Slaughterhouse Blues The Meat And Poultry Industry In North America:

Slaughterhouse Blues Donald D. Stull, Michael J. Broadway, 2004 **SLAUGHTERHOUSE BLUES THE MEAT AND POULTRY INDUSTRY IN NORTH AMERICA** draws on more than 15 years of research by the authors a cultural anthropologist and a social geographer to present a detailed look at the meat and poultry industry in the United States and Canada Following chapters on today s beef poultry and pork industries **SLAUGHTERHOUSE BLUES** examines industry impacts on workers and on the communities that host its plants The book details the authors efforts to help communities plan for and mitigate the negative consequences of meat and poultry plants as well as community opposition to confined animal feeding operations The book concludes by exploring alternatives to North America s model of industrialized meat production

The Dobe Ju / Hoansi + Slaughterhouse Blues, 2nd Ed. , Meat, Medicine and Human Health in the Twentieth Century Christian Bonah, David Cantor, Mathias Dörries, 2015-10-06 This collection of essays explores some of the complex relations between meat and health in the twentieth century It highlights a complicated array of contradictory attitudes towards meat and human health They show how meat came to be regarded as a central part of a modern healthy diet and trace critiques of meat eating and the meat industry *Commercial Poultry Production on Maryland's Lower Eastern Shore* Solomon I. Omo-Osagie, 2012-06-07 *Commercial Poultry Production on Maryland's Lower Eastern Shore* traces the beginnings and development of commercial poultry production in this very important region African Americans were mainly involved in poultry production on the labor supply side which was crucial to the expansion of the industry Commercial poultry production expanded through vertical integration acquisitions mergers and consolidations and became the dominant economic activity on the Lower Maryland Eastern Shore in the 1950s Throughout the years the industry has intermixed with public health and the environment These integrations were problematic on several fronts as the industry sought to maintain a much needed economic lifeline for the region and yet protect public health and ensure a sustainable environment at the same time In all commercial poultry production has continued to fuel the local economy of the Lower Maryland Eastern Shore since its inception in the 1930s **The Human and the Meat** Chiara Stefanoni, 2025-09-19 Over 85 billion animals are killed in slaughterhouses yearly to sustain a profit driven meat production system devastating animals workers and the environment How did we get here How has capitalist society reshaped human animal relations Elaborating a novel materialist and intersectional framework Chiara Stefanoni conceptualizes the social form of human animal relations and its centrality within the interconnected structure of domination in capitalist societies especially in relation to gender and class Through a historical analysis of industrial slaughterhouses the study reveals how the human animal divide and meat based diet are not timeless facts but concrete social solutions crucial for the reproduction of capitalist society Fresh Susanne Freidberg, 2010-10-01 That rosy tomato perched on your plate in December is at the end of a great journey not just over land and sea but across a vast and varied cultural history This is the territory charted in *Fresh* Opening the door of an ordinary

refrigerator it tells the curious story of the quality stored inside freshness We want fresh foods to keep us healthy and to connect us to nature and community We also want them convenient pretty and cheap Fresh traces our paradoxical hunger to its roots in the rise of mass consumption when freshness seemed both proof of and an antidote to progress Susanne Freidberg begins with refrigeration a trend as controversial at the turn of the twentieth century as genetically modified crops are today Consumers blamed cold storage for high prices and rotten eggs but ultimately aggressive marketing advances in technology and new ideas about health and hygiene overcame this distrust Freidberg then takes six common foods from the refrigerator to discover what each has to say about our notions of freshness Fruit for instance shows why beauty trumped taste at a surprisingly early date In the case of fish we see how the value of a living quivering catch has ironically hastened the death of species And of all supermarket staples why has milk remained the most stubbornly local Local livelihoods global trade the politics of taste community and environmental change all enter into this lively surprising yet sobering tale about the nature and cost of our hunger for freshness *Superfund laws and animal agriculture* United States. Congress. House. Committee on Energy and Commerce. Subcommittee on Environment and Hazardous Materials,2005 *The Monster at Our Door* Mike Davis,2006-08-22 In this first book to sound the alarm on a possible pandemic Davis tracks the avian flu crisis as the virus moves west and the world remains woefully unprepared to contain it *Cheap Meat* Deborah B. Gewertz,Frederick Karl Errington,2010 Gewertz and Errington unpack the aspirations and anxieties calculations and controversies that inhabit an inexpensive cut of fatty meat Following the trail of sheep bellies from slaughterhouses in Australia and New Zealand to the plates of Pacific Islanders they evenhandedly map the divergent perspectives of commercial traders government officials and ordinary consumers acting within a contested material and moral economy Cheap Meat provides a startling view of how global food markets fashion the bodies and identities of people everywhere Robert J Foster author of *Coca Globalization* Following Soft Drinks from New York to New Guinea Cheap Meat is a compelling example of how ethnography concerned with Oceania can elucidate broader questions in anthropology and the social sciences in general Gewertz and Errington show the complexity of globalization by focusing on the most unlikely commodity This work at once demonstrates how unfettered capitalism is able to use global circulation to literally convert one person s trash to another s treasure and how resilient Pacific Islanders refashion Western commodities to their own ends Paige West Curator for the Pacific American Museum of Natural History **ReFiguring Global Challenges** ,2023-10-20 An important task for scholars of cultural studies and the humanities as well as for artistic creators is to refigure the frames and concepts by which the world as we know it is kept in place Without these acts of refiguration the future could only ever be more of the violent same In close dialogue with literary and cinematic works and practices the essays of this volume help refigure and rethink such pressing contemporary issues as migration inequality racism post coloniality political violence and human animal relations A range of fresh perspectives are introduced amounting to a call for intellectuals to remain critically engaged with the social and planetary **Scratching**

