A Sad Life Story Kemal Sobe,2024-04-10 Childhood even though it is difficult is actually the best period of a person A person realizes the value of his childhood in later years when he comes under the burden of life However I couldn't stay a child I had to face the pain and difficulties of life As I got older my fear of the future increased and the people around me decreased As I saw the bitter side of life and people's relationships based solely on materiality I began to deeply question why people live and what they aim for in life Did people live to love or to dominate each other When I saw that there was all kinds of material competition between people I began to think that people had put their love for humanity aside Like every child when I was young that is young enough to be considered a child I was not very emotional However as I got older as I took part in life as life took away more and more from me I became more emotional and the human factor began to become more important to me
