motivating the Turkish modernization project since the 18th century The book provides a dialectical narrative for the emergence and development of the Turkish novel in order to highlight the genre's critical role within the modernization project In doing so it also delineates the changing forms the novel assumes in the Turkish context from a platform for new literature to a manifestation of crisis in the face of totalizing rationality Vis a vis modernization's engagement with rationality The Turkish Novel and the Quest for Rationality reveals unexplored ways of conceptualizing the development of the genre in non western contexts

Corruption and the Secret of Law Gerhard Anders,2017-10-24 This volume presents an anthropological perspective on

the hidden continuities between corruption and law The authors argue that the two opposites corruption and law are inextricably linked with the possibility of the former already inscribed into the latter Taking a critical stance towards the normative good governance agenda spearheaded by institutions such as Transparency International and the World Bank this volume argues that by uncritically depicting corruption as an absolute evil these anti corruption programs disregard the close relationship that exists between corruption and state power Addressing various aspects of a complex and ambivalent phenomenon Corruption and the Secret of Law draws on studies from different parts of the world including Burundi China Indonesia Italy Japan Mexico and the USA and provides a valuable resource for students researchers and policy makers working in this area

Francisco de Goya and the Art of Critique Anthony J. Cascardi, 2023-01-10 An innovative study of Goya's unprecedented elaboration of the critical function of the work of art Francisco de Goya and the Art of Critique probes the relationship between the enormous extraordinary and sometimes baffling body of Goya's work and the interconnected issues of modernity Enlightenment and critique Taking exception to conventional views that rely mainly on Goya's darkest images to establish his relevance for modernity Cascardi argues that the entirety of Goya's work is engaged in a thoroughgoing critique of the modern social and historical worlds of which it nonetheless remains an integral part The book reckons with the apparent gulf assumed to divide the Disasters of War and the so called Black Paintings from Goya's scenes of bourgeois life or from the well mannered portraits of aristocrats military men and intellectuals It shows how these apparent contradictions offer us a gateway into Goya's critical practice vis vis a European modernity typically associated with the Enlightenment values dominant in France England and Germany In demonstrating Goya's commitment to the project of critique Cascardi provides an alternative to established readings of Goya's work which generally acknowledge the explicit social criticism evident in works such as the Caprichos but which have little to say about those works that do not openly take up social or political themes In Francisco de Goya and the Art of Critique Cascardi shows how Goya was consistently engaged in a critical response to and not just a representation of the many different factors that are often invoked to explain his work including history politics popular culture religion and the history of art itself

Children See Dead People Rob Armstrong, One of the most famous lines in movie history is I see dead people uttered by a young boy Is there any reason to believe that children can see the dead Do they have spooky powers denied to adults Do they grow out of these powers as they reach puberty Do they forget that they once interacted with the dead One study says that by age seven 65 percent of children have had an imaginary friend Are these imaginary friends actually spirits Do children have the dead as their imaginary playmates They're not imaginary at all They're real but they're dead Children are natural mediums psychics and necromancers They can channel the other world Is the poltergeist phenomenon caused by children's imaginary friends Can imaginary friends operate externally to children's minds Are some children in cahoots with spirits There is nothing more fascinating than the psychic abilities of children and the astonishing thing that eventually happens to them which suppresses their paranormal

powers in order to allow them to enter the normal world the adult world What would you prefer to remain a child all your life and have paranormal powers or to become an adult and sacrifice your paranormal powers Nature has made this a tradeoff Do you want to be Peter Pan who can fly but can never grow up or do you want to join the adults and have adult fun and also adult responsibilities Why do children lose their natural powers Is it possible to get these powers back Can adults recover their lost paranormal abilities the abilities which society warned them as children never to play with It s always dangerous to play with fire It s even more dangerous to ignore your natural fire Isn t it time to light up your life *Writing and Filming the Painting* Laura M. Sager Eidt,2008 This innovative interdisciplinary study compares the uses of painting in literary texts and films In developing a framework of four types of ekphrasis the author argues for the expansion of the concept of ekphrasis by demonstrating its applicability as interpretive tool to films about the visual arts and artists Analyzing selected works of art by Goya Rembrandt and Vermeer and their ekphrastic treatment in various texts and films this book examines how the medium of ekphrasis affects the representation of the visual arts in order to show what the differences imply about issues such as gender roles and the function of art for the construction of a personal or social identity Because of its highly cross disciplinary nature this book is of interest not only to scholars of literature and aesthetics but also for scholars of film studies By providing an innovative approach to discussing non documentary films about artists the author shows that ekphrasis is a useful tool for exploring both aesthetic concerns and ideological issues in film This study also addresses art historians as it deals with the reception of major artists in European literature and film throughout the 20th century