Out a Living Angela Stuesse, 2016-01-26 What does globalization look like in the rural South Scratching Out a Living takes readers deep into Mississippi's chicken processing communities and workplaces where large numbers of Latin American migrants began arriving in the mid 1990s to labor alongside an established African American workforce in some of the most dangerous and lowest paid jobs in the country Based on six years of collaboration with a local workers center activist anthropologist Angela Stuesse explores how Black white and new Latino residents have experienced and understood these transformations Illuminating connections between the area's long history of racial inequality the poultry industry's growth immigrants contested place in contemporary social relations and workers prospects for political mobilization Scratching Out a Living calls for organizing strategies that bring diverse working communities together in mutual construction of a more just future Provided by publisher

Tied to the Great Packing Machine Wilson J. Warren, 2009-11 Ambitious in its historical scope and its broad range of topics Tied to the Great Packing Machine tells the dramatic story of meatpacking's enormous effects on the economics culture and environment of the Midwest over the past century and a half Wilson Warren situates the history of the industry in both its urban and its rural settings moving from the huge stockyards of Chicago and Kansas City to today's smaller meatpacking communities and thus presents a complete portrayal of meatpacking's place within the larger agro industrial landscape Writing from the vantage point of twenty five years of extensive research Warren analyzes the evolution of the packing industry from its early period dominated by the big terminal markets through the development of new marketing and technical innovations that transformed the ways animals were gathered slaughtered and processed and the final products were distributed In addition he concentrates on such cultural impacts as ethnic and racial variations labor unions gender issues and changes in Americans attitudes toward the ethics of animal slaughter and patterns of meat consumption and such environmental problems as site point pollution and microbe contamination ending with a stimulating discussion of the future of American meatpacking Providing an excellent

and well referenced analysis within a regional and temporal framework that ensures a fresh perspective Tied to the Great Packing Machine is a dynamic narrative that contributes to a fuller understanding of the historical context and contemporary concerns of an extremely important industry U.S. Food Policy Lisa Markowitz, John A. Brett, 2013-09-13 Inequity of control over food systems is a particularly insidious form of injustice Collectively the contributors to this volume posit that this inequity is rooted in power asymmetries in the U S food system and codified through U S food policies This process puts the public at risk in the U S and via trade and foreign aid policies in the Global South Inequities are manifest in the allocation of food and food producing resources in favor of the wealthy exploitation of the natural environment for short term gain of private interests over long term public ones the framing of public discussion on food and food deprivation and finally the deflection of moral challenges posed by human rights to food The contributors draw on long term anthropological field research to examine these tensions and their on the ground outcomes in diverse cultural and national contexts The authors insightful analyses span a wide variety of topics including dietary change food insecurity livestock production and organic farming in the light of U S trade food labor and agricultural policies and food assistance programs The collection highlights the obstacles to and the dilemmas and inconsistencies in shaping policy in the public interest This book was originally published as a special issue of *Food Foodways* *The Mayans Among Us* Ann L. Sittig, Martha Florinda González, 2016 The *Mayans Among Us* conveys the unique experiences of Central American indigenous immigrants to the Great Plains many of whom are political refugees from repressive war torn countries Ann L Sittig a Spanish instructor and Martha Florinda González a Mayan community leader living in Nebraska have gathered the oral histories of contemporary Mayan women living in the state and working in meatpacking plants Sittig and González initiated group dialogues with Mayan women about the psychological sociological and economic wounds left by war poverty immigration and residence in a new country Distinct from Latin America s economic immigrants and often overlooked in media coverage of Latino and Latina migration to the plains the Mayans share their concerns and hopes as they negotiate their new home culture language and life in Nebraska Longtime Nebraskans share their perspectives on the immigrants as well The *Mayans Among Us* poignantly explores how Mayan women in rural Nebraska meatpacking plants weave together their three distinct identities Mayan Central American and American **The Rural Midwest Since World War II** J. L. Anderson, 2014-02-01 J L Anderson seeks to change the belief that the Midwest lacks the kind of geographic coherence historical issues and cultural touchstones that have informed regional identity in the American South West and Northeast The goal of this illuminating volume is to demonstrate uniqueness in a region that has always been amorphous and is increasingly so Midwesterners are a dynamic people who shaped the physical and social landscapes of the great midsection of the nation and they are presented as such in this volume that offers a general yet informed overview of the region after World War II The contributors most of whom are Midwesterners by birth or residence seek to better understand a particular piece of rural America a place too often

