**Slave Society in Cuba During the Nineteenth Century** Franklin W. Knight, 1970      **Women and Slavery in Nineteenth-century Colonial Cuba** Sarah L. Franklin, 2012 Scholars have long recognized the importance of gender and hierarchy in the slave societies of the New World yet gendered analysis of Cuba has lagged behind study of other regions Cuban elites recognized that creating and maintaining the Cuban slave society required a rigid social hierarchy based on race gender and legal status Given the dramatic changes that came to Cuba in the wake of the Haitian Revolution and the growth of the enslaved population the maintenance of order required a patriarchy that placed both women and slaves among the lower ranks Based on a variety of archival and printed primary sources this book examines how patriarchy functioned outside the confines of the family unit by scrutinizing the foundation on which nineteenth century Cuban patriarchy rested This book investigates how patriarchy operated in the lives of the women of Cuba from elite women to slaves Through chapters on motherhood marriage education public charity and the sale of slaves insight is gained into the role of patriarchy both as a guiding ideology and lived history in the Caribbean s longest lasting slave society Publisher s description

The World of Sugar Ulbe Bosma, 2023-05-09 A tour de force of global history Bosma has turned the humble sugar crystal into a mighty prism for understanding aspects of global history and the world in which we live Los Angeles Review of Books The definitive 2 500 year history of sugar and its human costs from its little known origins as a luxury good in Asia to worldwide environmental devastation and the obesity pandemic For most of history humans did without refined sugar After all it serves no necessary purpose in our diets and extracting it from plants takes hard work and ingenuity Granulated sugar was first produced in India around the sixth century BC yet for almost 2 500 years afterward sugar remained marginal in the diets of most people Then suddenly it was everywhere How did sugar find its way into almost all the food we eat fostering illness and ecological crisis along the way The World of Sugar begins with the earliest evidence of sugar production Through the Middle Ages traders brought small quantities of the precious white crystals to rajahs emperors and caliphs But after sugar crossed the Mediterranean to Europe where cane could not be cultivated demand spawned a brutal quest for supply European cravings were satisfied by enslaved labor two thirds of the 12 5 million Africans taken

across the Atlantic were destined for sugar plantations By the twentieth century sugar was a major source of calories in diets across Europe and North America Sugar transformed life on every continent creating and destroying whole cultures through industrialization labor migration and changes in diet Sugar made fortunes corrupted governments and shaped the policies of technocrats And it provoked freedom cries that rang with world changing consequences In Ulbe Bosma s definitive telling to understand sugar s past is to glimpse the origins of our own world of corn syrup and ethanol and begin to see the threat that a not so simple commodity poses to our bodies our environment and our communities **Slavery and Identity** Mieko

nation state Utilizing rare primary documents on the Afro Cuban communities in the nineteenth and twentieth centuries **Breaking the Chains Forging the Nation** explores how black resistance to exploitative systems played a central role in the making of the Cuban nation **Slavery and Antislavery in Spain's Atlantic Empire** Josep M. Fradera, Christopher Schmidt-Nowara, 2013-06-01 African slavery was pervasive in Spain's Atlantic empire yet remained in the margins of the imperial economy until the end of the eighteenth century when the plantation revolution in the Caribbean colonies put the slave traffic and the plantation at the center of colonial exploitation and conflict The international group of scholars brought together in this volume explain Spain's role as a colonial pioneer in the Atlantic world and its latecomer status as a slave trading plantation based empire These contributors map the broad contours and transformations of slave trafficking the plantation and antislavery in the Hispanic Atlantic while also delving into specific topics that include the institutional and economic foundations of colonial slavery the law and religion the influences of the Haitian Revolution and British abolitionism antislavery and proslavery movements in Spain race and citizenship and the business of the illegal slave trade

**Constructing the Spanish Empire in Havana** Evelyn Jennings, 2020-12-16 Constructing the Spanish Empire in Havana examines the political economy surrounding the use of enslaved laborers in the capital of Spanish imperial Cuba from 1762 to 1835 In this first book length exploration of state slavery on the island Evelyn P Jennings demonstrates that the Spanish state's policies and practices in the ownership and employment of enslaved workers after 1762 served as a bridge from an economy based on imperial service to a rapidly expanding plantation economy in the nineteenth century The Spanish state had owned and exploited enslaved workers in Cuba since the early 1500s After the humiliating yearlong British occupation of Havana beginning in 1762 however the Spanish Crown redoubled its efforts to purchase and maintain thousands of royal slaves to prepare Havana for what officials believed would be the imminent renewal of war with England Jennings shows that the composition of workforces assigned to public projects depended on the availability of enslaved workers in various interconnected labor markets within Cuba within the Spanish empire and in the Atlantic world Moreover the site of enslavement the work required and the importance of that work according to imperial priorities influenced the treatment and relative autonomy of those laborers as well as the likelihood they would achieve freedom As plantation production for export purposes emerged as the most dynamic sector of Cuba's economy by 1810 the Atlantic networks used to obtain enslaved workers showed increasing strain British abolitionism exerted additional pressure on the slave trade To offset the loss of access to enslaved laborers colonial officials expanded the state's authority to sentence deserters vagrants and fugitives both enslaved and free to labor in public works such as civil construction road building and the creation of Havana's defensive forts State efforts in this area demonstrate the deep roots of state enslavement and forced labor in nineteenth century Spanish colonialism and in capitalist development in the Atlantic world Constructing the Spanish Empire in Havana places the processes of building and sustaining the Spanish empire in the imperial hub of Havana in a comparative perspective with

other sites of empire building in the Atlantic world Furthermore it considers the human costs of reproducing the Spanish empire in a major Caribbean port the state s role in shaping the institution of slavery and the experiences of enslaved and other coerced laborers both before and after the beginning of Cuba s sugar boom in the early nineteenth century
