Some Southern Cotton Mill Workers And Their Villages:

Some Southern Cotton Mill Workers and Their Villages Jennings Jefferson Rhyne, 1930 *Organized Labor in the Twentieth-century South* Robert H. Zieger, 1991 **Southern Workers and the Search for Community** George Calvin Waldrep, 2000 *Southern Workers and the Search for Community* is the first major effort to interpret the enduring legacy of the southern textile industry company owned mill villages and the union struggles of the 1930s Focusing on Spartanburg County South Carolina G C Waldrep offers an eloquent study of the hopes and fears that define patterns of labor activism Revealing a complex meshing of community ties and traditions with the goals and ideals of unionism Waldrep shows how unions fed into a social vision of mutuality equality and interdependency already established in mill villages This powerful sense of community however ultimately rested on sand Because the villages themselves were the property of management any labor conflict involved not only issues of wages hours and working conditions inside the mill but also virtually every other aspect of life Most important the mill owners held the trump card of eviction Waldrep looks beyond official versions of union activity in Spartanburg County to explain the episodic and apparently erratic eruptions of labor tensions and intervening periods of calm Drawing on private records of textile workers their employers and their unions during the 1930s and 1940s as well as more than a hundred oral interviews with workers Waldrep reinterprets the periods of quiescence that have long puzzled historians Documenting the high stakes of labor protest in mill villages Waldrep shows how the erosion or outright destruction of community systematically undermined the ability of workers to respond to the assaults of employers overwhelmingly supported by government agencies and agents Beautifully written and persuasively argued *Southern Workers and the Search for Community* opens the gates of southern company towns to illuminate the human issues behind the mechanics of labor *Jumpin' Jim Crow* Jane Dailey, Glenda Elizabeth Gilmore, Bryant Simon, 2020-07-21 White supremacy shaped all aspects of post Civil War southern life yet its power was never complete or total The form of segregation and subjection nicknamed Jim Crow constantly had to remake itself over time even as white southern politicians struggled to extend its grip Here some of the most innovative scholars of southern history question Jim Crow's sway evolution and methods over the course of a century These essays bring to life the southern men and women some heroic and decent others mean and sinister most a mixture of both who supported and challenged Jim Crow showing that white supremacy always had to prove its power Jim Crow was always in motion always adjusting to meet resistance and defiance by both African Americans and whites Sometimes white supremacists responded with increased ferocity sometimes with more subtle political and legal ploys *Jumpin' Jim Crow* presents a clear picture of this complex negotiation For example even as some black and white women launched the strongest attacks on the system other white women nurtured myths glorifying white supremacy Even as elite whites blamed racial violence on poor whites they used Jim Crow to dominate poor whites as well as blacks Most important the book portrays change over time suggesting that Strom Thurmond is not a simple

reincarnation of Ben Tillman and that Rosa Parks was not the first black woman to say no to Jim Crow From a study of the segregation of household consumption to a fresh look at critical elections from an examination of an unlikely antilynching campaign to an analysis of how miscegenation laws tried to sexualize black political power these essays about specific southern times and places exemplify the latest trends in historical research Its rich accessible content makes *Jumpin Jim Crow* an ideal undergraduate reader on American history while its methodological innovations will be emulated by scholars of political history generally In addition to the editors the contributors are Edward L Ayers Elsa Barkley Brown W Fitzhugh Brundage Laura F Edwards Kari Frederickson David F Godshalk Grace Elizabeth Hale Jacquelyn Dowd Hall Stephen Kantrowitz Nancy MacLean Nell Irwin Painter and Timothy B Tyson

The Emergence of the New South, 1913-1945 George Brown Tindall, 1967-11-01 The history of the South in this century has been obscured in the ever growing mass of information about the region s rapid change and turbulent development In this book Volume X of *A History of the South* the historical image of the modern South is brought into full focus for the first time George Brown Tindall presents a thorough and well balanced historical narrative of the region during the years 1913 1945 when the South underwent a transformation from a predominantly agricultural area to one of growing industrialization The inauguration of President Woodrow Wilson ended a half century of political isolation for the South and ushered in an era of agrarian reforms prohibition woman suffrage industrial growth and recurring crises for Southern farmers During the 1920 s the South was caught in a contrast of urban booms and farm distress There were flareups of racial violence and the Ku Klux Klan was revived Mr Tindall devotes considerable attention to the Southern literary renaissance which produced William Faulkner Thomas Wolfe and many other notable writers and critics *The Emergence of the New South* provides a new understanding of the changing political and social climate in the South under the stresses of depression the New Deal the labor movement Negro unrest and two world wars

