The Globalization of Strangeness C. Rumford, 2013-01-21 The figure of the stranger is in serious need of revision as is our understanding of the society against which the stranger is projected Under conditions of globalization inside outside markers have been eroded and conventional indicators of whiteness are no longer reliable We now live in a generalized state of strangeness one consequence of globalization we no longer know where our community ends and another one begins In such circumstances it is often the case that neighbours are the nearest strangers Strangeness occurs when global consciousness outstrips global connectivity and this means that we need to rethink some core elements of globalization theory Under conditions of strangeness the stranger is a here today gone tomorrow figure This book identifies the cosmopolitan stranger as the most significant contemporary figure of the stranger one adept at negotiating the confined spaces of globalization in order to promote new forms of social solidarity and connect with distant others

Vaudeville and the Making of Modern Entertainment, 1890-1925 David Monod, 2020-09-28 Today vaudeville is imagined as a parade of slapstick comedians

blackface shouters coyly revealed knees and second rate acrobats But vaudeville was also America s most popular commercial amusement from the mid 1890s to the First World War at its peak 5 million Americans attended vaudeville shows every week Telling the story of this pioneering art form s rise and decline David Monod looks through the apparent carnival of vaudeville performance and asks what made the theater so popular and transformative Although he acknowledges its quirkiness Monod makes the case that vaudeville became so popular because it offered audiences a guide to a modern urban lifestyle Vaudeville acts celebrated sharp city styles and denigrated old fashioned habits showcased new music and dance moves and promulgated a deeply influential vernacular modernism The variety show s off the rack trendiness perfectly suited an era when goods and services were becoming more affordable and the mass market promised to democratize style offering a clear vision of how the quintessential twentieth century citizen should look talk move feel and act *The Cinematic City* David Clarke,2005-08-19 *The Cinematic City* offers an innovative and thought provoking insight into cityscape and screenscape and their inter connection Illustrated throughout with movie stills a diverse selection of films from *Bladerunner* to *Little Caesar* genres cities and historical periods are examined by leading names in the field The key dimensions of film and urban theory are introduced before detailed analysis of the various cinematic forms which relate most significantly to the city From early cinema and documentary film to film noir New Wave and postmodern cinema the contributors provide a wealth of empirical material and illustration whilst drawing on the theoretical insights of contemporary feminism Benjamin Baudrillard Foucault Lacan and others *The Cinematic City* shows how the city has been undeniably shaped by the cinematic form and how cinema owes much of its nature to the historical development of urban space Engaging with current theoretical debates this is a book that is set to change the way in which we think about both the nature of the city and film Contributors Giuliana Bruno Iain Chambers Marcus Doel David Clarke Anthony Easthope Elisabeth Mahoney Will Straw Stephen Ward John Gold James Hay Rob Lapsley Frank Krutnik *Spotting the Devil Spotting the Devil from Far and Near* Rev. Bagan Tewa,2009-04-20 *Spotting The Devil Spotting The Devil From Far and Near* Avoiding The Trap Of Negative Behavior In Order To Fulfill The Purpose Of Ones Life The word devil in this book is not used in the traditional sense The word devil conjures up a powerful image of everything that is negative and destructive and it is in this sense that the word is used We are surrounded by it In many ways we are consumed by it yet man is afraid to utter the word as if by saying the word devil man is somehow admitting that he is accepting of this taboo and is in aggreance with the devil force This book says that we must and can learn to identify all these negatives as they come at us in order to avoid the dire consequences that come about as a result of our contact with these devils in our society This book seeks to examine the world in which we live with an analytical approach to why we as the human race make the choices in life that we do It starts with a simple story about an incident that happens in the authors childhood with the intention of explaining why the author sees things the way he does and coming to the realization that this was a defining moment in his life even though he did not know it at the time

