Something I Expected To Be Different:

Eirene Mary Clemmer, 1871 *High Roller* Joseph Levy, 2005-08 Rocco Carnesecchia is the number two man at the Silver Halo Casino and Hotel in Las Vegas. He oversees every facet of the rogue Casino under the watchful eyes of the Maestro, people chiefly the Fat Man, attorney to the number one man. On the side, Rocco maintains a small discreet stable of hookers and a young stud servicing the high rollers and their neglected wives. Back East in a well-to-do enclave of New Jersey, Harry Demetrios, a successful stockbroker, wrestles with approaching middle age and the final decision of his lovely daughter to quit college, leave his house, and get a job. His Mediterranean instincts of fierce protective love for his girl leave him distraught. Rocco's young stud Billy returns from a trip and is noticeably less effective with the women he services. They complain to Rocco that Billy has not been kind. He is in love with a girl he met back East. But the pretty Greek girl doesn't reciprocate Billy's affection. Rocco orders his men to bring her in. Harry receives word of his daughter's whereabouts and he flies out to confront Las Vegas.

Putnam's Magazine of Literature, Science, Art, and National Interests, 1870 **Uncertainty in Teacher Education Futures** Sandy Schuck, Peter Aubusson, Kevin Burden, Sue Brindley, 2018-02-16 This book discusses the use of futures methodologies to examine and critique teacher education and investigate drivers of change in teacher education contexts, providing readers with futures tools that they can use to explore curricula and pedagogies. It explains futures methods including scenario development and backcasting and illustrates them with examples of research in science, technology, and mathematics education contexts. By allowing the long-term influence of current trends to be considered and providing an opportunity to reflect on the present and imagine the future, scenarios provoke discussion on the directions that teacher education might take now. The book offers insights into the possibilities that might exist for teacher education futures and into how scenario building and planning can be used to inform debates about the present. Further, it suggests ways in which readers can influence the future of teacher education through understanding the drivers of change.

Readercentric Writing for Digital Media David Hailey, 2016-12-05 This book presents an altogether new approach to writing and evaluating writing in digital media. It suggests that usability theory provides few tools for evaluating content because usability theory assumes only one kind of writing on the Internet. The author suggests three models: user-centric usability, persuasion-centric (encouraging the reader to linger and be persuaded), and Canon camera ads and quality-centric (encouraging the reader to linger and learn or be entertained because of the quality of the writing). NASA.gov and YouTube. Designed for professional writers and writing students, this text provides a rubric for writing in digital media but more importantly, it provides a rubric and vocabulary for identifying and explaining problems in copy that already exists. The Internet has become a pastiche of cut-and-paste content often placed by non-writers to fill space for no particular reason or by computers with no oversight from humans, e.g., Amazon.com. Because these snippets are typically on topic but often for the wrong purpose or audience, professional writers have difficulty identifying the problems and an even harder time explaining

them Finding an effective tool for identifying and explaining problems in digital content becomes a particularly important problem as writers increasingly struggle with growing complications in complex information systems systems that create and manage their own content with little human intervention Being able to look at a body of copy and immediately see that it is problematic is an important skill that is lacking in a surprising number of professional writers [The Saturday Evening Post](#),1917

The All-True Travels and Adventures of Lidie Newton Jane Smiley,1998-12-29 NEW YORK TIMES

BESTSELLER Pulitzer Prize winning author Jane Smiley recaptures an almost forgotten part of the American story and once again demonstrates her extraordinary range and brilliance in The All True Travels and Adventures of Lidie Newton Set in the 1850s The All True Travels and Adventures of Lidie Newton speaks to us in a splendidly quirky voice the strong wry no nonsense voice of Lidie Harkness of Quincy Illinois a young woman of courage good sense and good heart It carries us into an America so violently torn apart by the question of slavery that it makes our current political battlegrounds seem a peaceable kingdom NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW Rousing Action packed A gripping story about love fortitude and convictions that are worth fighting for Los Angeles Times Powerful Smiley takes us back to Kansas in 1855 a place of rising passions and vast uncertainties Narrated in the spirited unsentimental voice of 20 year old Lidie Newton the novel is at once an ambitious examination of a turning point in history and the riveting story of one woman s journey into uncharted regions of place and self Chicago Tribune A grand tale of the moral and political upheavals igniting antebellum frontier life and a heroine so wonderfully fleshed and unforgettable you will think you are listening to her story instead of reading it Smiley may have snared a Pulitzer for A Thousand Acres but it is with Lydia Lidie Harkness Newton that she emphatically captures our hearts The key word in Smiley s title is Adventures and Lydia s are crammed with breathless movement danger and tension populated by terrifically entertaining characters and securely grounded in telling detail The Miami Herald Smiley brilliantly evokes mid nineteenth century life Richly imagined and superbly written Jane Smiley s new novel is an extraordinary accomplishment in an already distinguished career Atlanta Journal Constitution A sprawling epic A garrulous nights by the hearth narrative not unlike those classics of the period it emulates In following a rebellious young woman of 1855 into Kansas Territory and beyond the novel is so persuasively authentic that it reads like a forgotten document from the days of Twain and Stowe The Boston Sunday Globe [How to Make a Spaceship](#) Julian Guthrie,2017-09-05 A New York Times bestseller The historic race that reawakened the promise of manned spaceflight Winner of the 2016 Eugene E Emme Award for Astronautical Literature A Finalist for the PEN E O Wilson Literary Science Writing Award Alone in a Spartan black cockpit test pilot Mike Melvill rocketed toward space He had eighty seconds to exceed the speed of sound and begin the climb to a target no civilian pilot had ever reached He might not make it back alive If he did he would make history as the world s first commercial astronaut The spectacle defied reason the result of a competition dreamed up by entrepreneur Peter Diamandis whose vision for a new race to space required small

teams to do what only the world's largest governments had done before Peter Diamandis was the son of hardworking immigrants who wanted their science prodigy to make the family proud and become a doctor. But from the age of eight when he watched Apollo 11 land on the Moon, his singular goal was to get to space. When he realized NASA was winding down manned space flight, Diamandis set out on one of the great entrepreneurial adventure stories of our time. If the government wouldn't send him to space, he would create a private space flight industry himself. In the 1990s, this idea was the stuff of science fiction. Undaunted, Diamandis found inspiration in an unlikely place: the golden age of aviation. He discovered that Charles Lindbergh made his transatlantic flight to win a \$25,000 prize. The flight made Lindbergh the most famous man on earth and galvanized the airline industry. Why, Diamandis thought, couldn't the same be done for space flight? The story of the bullet-shaped SpaceShipOne and the other teams in the hunt is an extraordinary tale of making the impossible possible. It is driven by outsized characters: Burt Rutan, Richard Branson, John Carmack, Paul Allen, and obsessive pursuits. In the end, as Diamandis dreamed, the result wasn't just a victory for one team; it was the foundation for a new industry and a new age.