Under Sentence of Death W. Fitzhugh Brundage, 2017-11-01 From the assembled work of fifteen leading scholars emerges a complex and provocative portrait of lynching in the American South With subjects ranging in time from the late antebellum period to the early twentieth century and in place from the border states to the Deep South this collection of essays provides a rich comparative context in which to study the troubling history of lynching Covering a broad spectrum of methodologies these essays further expand the study of lynching by exploring such topics as same race lynchings black resistance to white violence and the political motivations for lynching In addressing both the history and the legacy of lynching the book raises important questions about Southern history race relations and the nature of American violence Though focused on events in the South these essays speak to patterns of violence injustice and racism that have plagued the entire nation The contributors are Bruce E Baker E M Beck W Fitzhugh Brundage Joan E Cashin Paula Clark Thomas G Dyer Terence Finnegan Larry J Griffin Nancy MacLean William S McFeely Joanne C Sandberg Patricia A Schechter Roberta Senechal de la Roche Stewart E Tolnay and George C Wright

The Lost Soldier Chris J. Hartley, 2018-08-01 The Lost

Soldier offers a perspective on World War II we don't always get from histories and memoirs. Based on the letters home of Pete Lynn, the diary of his wife Ruth, and meticulous research in primary and secondary sources, this book recounts the war of a married couple who represent so many married couples, so many soldiers in World War II. The book tells the story of this couple starting with their life in North Carolina and recounting how the war increasingly insinuated itself into the fabric of their lives until Pete Lynn was drafted, after which the war became the essential fact of their life. Author Chris J. Hartley intricately weaves together all threads: soldier and wife, home front and army life, combat, love and loss, individual and army division into an intimate, engaging narrative that is at once gripping military history and engaging social history. **The**

Politics of Education in the New South Rebecca S. Montgomery, 2008-08-01. Alarmed at the growing poverty, illiteracy, class strife, and vulnerability of women after the upheavals of Reconstruction, female activists in Georgia advocated a fair and just system of education as a way of providing economic opportunity for women and the rural and urban poor. Their focus on educational reform transfigured private and public social relations in the New South as Rebecca S. Montgomery details in this expansive study. *The Politics of Education in the New South* provides the most complete picture of women's role in expanding the democratic promise of education in the South and reveals how concern about their own status motivated these women to push for reform on behalf of others. Montgomery argues that women's prolonged campaign for educational improvements reflected their concern for distributing public resources more equitably. Middle-class white women in Georgia recognized the crippling effects of discrimination and state inaction, which they came to understand in terms of both gender and class. They subsequently pushed for admission of women to Georgia's state colleges and universities and for rural school improvement, home extension services, public kindergartens, child labor reforms, and the establishment of female-run boarding schools in the mountains of North Georgia. In the process, a distinct female political culture developed that directly opposed the individualism, corruption, and short-sightedness that plagued formal politics in the New South. **To Raise Up the South**

Sally G. McMillen, 2001-12-01. In the half-century after the Civil War, evangelical southerners turned increasingly to Sunday schools as a means of rejuvenating their destitute region and adjusting to an ever-modernizing world. By educating children and later adults in Sunday school and exposing them to Christian teachings, biblical truths, and exemplary behavior, southerners felt certain that a better world would emerge and cast aside the death and destruction wrought by the Civil War. In *To Raise Up the South*, Sally G. McMillen offers an examination of Sunday schools in seven black and white denominations and reveals their vital role in the larger quest for southern redemption. McMillen begins by explaining how the schools were established, detailing northern missionaries' collaboration in their creation and the eventual southern resistance to this northern aid. She then turns to the classroom, discussing the roles of church officials, teachers, ministers, and parents in the effort to raise pious children, the different functions of men and women, and the social benefits of such participation. Though denominations of both races saw Sunday schools as a way to increase their numbers and mold their children, white

southerners rarely raised the race issue in the classroom Black evangelicals on the other hand used their Sunday schools to discuss and decry Jim Crow laws rising violence and widespread injustices Integrating the study of race class gender and religion To Raise Up the South provides an exciting new lens through which to view the turbulent years of Reconstruction and the emergence of the New South It charts the rise of an institution that became a mainstay in the lives of millions of southerners

Millhands & Preachers Liston Pope, Patrick. Pope, 1942-01-01 To explore the question of the church's role in Western economic systems Mr Pope presents a pioneering study of the actual role played by the church in the industrial community Gastonia North Carolina He has written a brilliant criticism of the relationship between the textile mills and the churches with broad implications for industry and church
