SMP 11-16 Book G8 School Mathematics Project,1994 Book G8 green series written for pupils of lower ability has been produced in response to the National Curriculum **SMP 11-16** ,1987 SMP 11-16 School Mathematics Project,1994-01-01 The Teacher s Guide to Book G8 green series written for pupils of lower ability has been produced in response to the National Curriculum **The Sociology of Mathematics Education** Paul Dowling,2002-11-01 Until the 1960s maths was studied as an academic subject in a desire to have more mathematicians The current trend however has moved away from viewing maths as a purely intellectual endeavour and towards developing a more mathematically competent workforce and citizenry This trend has seen a large increase in the number of maths schemes being produced by the major educational publishers which attempt to make maths easier and more approachable by using language instead of symbols So why do so many children still fail at maths The author contends that to understand this teachers need to analyze and evaluate the maths textbooks they are currently using The author shows the reader how to systematically analyze and evaluate these textbooks This interrogation of classroom resources should have important implications for teaching strategies and for textbook design and use **SMP 11-16** School Mathematics Project,1987-11 SMP 11 16 is a mathematics resource for secondary schools which emphasises the relationship between mathematics and the world around us The course material falls into two parts Part 1 covering the first two years consists mainly but not exclusively of booklets arranged into strands which enable pupils to work at their own pace Part 2 covering Years 9 10 and 11 consists principally of five series of books designed to suit pupils of different attainment Y yellow R red B blue G green and A amber SMP 11-16 Book G3 School Mathematics Project,1985-08-08 SMP 11 16 is a mathematics resource for secondary schools which emphasises the relationship between mathematics and the world around us The course material falls into two parts Part 1 covering the first two years consists mainly but not exclusively of booklets arranged into strands which enable pupils to work at their own pace Part 2 covering Years 9 10 and 11 consists principally of five series of books designed to suit pupils of different attainment Y yellow R red B blue G green and A amber **Doing Research/Reading Research** Paul Dowling,Andrew Brown,2012-12-06 This bestselling text enables beginning researchers to organise and evaluate the research they read and to plan and implement small scale research projects of their own It gives structured practical guidance on the development of a research question techniques of data collection qualitative and quantitative forms of analysis the writing and dissemination of research The authors present research as a principled activity that begins with the establishing and structuring of theoretical and empirical fields and research findings as serving to ask questions of educational practice rather than directing it This revised and updated second edition includes a new chapter dealing with the complex issue of research ethics It also includes consideration of digital technologies and new media both as settings of research and research tools the chapters on qualitative and quantitative analysis have been expanded and the annotated bibliography updated The authors have been

active researchers in educational studies for more than twenty years They have also supervised numerous doctoral and masters dissertations and taught research methods programmes in various higher education institutions around the world as well as in the Institute of Education University of London SMP 11 - 16 School Mathematics Project (Great Britain),1987

Cultural Perspectives on the Mathematics Classroom Steve Lerman,2013-04-17 Mathematics teaching and learning have been dominated by a concern for the intellectual readiness of the child debates over rote learning versus understanding and recently mathematical processes and thinking The gaze into today s mathematics classroom is firmly focused on the individual learner Recently however studies of mathematics in social practices including the market place and the home have initiated a shift of focus Culture has become identified as a key to understanding the basis on which the learner appropriates meaning The chapters in this timely book attempt to engage with this shift of focus and offer original contributions to the debate about mathematics teaching and learning They adopt theoretical perspectives while drawing on the classroom as both the source of investigation and the site of potential change and development The book will be of fundamental interest to lecturers and researchers and to teachers concerned with the classroom as a cultural phenomenon The Australian Mathematics Teacher ,1989
