Somerset Dragons:

Somerset Dragons Brian Wright, 2002 Filled with traditional tales and illustrations this book looks at the legends of dragons that have been prevalent throughout the history of Somerset from the 6th century to the modern day **Babb Unabridged** Daniel Greig Babb, Ian Henry Babb, 2017-03-28 The Somerset Dragons are one of the oldest and largest lineages of Babbs in England originating in the Pitminster Trull area of Somerset County Shire The tree spans 5 Continents and 1358 people Their lineage is proven through DNA testing of multiple descendants The DNA tests have shown a connection between what was previously known as Somerset Pedigree 01 and Somerset Pedigree 02 This connection was already believed to exist but the paper trail is small in such distant times Somerset Pedigree 03 has also been added to this collection as the parents of Francis Babb of Pitminster having been documented through traditional methods The Crest used to represent this great house of Babbs is NOT historic but a modern interpretation of what a crest for this family might look like It draws upon the mascot of the County of Somerset which is the Dragon and uses a similar color scheme to their current flag Using mascots will help everyone to remember which lineage they are a part of Only lines proven via DNA have a mascot and crest

Dragons of Somerset Roy Snelling, 2015-01-07 This is a highly illustrated book that looks deeply into the myths legends and folk tales of dragons The first part of the book examines twenty two accounts of dragons in Somerset such as the Gurt Vurm of Shervage Wood who when cut in half by a woodsman had the half with the fire breathing hewad running off to Kingston St Mary In the next part of the book dragon stories are examined from all continents in some cases going back into far antiquity The Somerset dragons are then compared with dragons from around the World under different headings such as eats people has two legs has many heads kills hero etc to see if the Somerset beasts are part of a World wide pattern Finally the meaning behind the dragon stories and what they reveal about Man s psyche and understanding of Life is examined We look at such things as a possible race memory of dinosaurs the serpent Satan in the Bible and Jung s theories of Man s symbols and archetypes in the collective unconscious The book contains numerous photos drawings map and timeline A reading delight for young and old alike It would make an ideal Christmas or birthday present **CHARTRES, THE**

THRONE OF EUROPE Roy Snelling, 2018-07-30 In this current Aquarian Age with its new energies Chartres Cathedral seems to have gained recognition amongst mystics geomancers and dowsers and alternative spirituality folk in general as having some special meaning It has attracted numerous visitors from many countries who have come to walk its Labyrinth examine the Zodiac Window and hold dowsing prayer or meditation sessions so as to tune in to its hidden meaning Sometimes to the consternation of the Cathedral s own congregation or even its official guides As the book explores the meaning of the Chartres Zodiac it first starts by exploring the Celestial Zodiac and Precession And also other pertinent astronomical facts It then explores landscape zodiacs in general including those found in Britain In looking at Chartres we first examine its history going back to the time when it was a Celtic Temple and the later when the under crypt was used as a

Mithraic Temple by officers in the Roman Army The book then explains how the author discovered twelve line radiating out from the centre of the Cathedral and thence the realisation that we might have a giant zodiac The identification of a number of towns and cities of equidistant radius around the Cathedral confirmed the Zodiac hypothesis Important places such as Plymouth Gloucester Norwich Leiden Strasbourg and Montreaux Hat was remarkable was that one line passed through Paris and then when extended beyond the Zodiac circumference passed through Berlin Another Line reached Vienna and Bratislava Another reached Barcelona Another reached Madrid The book then explores the geography history and culture of each zodiac segment to see if there is anything that relates to the nature of the zodiac sign of that segment The book finally points the way to the future leaving future researchers to continue the exploration of what this remarkable building means to us

