Small Town China:

Small Town China Beatriz Carrillo Garcia, 2011-04-19 While much has been written about rural migrant workers experiences in the big cities population movements into China's vast network of towns and small cities has been largely neglected This book presents a detailed case study of rural migrant workers experiences in a small town in a north China county The author explores the processes and institutions that enable or preclude the social inclusion of rural workers into the town's socio economic system Inclusion and exclusion are assessed through an examination of rural workers immersion into the urban labour market their access to welfare benefits and to social services such as housing education and health The book proposes that outside the larger cities there are alternative accounts of urban social change and of the integration of rural migrant workers It stresses the fact that the particular socio economic structure of towns where the state owned share of the economy has been smaller and where consequently social and private forces have been more active allowed for a more open inclusion of rural workers Though shortcomings are still observed the book suggests that China's transformation may not necessarily result in dysfunctional and socially polarized urban environments This book will be of interest to students and scholars of China's rural migrant workers bottom up urbanization and small town development social policy and more broadly on contemporary social change in China Migration and Small Towns in China Bingqin Li, Xiansheng An, 2009

Small Towns in China Xiaotong Fei, 1986 Green Village and Town Construction in China Xiaoming Wang, Hong Hua, 2021-05-27 By means of multidisciplinary research on urban and rural planning construction engineering environmental engineering and engineering sociology this book conducts pioneering research on the construction theory construction methods evaluation technology and application of demonstration projects in China's green villages and towns The book is divided into three parts and eleven chapters Part I is about the theory and development of green village and town construction including the theory and innovation the evolution and development the patterns and mechanisms and the community of green village and town construction Part II is about the planning and construction methods of green villages and towns including the plan compilation the environmental infrastructure construction and the construction and renovation of green buildings in villages and towns Part III is about the evaluation of the planning and construction of green villages and towns including the evaluation of plans the evaluation of environmental infrastructure construction the evaluation of green building construction and the comprehensive evaluation of the planning and construction of green villages and towns Today 564 million farmers live in 28 500 towns and 2 452 million villages in China In 2018 alone 820 million m² of new houses were built in rural areas This proves that China's green village and town construction has great significance and can provide enlightenment to developing countries and even to the world The book describes new theories new perspectives and new methods of green village and town sustainable construction in China for overseas experts and readers *China's Spatial Economic Development* Andrew M. Marton, 2013-12-16 The spatial patterns of China's rapid economic transformation

fundamentally challenge conventional geographies of urban and regional development This book provides a theoretically informed case study of the local character of regional change in China s lower Yangzi Delta as well as a new analytical framework for understanding China s unique form of economic modernization **Unemployment in China** Grace O.M. Lee, Malcolm Warner, 2006-09-27 Unemployment in China offers a new and invaluable insight into the Chinese economy keenly analyzing the new directions the world s next superpower is now taking Successfully bringing together a wide range of research and evidence from leading scholars in the field this book shows how unemployment is one of the key issues facing the Chinese economy China s market oriented economic reform and industrial restructuring while greatly improving efficiency have also sharply reduced overstaffing leading to a large increase in unemployment At the same time further restructuring is predicted as the full impact of the accession to the WTO is felt throughout China A further problem is that new jobs in China s growth industries are more likely to be secured by younger better qualified workers than by older poorly educated and unskilled workers who have been laid off This book discusses a wide range of issues related to the growing unemployment problem in China and examines the problems in particular cities appraises the government response and assesses the prospects going forward **Chinese Urban Reform** Kwok Yin-Wang, 2019-08-08 Based on a 1987 conference on urban development at the Centre for Urban Planning and Development at Hong Kong University **Local Elites in Post-Mao China** Yingjie Guo, 2018-03-15 This book provides fresh insights into the study of Chinese elites at the county level and below By shifting the analytical focus onto the agency of elites at the local level and away from the institutional structures within which they operate it fills a number of significant gaps in the field In particular this book addresses the lacunae through an empirically rich and diverse set of case studies It proceeds from the premise that the study of local elites can be most fruitful through examining their relations with each other and with the groups that wield power in the community Particularly pertinent to the analyses are three major relations namely the relationship between the elites and their environment between particular types of elites and between the locality and the upper and lower scales Ultimately it concludes that these relations are not only essential to understanding local elites in post Mao China but also in accounting for socio political change and in distinguishing China from other types of societies As a study of local elites in China this book will be useful to students and scholars of Chinese politics political sociology and Chinese Studies in general *One Country, Two Societies* Martin K. Whyte, 2010-02-25 A collection of essays that analyzes China s foremost social cleavage the rural urban gap It examines the historical background of rural urban relations the size and trend in the income gap between rural and urban residents aspects of inequality apart from income and experiences of discrimination particularly among urban migrants BOOK PUBLISHER WEBSITE [Law, Wealth and Power in China](#) John Garrick, 2010-10-04 This book examines the law reforms of contemporary China in light of the Party state s ideological transformation and the political economy that shapes these reforms This involves analysing three interrelated domains law reform power and wealth The contributors to

this volume employ a variety of perspectives and analytical techniques in their discussion of key themes including commercial law reform and its governance of wealth and regulation of economic activity the influence and authority of the Party state over China's economic activity and the influence of wealth and the wealthy in economic governance and legal reform Utilizing an interdisciplinary approach this book presents analytical perspectives of new work or new lines of thinking about the new wealth power and law reforms of China As such critical boundaries are explored between legal and financial reforms and what these reforms signify about deeper ideological economic social and cultural transformations in China The book concludes by asking whether there is a China model of development which will produce a unique variety of capitalism and indigenous variant of rule of law and examining the winners and losers in the transition from a centrally planned economy to a market economy *Law, Wealth and Power in China* will be of interest to students and academics of comparative law Asian law Chinese economics and politics Chinese Studies as well as professionals in investment banking finance and government

