Sciences Giorgio Baruchello, Ársæll Már Arnarsson, 2022-11-07 Humor has been praised by philosophers and poets as a balm to soothe the sorrows that outrageous fortune's slings and arrows cause inevitably if not incessantly to each and every one of us. In mundane life having a sense of humor is seen not only as a positive trait of character but as a social prerequisite without which a person's career and mating prospects are severely diminished if not annihilated. However, humor is much more than this and so much else. In particular, humor can accompany cruelty, inform it, sustain it, and exemplify it. Therefore, in this book we provide a comprehensive, reasoned exploration of the vast literature on the concepts of humor and cruelty as these have been tackled in Western philosophy, humanities, and social sciences, especially psychology. Also, the apparent cacophony of extant interpretations of these two concepts is explained as the inevitable and even useful result of the polysemy inherent to all common-sense concepts, in line with the understanding of concepts developed by M. Polanyi in the 20th century. Thus, a thorough, nuanced grasp of their complex mutual relationship is established, and many platitudes affecting today's received views and scholarship are cast aside. Like Aristotle and Dewey, Arnarsson and Baruchello do not define their terms at the outset but instead they relentlessly pursue the meanings of two ordinary words that everyone vaguely understands to arrive at a critical insight into the concepts these words represent, which are both disparate and interrelated. Richard Marc Rubin, President, George Santayana Society. *His Young Wife. A Novel* Julie P. Smith, 2024-06-17 Reprint of the original first published in 1877. [A Cognitive Psychology of Mass Communication](#) Richard Jackson Harris, 2004 The author examines how our experiences with media affect the way we acquire knowledge and how this knowledge creates consequences for attitudes and behaviour. **Thoughtless: Think Less, Be More** William Sharkey, 2014-05 We as humans experience much stress and suffering yet we aren't really sure why this is so. We guess that our stress and suffering comes from a lack of money, security, loving relationships, a difficult childhood, lack of religious faith, because we suffer from depression or some other sort of chemical deficiency in the brain or a variety of other reasons. But there is another explanation. We suffer because we think too much. We have stress because we are too attached to our thoughts. *Thoughtless* will show you why thoughts are the reason behind the stress and suffering that is common to almost all humans and how to do something about it, how to end it. William illustrates how it is possible to allow joy and inner peace to fill your experience of life by becoming thoughtless.