THE ORIGIN OF EVIL Roy Snelling,2017-12-20 What is evil Were did it come from This is a fundamental negative aspect of the Human condition that has engaged theologians mystics and philosophers for centuries And more recently psychologists The whole evolutionary process of life entails the use of free will in an existential sense making mistakes correcting such learning and then moving on But evil is like taking hold of a hiking pilgrim who is just about to climb a steep hill and filling their rucksack with rocks Many different theories have been put forward as to where evil has come from the Devil the Fall Man disobeying God brain malfunction but there is no universal agreement on such The lack of agreement means that there is no universal concentration of effort to power Mankind forward onto what should be a faster evolutionary progression The book explores every conceivable source of information that is know to us with a much wider scope than most books on the subject have done in the past All the known World religions present and past including so called mythologies Many Native spiritual belief systems In total over sixty The book also explores the teachings of various Western Mystical and Esoteric systems Somewhat controversionally it then goes on to explore the possibility of extra terrestrial visitors to our Planet interfering with Human evolution for their own selfish ends An examination of the development of Western Psychology over nearly three centuries has provided insights into human behaviour and the physiological workings of the brain Conventional Society post 19th Century has tended to develop its own set of norms as to what is evil which sometimes feed back into a government s legislative program in respect of criminal law The book looks at corporate evil perpetrated by governments banks financial institutions the Media religious administrative bodies and multi national corporations as these are just as capable of acts of evil as any individual although often on a vastly greater scale Lastly the book explores the issues of morality acts with unintended consequences the issue of intent and personal responsibility Curiously instead of the last chapter being the conclusion of all the preceding chapters it traces out the whole history of the Cosmos from the first point of creation spiritual e Big Bange right through to modern Human society on Earth Its purpose was to examine if something untoward happened in the process of Cosmic Creation that has set up an imbalance in the functioning of the Universe the Galaxy the Solar System our Planet that has thrown Human evolution out of kilter SIGURD ROY SNELLING,2014-11-11

Human culture from around the World contains many myths that attempt to explain such things as the creation of the Universe the Sun planets Moon and the Earth the existence and role of gods and goddesses nature spirits rites of passage for young people and the hero overcoming evil Both Freud and Jung have stated that these Myths have existed from time immemorial In the above book one myth well known from European culture the Germanic myth of the life of Sigurd Norse or Siegfried Frankish has been chosen for examination Rejecting the statement by Freud and Jung the myth is traced back to the end of Atlantis a time when a few uncorrupted spiritual leaders realised that they would have to enshrine important knowledge about Man s relationship with the Cosmos with their own society and with understanding the make up of their own nature in storey formats These myths had to be such that trained bards or Skalds could remember them and pass them down from generation to generation after surviving the coming cataclysm Storeys that would survive centuries of wandering hunter gatherers until some day in the future a new civilization could deconstruct these myths for the benefit of their peoples The book starts by examining the arrival of Spiritual Man Adam who as a collective spiritual being of Divine Sparks incarnates into Earth s Gaia s Eve s physical human Cro Magnon Man at a time when this race had occupied the lands of Lemuria in the Pacific about 80 000 years ago The book traces the slow descent fall of Man s consciousness into physical form with the concurrent loss of psychic sensitivity through Lemuria and Atlantis until the eventual destruction of the latter The nature of archetypal elements common in hero myths is Myth itself This is then de constructed piecemeal so that the reader can understand the individual elements of the Myth The nature of evil in the World is then investigated and the presence of a false god that has been misleading Humanity a god that makes the hero path potentially very dangerous This revelation is potentially explosive and will disturb many people raised in the conventional religions The book then explores what the lessons of the hero myth mean to us today As we move into the New Age everything in the World around us is changing Courageous men and women are needed now more than ever to tread the hero path of discipleship to help steer Humanity away from the old structures that are holding Humanity back in its evolution **St George and the Dragons**

Michael Collins, 2018-04-17 St George s Day has become a topic of debate as more and more organizations promote celebrations on 23 April and more people wave the flag of St George to proclaim their allegiance and identity But who was St George How did this Near Eastern martyr become England s patron saint and an icon of English culture And what is his relevance for today s secular multicultural England New research reveals that from the third century St George was revered as a healer protector of women and the poor and patron of agriculture and metal working more than a military dragon slayer Discover the origin of the cross of St George and the roles of Richard I Edward III and Henry VIII in making St George the patron saint of England With a foreword by Professor Emeritus Dan Brown this richly illustrated celebration of English culture shows how St George can be reinterpreted for our times while remaining true to our English heritage St George can be enlisted in the cause of ecology the campaign against FGM and the fight to end modern slavery and resettle refugees

English yet international revered both by Christians and Muslims St George is a multicultural figure who symbolizes universal values Planetary Matrix Roy Snelling,2013-04-12 The Planetary Matrix explains how the Primary Ley Line Network of the Earth is created by psychic crystals in the form of the Five Platonic Solids embedded within the Etheric Body of the Planet It explores the Fibonacci Series and Golden ratio in their construction **Selected Monographs on Spirituality and Green Issues** Roy Snelling,2013-11-28 Monographs on esoteric spirituality and Green politics Jehovah God of evil Cosmos and black holes Golden Ratio and Fibonacci series of numbers Global warming peak oil resource depletion unsustainable population Earth as a living conscious being Also Dragon myths and legends from around the World and Jungian Archetypes **Somerset Archaeology and Natural History** ,2004
