the two world wars from survivor into cultural memory Focusing on the politics of war memory and commemoration the book illuminates the struggle to install particular memories at the center of a cultural world and offers an extensive argument about how the politics of commemoration practices should be understood Commemorating War analyzes a range of forms of remembrance from public commemorations orchestrated by nation states to personal testimonies of war survivors and from cultural memories of war represented in films plays and novels to investigations of wartime atrocities in courts of human rights It presents a wide range of international case studies encompassing lesser known national histories and wars beyond the well trodden terrain of Vietnam and the two world wars in Europe Emerging from this book is an important critique of both state centered approaches to war memory and those that regard commemoration primarily as a human response to loss and grief Offering a wealth of empirical research material this book will be important for cultural and oral historians sociologists researchers in international relations and human rights and anybody with an interest in the cultural construction of memory in contemporary society

A Human Right to Culture and Identity Janne Mende, 2016-06-15 Is it desirable or even necessary to have distinct human rights for cultural identities Do different conceptions of culture and identity and their potential to frame human rights violations as culturally appropriate complicate the question How should a human right to collective identity be outlined Claims to human rights as applying to a whole ethnic religious or cultural group instead of the individual prove to be complex This book reveals the pitfalls benefits and demands that surround the debate for and against culture and identity in human rights It connects a continuous and nuanced theoretical debate with highly topical empirical findings about collective rights for indigenous groups which for centuries have been suppressed and marginalized and now stand at the forefront of successfully demanding a human right to their own culture and distinct identity This book shows the ambivalences of those demands and discusses solutions so that human rights neither exclude marginalized cultural groups nor reproduce rigid distinctions between seemingly exclusive cultures

Rights for Aborigines Bain Attwood, 2020-07-24 We cannot help but wonder why it has taken the white Australians just on 200 years to recognise us as a race of people Bill Onus 1967 Aboriginal people were the original landowners in Australia yet this was easily forgotten by Europeans settling this old continent Labelled as a primitive and dying race by the end of the nineteenth century most Aborigines were denied the right to vote to determine where their families would live and to maintain their cultural traditions In this groundbreaking work Bain Attwood charts a century long struggle for rights for Aborigines in Australia He tracks the ever shifting perceptions of race and history and how these impacted on the ideals and goals of campaigners for rights for indigenous people He looks at prominent Aboriginal and non Aboriginal campaigners and what motivated their involvement in key incidents and movements Drawing on oral and documentary sources he investigates how they found enough common ground to fight together for justice and equality for Aboriginal people Rights for Aborigines illuminates questions of race history political and social rights that are central to our understanding of relations between Aboriginal and non Aboriginal Australians
