American Adventurism Abroad Michael J. Sullivan, 2004-08-30 This book provides a comparative analysis of 30 American interventions into Third World countries An historical approach is used to place the featured cases into a more general history of American Diplomacy The author uses his assessments to prove that U S foreign policy has been driven by the goal of being the ultimate power in the global capitalist economic system The author makes his work unique by giving a critical view of America's place in the world during an anticipated time of war and raised patriotism He provides a scholarly look at U S diplomacy leading up to the era of the War on Terror Sullivan explains how over the past 50 years the U S has

come to succeed Europe as ruler of the global economic system The political systems which have been promoted by the U S to preserve worldwide capitalism range from one party rule to monarchies and recurring civil war The interventions discussed have proved to be short term successes for U S policy but more often tragic for the local societies affected Sullivan draws on his 1996 release Comparing State Politics to create a number of tables that place U S involvement into geographic and hierarchic perspective The reader is ultimately provided with a provocative thesis that challenges traditional interpretations of America s role in the world This book will be an asset to any undergraduate college student taking classes in political science or history It will also appeal to a general audience

Cycles in US Foreign Policy since the Cold War

Thomas H. Henriksen, 2017-01-25 This book describes how American international policy alternates between engagement and disengagement cycles in world affairs These cycles provide a unique way to understand assess and describe fluctuations in America s involvement or non involvement overseas In addition to its basic thesis the book presents a fair minded account of four presidents foreign policies in the post Cold War period George H W Bush Bill Clinton George W Bush and Barack Obama It suggests recurring sources of cyclical change along with implications for the future An engaged or involved foreign policy entails the use of military power and diplomatic pressure against other powers to secure American ends A disengaged or noninvolved policy relies on normal economic and political interaction with other states which seeks to disassociate from entanglements

Making War and Building Peace Michael W. Doyle, Nicholas Sambanis, 2011-04-22 Making War and Building Peace examines how well United Nations peacekeeping missions work after civil war Statistically analyzing all civil wars since 1945 the book compares peace processes that had UN involvement to those that didn t Michael Doyle and Nicholas Sambanis argue that each mission must be designed to fit the conflict with the right authority and adequate resources UN missions can be effective by supporting new actors committed to the peace building governing institutions and monitoring and policing implementation of peace settlements But the UN is not good at intervening in ongoing wars If the conflict is controlled by spoilers or if the parties are not ready to make peace the UN cannot play an effective enforcement role It can however offer its technical expertise in multidimensional peacekeeping operations that follow enforcement missions undertaken by states or regional organizations such as NATO Finding that UN missions are most effective in the first few years after the end of war and that economic development is the best way to decrease the risk of new fighting in the long run the authors also argue that the UN s role in launching development projects after civil war should be expanded

Bosnian Genocide Paul R. Reference Guide is the first encyclopedic treatment of the Balkan conflicts of the period from 1991 to 1999. It provides broad coverage of the nearly decade long conflict but with a major focus on the Bosnian War of 1992-1995. The book examines a variety of perspectives of the conflicts relating to Slovenia, Croatia, Bosnia Herzegovina, Serbia, and Kosovo among other developments that took place during the years spotlighted. The entries consider not only the leaders, ideas, movements, and events relating to the Bosnian War of 1992-1995 but also examine themes from before the war and after it. As such, coverage continues through to the Kosovo Intervention of 1999, arguing that this event too was part of the conflict that purportedly ended in 1995. This work will serve university students undertaking the study of genocide in the modern world and readers interested in modern wars, international crisis management, and peacekeeping and peacemaking. *Block by Block* William Glenn Robertson, Lawrence A. Yates, 2003. First published by the Combat Studies Institute Press. The resulting anthology begins with a general overview of urban operations from ancient times to the midpoint of the twentieth century. It then details ten specific case studies of U.S., German, and Japanese operations in cities during World War II and ends with more recent Russian attempts to subdue Chechen fighters in Grozny and the Serbian siege of Sarajevo. Operations range across the spectrum from combat to humanitarian and disaster relief. Each chapter contains a narrative account of a designated operation, identifying and analyzing the lessons that remain relevant today. *Pashtun Identity and Geopolitics in Southwest Asia* Iftikhar H. Malik, 2016-07-18. This book juxtaposes vital issues of Pashtun identity, state formation, Taliban on both sides of the Durand Line, Frontier Crimes Regulation, security prerogative, and the civil societies of Pakistan and Afghanistan, which since 9/11 have been posited in a rather precarious geopolitics. During the 2016 presidential election, many younger voters repudiated Hillary Clinton because of her husband's support for mass incarceration, banking deregulation, and free trade agreements that led many U.S. jobs to be shipped overseas. Warmonger: How Clinton's Malign Foreign Policy Launched the Trajectory from Bush II to Biden shows that Clinton's foreign policy was just as bad as his domestic policy. Cultivating an image as a former anti-Vietnam War activist to win over the aging hippie set in his early years, as president Clinton bombed six countries and by the end of his first term had committed U.S. troops to 25 separate military operations compared to 17 in Ronald Reagan's two terms. Clinton further expanded America's covert empire of overseas surveillance outposts and spying and increased the budget for intelligence spending and the National Endowment for Democracy (NED), a CIA offshoot which promoted regime change in foreign nations. The latter was not surprising because, according to CIA operative Cord Meyer Jr., Clinton had been recruited into the CIA while a Rhodes Scholar at Oxford and as Governor of Arkansas in the 1980s he had allowed clandestine arms and drug flights to Nicaraguan counter-revolutionaries, Contras, backed by the CIA to be taken from Mena Airport in the western part of the

state Rather than being a time of tranquility when the U S failed to pay attention to the gathering storm of terrorism as New York Times columnist David Brooks frames it the Clinton presidency saw rising tensions among the U S China and Russia because of Clinton s malign foreign policies and U S complicity in terrorist acts In so many ways Clinton s presidency set the groundwork for the disasters that were to follow under Bush II Obama Trump and Biden It was Clinton building off of Reagan who first waged a War on Terror ridden with double standards one that adopted terror tactics including extraordinary rendition bombing and the use of drones It was Clinton who cried wolf about human rights abuses and the need to protect beleaguered peoples from genocide to justify military intervention in a post Cold War age And it was Clinton s administration that pressed for regime change in Iraq and raised public alarm about the mythic WMDs all while relying on fancy new military technologies and private military contractors to distance US shady military interventions from the public to limit dissent

Rethinking the Nature of War Isabelle Duyvesteyn,Jan Angstrom,2005 Have globalization virulent ethnic differences and globally operating insurgents fundamentally changed the nature of war in the last decade Interpretations of war as driven by politics and state rationale formulated most importantly by the 19th century practitioner Carl von Clausewitz have received strong criticism Political explanations have been said to fall short in explaining conflicts in the Balkans Africa Asia and the attacks of 11

September 2001 in the United States This book re evaluates these criticisms not only by scrutinising Clausewitz s arguments and their applicability but also by a careful reading of the criticism itself In doing so it presents empirical evidence on the basis of several case studies addressing various aspects of modern war such as the actors conduct and purposes of war
