**Trauma, Memory, and Narrative in the Contemporary South African Novel** ,2012-01-01 The contributions to this volume probe the complex relationship of trauma memory and narrative By looking at the South African situation through the lens of trauma they make clear how the psychic deformations and injuries left behind by racism and colonialism cannot be mended by material reparation or by simply reversing economic and political power structures Western trauma theories as developed by scholars such as Caruth van der Kolk Herman and others are insufficient for analysing the more complex situation in a postcolony such as South Africa This is because Western trauma concepts focus on the individual traumatized by a single identifiable event that causes PTSD Post Traumatic Stress Disorder What we need is an understanding of trauma that sees it not only as a result of an identifiable event but also as the consequence of an historical condition in the case of South Africa that of colonialism and more specifically of apartheid For most black and coloured South Africans the structural violence of apartheid s laws were the existential condition under which they had to exist The living conditions in the townships pass laws relocation and racial segregation affected great parts of the South African population and were responsible for the collective traumatization of several generations This trauma however is not an unclaimed and unclaimable experience Postcolonial thinkers who have been reflecting on the experience of violence and trauma in a colonial context writing from within a Fanonian tradition have on the contrary believed in the importance of reclaiming the past and of transcending mechanisms of victimization and resentment so typical of traumatized consciousnesses Narration and the novel have a decisive role to play here

*Incest Novels from the 1990s* Marinella Rodi-Risberg, 2022-03-24 This book explores the intersections of sexualized gendered and racialized traumas in five US novels about father daughter incest from the 1990s It examines how incest can be connected to wider past and present structural oppression and institutional abuse and what fiction looks like that testifies against and references a historical background of slavery poverty settler colonialism annexation and immigration Investigating the means of resistance used against attempts at silencing and denial in these texts the book also shows how contemporary women s novels can propose social change Overall this study uniquely argues that the individual trauma of incest in these texts must be understood in relation to histories of and present collective wounding against marginalized communities By sitting at the intersections between trauma theory and US third world feminism it allows for theory to meet literary activism [Catalog of Copyright Entries.
