The Puffin Mike P. Harris, Sarah Wanless, 2011-11-21 A comprehensive monograph on the Atlantic Puffin With its colourful beak and fast whirring flight this is the most recognisable and popular of all North Atlantic seabirds Puffins spend most of the year at sea but for a few months of the year they come to shore nesting in burrows on steep cliffs or on inaccessible islands Awe inspiring numbers of these birds can sometimes be seen bobbing on the sea or flying in vast wheels over the colony bringing fish in their beaks back to the chicks However the species has declined sharply over the last decade this is due to a collapse in fish stocks caused by overfishing and global warming combined with an exponential increase in Pipefish which can kill the chicks The Puffin is a revised and expanded second edition of Poyser's 1984 title on these endearing birds widely considered to be a Poyser classic It includes sections on their affinities nesting and incubation movements foraging ecology survivorship predation and research methodology particular attention is paid to conservation with the species considered an important indicator of the health of our coasts *Murder With Puffins* Donna Andrews, 2006-02-07 Winner of the Agatha Award and the St Martin's Malice Domestic Award for her first work *Murder With Peacocks* Donna Andrews brings back her zany characters and disastrous events In an attempt to get away from her family Meg and her boyfriend go to a tiny island off the coast of Maine What could have been a romantic getaway slowly turns into disaster Once there they are marooned by a hurricane and that is only the beginning of their problems Meg and her boyfriend arrive at the house only to discover that Meg's parents and siblings along with their spouses are all there When a murder takes place Meg realizes that she and her boyfriend can no longer sit by a cozy fireplace but must instead tramp around the muddy island to keep trying and clear her father who is the chief suspect **Young Children Learning** Barbara Tizard, Martin Hughes, 1984 his fascinating account of an unusual research project challenges many assumptions about how young children learn and how best to teach them In particular it turns upside down the commonly held belief that professionals know better than parents how to educate and bring up children and it throws doubt on the theory that working class children underachieve at school because of a language deficit at home **Project Puffin** Stephen W. Kress, Derrick Z. Jackson, 2015-04-28 Project Puffin is the inspiring story of how a beloved seabird was restored to long abandoned nesting colonies off the Maine coast As a young ornithology instructor at the Hog Island Audubon Camp Dr Stephen W Kress learned

that puffins had nested on nearby islands until extirpated by hunters in the late 1800s To right this environmental wrong he resolved to bring puffins back to one such island Eastern Egg Rock Yet bringing the plan to reality meant convincing skeptics finding resources and inventing restoration methods at a time when many believed in letting nature take its course Today Project Puffin has restored more than 1 000 puffin pairs to three Maine islands But even more exciting techniques developed during the project have helped to restore rare and endangered seabirds worldwide Further reestablished puffins now serve as a window into the effects of climate change The success of Dr Kress s project offers hope that people can restore lost wildlife populations and the habitats that support them The need for such inspiration has never been greater