India's China Challenge Ananth Krishnan, 2020-12-09 Ananth Krishnan first moved to China in the summer of 2008 In the years that followed he had a ringside view of the country's remarkable transformation He reported from Beijing for a decade for the *India Today* and *The Hindu* This gave him a privileged opportunity that few Indians have had to travel the length and breadth of the country beyond the glitzy skyscrapers of Shanghai and the grand avenues of Beijing that greet most tourists to the heart of China's rise This book is Krishnan's attempt at unpacking India's China challenge which is four fold the political challenge of dealing with a one party state that is looking to increasingly shape global institutions the military challenge of managing an unresolved border the economic challenge of both learning from China's remarkable and unique growth story and building a closer relationship and the conceptual challenge of changing how we think about and engage with our most important neighbour India's China Challenge tells the story of a complex political relationship and how China and its leading opinion makers view India It looks at the economic dimensions and cultural connect and the internal political and social transformations in China that continue to shape both the country's future and its relations with India

Urban Poverty, Housing and Social Change in China Ya Ping Wang, 2004-10-21 There is a close association between urban poverty and housing transitional societies Along with job security housing was the most important element of the socialist welfare system Housing privatisation has far reaching economic implications

The China Questions 2 Maria Adele Carrai, Jennifer Rudolph, Michael Szonyi, 2022-08-30 *The China Questions 2* assembles top experts to explore key issues in US China relations today including conflict over Taiwan economic and military competition public health concerns and areas of cooperation Rejecting a new Cold War mindset the authors call for dealing with the world's most important bilateral relationship on its own terms

The City in China Ray Forrest, Julie Ren, Bart Wissink, 2020-07-15 In 1915 Robert Park penned his seminal paper *The City* Suggestions for the investigation of human behaviour in the city environment This essay provided an agenda for the Chicago School of Urban Sociology which formed the basis of urban research for decades Given

that China's urban centres now occupy the spotlight that once belonged to American cities Park's essay is a platform and point of departure for this volume which gathers together reflections from a broad range of urban China specialists to consider Park's relevance today for cities in China for questions about the social life of the city and for urban research more generally Essential for a broad range of urban studies scholars this book is an invaluable teaching resource and a useful tool for policy makers and planners

Literary and Cultural Representations of the Hinterlands Ewa Kęłowska-Ławniczak, Dominika Ferens, Katarzyna Nowak-McNeice, Marcin Tereszewski, 2023-12-22 This interdisciplinary collection explores the diverse relationships between the frequently ignored and inherently ambiguous hinterlands and their manifestations in literature and culture Moving away from perspectives that emphasize the marginality of hinterlands and present them as devoid of agency and cultural currency this collection assembles a series of original essays using various modes of engagement to reconceptualize hinterlands and highlight their semiotic complexity Apart from providing a reassessment of hinterlands in terms of their geocultural significance this book also explores hinterlands through such concepts as nostalgia heterotopia identity formation habitation and cognitive mapping with reference to a wide geographical field Literary and filmic revisions of familiar hinterlands such as the Australian outback Alberta prairie and Arizona desert

are juxtaposed in this volume with representations of such little known European hinterlands as Lower Silesia and Ukraine and the complicated political dimension of First World War internment camps is investigated with regard to Kapuskasing Ontario Rural China and the Sussex Downs are examined here as writers retreats Inner city hinterlands in Haiti India Morocco and urban New Jersey take on new meaning when contrasted with the vast hinterlands of megacities like Johannesburg and Los Angeles The spectrum of diverse approaches to hinterlands helps to reinforce their multilayered and multivocal nature as spaces that defy clear categorization

Polarized Cities Dorothy J. Solinger, 2018-09-14 This powerful book presents a fresh and compelling set of portraits that bring to life the human dimension of the vast and growing social and economic divides in urban China Leading scholars explore the increasing rigidity of class and social boundaries focusing on two new castes in contemporary China's cities the immensely wealthy and the abjectly poor Much has been made of the rise in incomes the elimination of much rural poverty and the expansion of an urban middle class over almost forty years of spectacular economic growth But what often has been overlooked is the polarization exclusion and exclusiveness in cities that have accompanied this rise along with the threat that these trends will extend to future generations The book considers five cases that emblemize these castes and depict their varying degrees of agency Highlighting the social groups at opposite ends of the social hierarchy the contributors illuminate the growing inequality in urban China today

Understanding China's Urbanization Li Zhang, Richard LeGates, Min Zhao, 2016-03-25 China's urbanization is one of the great earth changing phenomena of recent times The way in which China continues to urbanize will have a critical impact on the world economy global climate change international relations and a host of other critical issues Understanding and responding to China's urbanization is of paramount importance to everyone This book represents a unique exploration of the demographic spatial economic and social aspects of China's urban transformation Based on years of fieldwork and data analysis from different types of cities and towns in every region of China the authors present a detailed description of how China has urbanized since 1978 and an original theory about the way in which top down and bottom up policies have impacted urbanization They describe China's ongoing urbanization process as a double dual transformation from a planned economy to a more market oriented one and from a concern with the quantity to the quality of urbanization In doing so the authors provide the most comprehensive and up to date book on Chinese urbanization to date This scholarly study will appeal to academics and practitioners including professors and postgraduate students of urban studies planning geography Asian studies and other social science disciplines and professional fields concerned with cities and urban development Professionals involved in international development particularly in China and elsewhere in Asia will be particularly interested in the book
