each of the featured apartments achieves the perfect balance between cool design and the homeowner's lifestyle with a sprinkling of influences from the resident's city thrown in. Kyle scours flea markets for functional pieces with personality and incorporates Pollock inspired art and touches of taxicab yellow to make a small studio in New York City function as four different yet coherent rooms. Graffiti like dip dye curtains and a skateboard table reflect a Seattle renter's hip sensibility. In Cleveland Kyle creates a modern preppy space for a plaid loving local using subdued colors and careful pattern mixing. A couple's salon style hanging of rock posters in Nashville feels utterly unique and Kyle's clever ideas for storing to store their musical instruments keep the duo sane. Short on time and long on style the thirty DIY projects include no sew pillows yarn wrapped picture frames and a dresser update using a little glue and fabric. Full of bold vibrant photos and hundreds of big ideas for small spaces *The First Apartment Book* proves that no matter what your landlord your floor plan or your wallet says there are no limits on how cool your first apartment can be.

Through His Letters Rush Whitacre, 2012 In 2010 a reoccurring dream about Taylor Swift sends Rush Whitacre down the path of trying to answer her question from his dream. Color. Which Color. Along the way in recording his history Rush finds solace in his writing while both his parents nearly die his education crumbles beneath him and his only home disappears before his eyes as he is ever pushed in the direction of moving to New York to find his place in the universe. There are 365 letters and 365 poems. In Rush's words You may find yourself in my pages my poems and sometimes wrapped up inside my arms crying with me as I did upon my work countless times.

Aphids on the World's Herbaceous Plants and Shrubs, 2 Volume Set R. L. Blackman, Victor F. Eastop, 2008-04-15 Aphids are well known as pests of agriculture horticulture and forestry but they are also one of the most biologically interesting groups of plant feeding insects and thus have attracted the attention of biologists in many research fields such as ecology biodiversity physiology behaviour and genetics. Following the successful format of previous books on the world's aphids by the same authors these two volumes provide a comprehensive species by species account of the aphids on the world's herbaceous plants and shrubs. They can be used not only as an identification guide and information source for entomologists and taxonomists throughout the world but also as a unique database for studies of biodiversity and insect plant relationships. In all 3120 aphid species in 340 genera are covered feeding on 2150 genera of host plants. Volume 1 features comprehensive host lists and keys to the aphids colonizing each plant genus. This information is supplemented in Volume 2 by a systematic account of all the aphid species which provides information on their appearance in life host range geographical distribution and life cycles. There are 357 original line drawings 252 photographs of slide mounted specimens and 1000 references. *Aphids on the World's Herbaceous Plants and Shrubs* is the culmination of many years of work by two leading specialists and provides an essential research tool and standard reference.