This book looks at fear the fear that is an obstacle to most of us and this fear is something we take for granted Most of us think that this fear is normal and that there is no way around it Not true as the author explains He goes into the reasons why we must conquer these fears and where most of these fears originate The author goes on to explain friendship and how we are so easily lulled into different behavior how easy it is for us to get caught up in the moment and how easily it is to get carried away usually to our detriment In using stories from his life experience he takes the reader on a journey and in every step of that journey he unfolds a secret There is so much that we take for granted and yet so much of this behavior can be prevented if we could only recognize what is coming at us just like the driver who knows he is about to collide with another car because he sees it coming towards him from the opposite direction The author looks at popular culture from the inside out and shows us how we are surrounded by so much negativity yet we dont know it because we do not look at society from this angle We can have a greater appreciation for the images that are fed to us if we see them for what they are and we can watch and enjoy without becoming consumed by fantasy if we understand the motives behind what is being fed to us In these times it is crucial that we learn from the mistakes of the past and we challenge ourselves to be more disciplined and to develop our sense of foresight because we all have the gift We are born with it but as we grow we allow societys ills to get the better of us and we just follow rather than lead ourselves into a better life where we can find the fulfillment that we all seek This book looks at first the microcosm and then the macrocosm taking a peek at wars and what is the lesson of these wars The author also looks at religion and mans attitude towards it Why do we get caught up in imagery and names and not listen to what is truth and what makes sense We follow even when two plus two does not make four we follow blindly and again are led downstream Finally the author looks at colors that have been in cultures for thousands of years and unravels the associations that many have come to attach to certain colors This book is an eye opener written in a simple language that would only serve to enlighten and unravel some of the mysteries that make life so complex The key is right in front of us We feel it therefore we know it and we are in denial more than we are not Do we get dressed everyday for the creator or do we get dressed for ourselves It is true that man cannot serve two masters but one can always find th *Global Human*

Smuggling David Kyle, Rey Koslowski, 2011-11-15 Ten years ago the topic of human smuggling and trafficking was relatively new for academic researchers though the practice itself is very old Since the first edition of this volume was published much has changed globally directly impacting the phenomenon of human smuggling Migrant smuggling and human trafficking are now more entrenched than ever in many regions with efforts to combat them both largely unsuccessful and often counterproductive This book explores human smuggling in several forms and regions globally examining its deep historic social economic and cultural roots and its broad political consequences Contributors to the updated and expanded edition consider the trends and events of the past several years especially in light of developments after 9 11 and the creation of the U S Department of Homeland Security They also reflect on the moral economy of human smuggling and trafficking the

increasing percentage of the world's asylum seekers who escape political violence only by being smuggled and the implications of human smuggling in a warming world **The Routledge Companion to Diasporic Jazz Studies** Ádám Havas, Bruce Johnson, David Horn, 2024-11-15 The Routledge Companion to Diasporic Jazz Studies recognizes the proliferation of jazz as global music in the 21st century. It illustrates the multi-vocality of contemporary jazz studies combining local narratives, global histories and cultural criticism. It rests on the argument that diasporic jazz is not a passive second-hand reflection of music originating in the US but possesses its own integrity, vitality and distinctive range of identities. This companion reveals the contradictions of cultural globalization from which diasporic jazz cultures emerge through 45 chapters within seven thematic parts: What is Diasporic Jazz; Histories and Counter Narratives; Making, Disseminating and Consuming Diasporic Jazz; Culture, Politics and Ideology; Communities and Distinctions; Presenting and Representing Diasporic Jazz; Challenges and New Directions. The Routledge Companion to Diasporic Jazz Studies traces how cultural dynamics related to race, coloniality, gender and politics traverse and shape jazz. Employing a cross-section of approaches to the study of diasporic jazz as eloquently showcased by the entries, this book seeks to challenge the dominant jazz narratives through championing a more all-encompassing, multi-paradigmatic alternative. Bringing together contributions from authors all over the world, this volume is a vital resource for scholars of jazz as well as professionals in the music industries and those interested in learning about the cultural and historical origins of jazz.

Global Childhoods and Cosmopolitan Identities in Literature Elizabeth Jackson, 2022-10-17 This book investigates literary representations and self-representations of people with cosmopolitan identities arising from mobile global childhoods which transcend categories of migrancy and diaspora. Part I focuses on the ways in which cosmopolitan characters are represented in selected novels from the debauched Anthony Blanche in Evelyn Waugh's classic *Brideshead Revisited* to the victimized Ila in Amitav Ghosh's *The Shadow Lines* to John le Carr's undefinable spies. Part II focuses on self-representations of people with a cosmopolitan upbringing in the form of autobiographical narratives by well-known authors such as Barack Obama and Edward Said along with lesser-known writers all of whom write back to the ways in which they have at times been stereotyped and othered in literary fiction and public discourse.
