**Crime and Control in China** Børge

Bakken, 2022-10-12 China is a transitional society with one of the highest inequality rates in the world Criminologists would typify this as a highly toxic combination creating very high levels of crime Yet China reports extremely low crime rates How might this be With this book Børge Bakken shows that the reality in China does not match the rosy picture of low crime and rule by law that the authorities present to the world Looking beyond the statistics Bakken discovers that violent crime is a particularly sensitive issue deliberately censored by party propaganda and by an unaccountable police force that can vanish any type of crime to a degree that makes a crime rate a mere formality As Bakken reveals official Chinese crime statistics cannot be used to make assumptions about China's crime profile Even the assumption that crime represents the problem and control its solution is not valid Bakken argues Because when control becomes part of the problem the false assumption of a harmonious society evaporates rendering harmony a myth and violence the traumatic reality This meticulous investigation of

crime and justice in China is crucial reading for those interested in the Chinese regime and China's state control as well as criminologists and sociologists of crime

Ma, Fulong Wu, 2004-08-02 A sea of change has occurred in China since the 1978 economic reforms Bringing together the work of leading scholars specializing in urban China this book examines what has happened to the Chinese city undergoing multiple transformations during the reform era with an emphasis on new processes of urban formation and the consequent reconstituted urban spaces With arguments against the convergence thesis that sees cities everywhere becoming more Western in form and suggestions that the Chinese city is best seen as a multiplex city Restructuring the Chinese City is an indispensable text for Chinese specialists urban scholars and advanced students in urban geography urban planning and China studies

**The Illegal City** Ayona Datta, 2016-03-03 The Illegal City explores the relationship between space law and gendered subjectivity through a close look at an illegal squatter settlement in Delhi Since 2000 a series of judicial rulings in India have criminalised squatters as illegal citizens encroachers and pickpockets of urban land and have led to a spate of slum demolitions across the country This book argues that in this context it has become vital to distinguish between illegality and informality since it is those illegal slums which are at the receiving end of a force of law where law is violently encountered within everyday spaces This book uses a gendered intersectional lens to explore how a violence of law shapes how public subjectivities of gender class religion and caste are encountered and negotiated within the private spaces of home family and neighbourhood This book suggests that resettlement is not a condition that squatters desire rather something that is seen as the only way out of the illegal city The wait for resettlement is a temporal space of anxiety and uncertainty where particular kinds of politics around law space and gender takes shape which transform squatters relations with the state urban development civil society and with each other Through their everyday struggles around water sanitation social and political organisation and the transformation of their homes and families this book shows that the desire for the legal city is also the irony and utopia of home which will remain an incomplete gendered project both for the state and for squatters

**Postsocialist Landscapes** Thomas Lahusen, Schamma Schahadat, 2020-04-02 Since the fall of the Iron Curtain formerly socialist countries have gone through manifold transformations whilst remnants of socialism remain ubiquitous The volume explores various spaces of the postsocialist landscape presenting a mixture of real and imaginary spaces of memory and nostalgia of aesthetic and political symbolism of the global East and the global South of academic and essayistic writing It casts a glance at the heterogeneous relics of socialism and their transformation in very different parts of the world From the description of post socialist interiors fa ades neighborhoods parks monuments and objects towards the imaginary spaces of literature the contributors describe the

concreteness and intimacy of some of the places that span across and even beyond of what is left of the second world today

*Slum Acts* Veena Das, 2022-01-31 This book examines the ways in which knowledge that is inordinate excessive and overwhelming comes to mark everyday life in low income poor neighborhoods in Delhi with crumbling infrastructures and pervasive violence Based on long term ethnography in these spaces this book provides a detailed analysis of the institutions of the state particularly of policing and law in India It argues that catastrophic events at the national level and the techniques of governance through which they are handled secrete forms of knowing that get embedded into the nooks and crannies of everyday life eroding trust sowing suspicions and leading to an exhaustion of capacity for care Yet the paths to survival honed within these spaces generate critique that compels us to ask how punishment and torture become routinized in democracies Following the paths of those who struggle with these questions in these neighborhoods the book finds that deep philosophical questions such as the inhuman as a possibility of the human rather than its boundary arise in the weaves of these lives and are experienced as a dimension of the social This book will be of great interest to students and scholars in anthropology and throughout the social sciences and humanities
