume encyclopedia examines the significant achievements of 20th century American women across the sciences in light of the historical and cultural factors that affected their education employment and research opportunities With coverage that includes a number of scientists working today the encyclopedia shows just how much the sciences have evolved as a professional option for women from the dawn of the 20th century to the present American Women of Science since 1900 focuses on 500 of the 20th century's most notable American women scientists many overlooked undervalued or simply not well known In addition it offers individual features on 50 different scientific disciplines Women in Astronomy etc as well as essays on balancing career and family girls and science education and other sociocultural topics Readers will encounter some extraordinary scientific minds at work getting a sense of the obstacles they faced as the scientific community faced the questions of feminism and gender confronting the nation as a whole **Sky's the Limit** Catherine Thimmesh, 2004-11-01 Presents brief accounts of the work of a variety of women scientists in such fields as astronomy biology anthropology and medicine **Local Theories of Argument** Dale Hample, 2021-03-25 Argumentation is often understood as a coherent set of Western theories birthed in Athens and developing throughout the Roman period the Middle Ages the Enlightenment and Renaissance and into the present century Ideas have been nuanced developed and revised but still the outline of argumentation theory has been recognizable for centuries or so it has seemed to Western scholars The 2019 Alta Conference on Argumentation co sponsored by the National Communication Association and the American Forensic Association aimed to question the generality of these intellectual traditions This resulting collection of essays deals with the possibility of having local theories of argument local to a particular time a particular kind of issue a particular place or a particular culture Many of the papers argue for reconsidering basic ideas about arguing to represent the uniqueness of some moment or location of discourse Other scholars are more comfortable with the Western traditions and find them congenial to the analysis of arguments that originate in discernibly distinct circumstances The papers represent different methodologies cover the experiences of different nations at different times examine varying sorts of argumentative events speeches court decisions food choices and sound explore particular personal identities and the issues highlighted by them and have different overall orientations to doing argumentation scholarship Considered together the essays do not generate one simple conclusion but they stimulate reflection about the particularity or generality of the experience of arguing and therefore the scope of our theories **How to Get Your Child**
