Barr,2024-05-14 From one of the world's top experts on the economics of skyscrapers a fascinating Daily Mail London and informative Publishers Weekly account of the ever growing quest for super tall buildings across the globe The world's skyscrapers have brought us awe and wonder

and yet they remain controversial for their high costs shadows and overt grandiosity But decade by decade they keep getting higher and higher What is driving this global building spree of epic proportions In *Cities in the Sky* author Jason Barr provides an enjoyable expansive study of a subject he loves Kirkus Reviews explaining why they appeal to cities and nations how they get financed why they succeed economically and how they change a city s skyline and enable the world s greatest metropolises to thrive in the 21st century From the Empire State Building 1 250 feet to the Shanghai Tower 2 073 feet and everywhere in between Barr explains the unique architectural and engineering efforts that led to the creation of each structure Along the way he visits and unpacks some surprising myths about the earliest skyscrapers and the growth of American skylines after World War II which incorporated a new suite of technologies that spread to the rest of the world in the 1990s Barr also explores why London banned skyscrapers at the end of the 19th century but then embraced them in the 21st and explains how Hong Kong created the densest cluster of skyscrapers on the planet Also covered is the dramatic result of China s skyscraper fever and then on to the Arabian Peninsula to see what drove Dubai to build the world s tallest building the Burj Khalifa which at 2 717 feet is higher than the new One World Trade Center in New York by three football fields Filled with fascinating details for urbanists architecture buffs and urban design enthusiasts alike *Cities in the Sky* masterfully weaves together the history myths economics and engineering behind the most iconic structures across the world s skylines to showcase the ambition ingenuity and vision that encourage us to build higher and bolder Grady Hillhouse creator of Practical Engineering

**River in Search of a Sea** Peter Moss,2006-10 This is a hard country Underlying even the rich veldt of the plateau with its accentuated colours and over brilliant skies is a bedrock that has broken hearts wills marriages and lives Despite its huge spaces it instills an urge for withdrawal Its tribes gather within their kraals against nocturnal predators and invasion by other tribes And the last arrivals the most powerful tribe of all has built the biggest and grandest kraals to see them through the eternity of their tenure here Seven people four of them Afrikaner and three black meet in the wastelands south of the Mozambique border to learn of the genocide hatched in South African laboratories But there is so much conflict between them that they may never agree on the one chance to reveal those plans to the world at large Peter Moss draws upon his experience of Tongaland to conceive what might have been had the world known earlier of the human rights abuses that only came to light in the course of the South African Truth and Reconciliation Commission

*River in Search of a Sea* is his fifth novel

**Understanding Tall Buildings** Kheir Al-Kodmany,2017-02-17 In recent years the rapid pace of tall building construction has fostered a certain kind of placelessness with many new tall buildings being built out of scale context and place By analyzing hundreds of tall buildings and by providing hundreds of visuals that inspire stimulate and engage *Understanding Tall Buildings* contends that well designed tall buildings can rejuvenate cities ignite economic activity support social life and boost city pride Although this book does not claim to possess all the solutions it does propose specific tall building design guidelines that may help to promote placemaking Through this work it is the author s

hope that ill conceived developments will become less common in the future and that good placemaking will become the norm not the exception This book is a must read for students and practitioners working to create better tall buildings and better urban environments