caricatured misunderstood and ignored. However, the rural landscape has experienced agricultural diversity and major shifts in land use. Farmers in the region have successfully raised new commodities from dairy and cherries to mint and sugar beets. The region has also been a place where community leaders fought to improve their economic and social well-being; women redefined their roles on the farm; and minorities asserted their own version of the American Dream. The rural Midwest is a regional melting pot, and contributors to this volume do not set out to sing its praises or, by contrast, assume the position of Midwestern modesty and self-deprecation. The essays herein rewrite the narrative of rural decline and crisis and show, through solid research and impeccable scholarship, that rural Midwesterners have confronted and created challenges uniquely their own.

In Defense of Farmers Jane Winslow Gibson, Sara E. Alexander, 2019-07. Industrial agriculture is generally characterized as either the salvation of a growing hungry global population or as socially and environmentally irresponsible. Despite elements of truth in this polarization, it fails to focus on the particular vulnerabilities and potentials of industrial agriculture. Both representations obscure individual farmers, their families, their communities, and the risks they face from unpredictable local, national, and global conditions: fluctuating and often volatile production costs and crop prices; extreme weather exacerbated by climate change; complicated and changing farm policies; new production technologies and practices; water availability; inflation and debt; and rural community decline. Yet the future of industrial agriculture depends fundamentally on farmers' decisions. *In Defense of Farmers* illuminates anew the critical role that farmers play in the future of agriculture and examines the social, economic, and environmental vulnerabilities of industrial agriculture as well as its adaptations and evolution. Contextualizing the conversations about agriculture and rural societies within the disciplines of sociology, geography, economics, and anthropology, this volume addresses specific challenges farmers face in four countries: Bolivia, Brazil, Canada, and the United States. By concentrating on countries with the most sophisticated production technologies capable of producing the largest quantities of grains, soybeans, and animal proteins in the world, this volume focuses attention on the farmers whose labor, decision making, and risk taking throw into relief the implications and limitations of our global industrial food system. The case studies here acknowledge the agency of farmers and offer ways forward in the direction of sustainable agriculture.

The Routledge History of American Foodways Michael D. Wise, Jennifer Jensen Wallach, 2016-02-12. *The Routledge History of American Foodways* provides an important overview of the main themes surrounding the history of food in the Americas from the pre-colonial era to the present day. By broadly incorporating the latest food studies research, the book explores the major advances that have taken place in the past few decades in this crucial field. The volume is composed of four parts. The first part explores the significant developments in US food history in one of five time periods to situate the topical and thematic chapters to follow. The second part examines the key ingredients in the American diet throughout time, allowing authors to analyze many of these foods as items that originated in or dramatically impacted the Americas as a whole and not just the United States. The third part focuses on how these

ingredients have been transformed into foods identified with the American diet and on how Americans have produced and presented these foods over the last four centuries The final section explores how food practices are a means of embodying ideas about identity showing how food choices preferences and stereotypes have been used to create and maintain ideas of difference Including essays on all the key topics and issues The Routledge History of American Foodways comprises work from a leading group of scholars and presents a comprehensive survey of the current state of the field It will be essential reading for all those interested in the history of food in American culture *Anxious Appetites* Peter Jackson, 2015-09-24

Despite government claims that food is safer and more readily available today than ever before recent survey evidence demonstrates high levels of food related anxiety among Western consumers While chronic hunger and malnutrition are relatively rare in the West food scares relating to individual products concerns about global food security and other expressions of consumer anxiety about food remain widespread *Anxious Appetites* explores the causes of these present day anxieties Looking at fears over provenance and regulation in a world of lengthening supply chains and greater concentration of corporate power Peter Jackson investigates how anxieties about food circulate and how they act as a channel for broader social issues Drawing on case studies such as the 2013 horsemeat scandal and fears about the contamination of infant formula in China in 2008 he examines how and why these concerns emerge Comparing survey results with ethnographic observation of consumer practice he explores the gap between official advice about food safety and people s everyday experience of food including a critique of ideological notions of consumer choice A captivating timely book which presents a new theory of social anxiety
