Slovenia On The Edge Of The European Union:

Slovenia Bogomil Ferfila, 2000 *The Future of NATO Expansion* Zoltan Barany, 2003-07-21 In 1999 three East Central European states Poland Hungary and the Czech Republic gained membership in the North Atlantic Treaty Organization Professor Barany argues that once it began the Alliance should continue the enlargement process Nevertheless he maintains that only states that satisfy NATO's membership criteria should be allowed to join Through an extensive analysis of four countries Bulgaria Romania Slovakia and Slovenia who at the time of the book's original publication in 2003 were NATO aspirants Barany demonstrates that they were in several important respects unprepared for membership and that there was no pressing reason for NATO's haste Barany argues that while NATO should be clear that its doors remain open to qualified candidates the Alliance should hold off further expansion until prospective members will become assets rather than liabilities

Small States Inside and Outside the European Union Laurent Goetschel, 2013-04-17 Small States in and outside the European Union offers a broad overview of the small states problematic in Europe It touches upon definition issues history security policy neutrality EU institutional aspects and also includes contributors from Central and Eastern European countries It presents a thorough analysis of different scenarios for EU institutional reform and their repercussions on the influence of small member states The comparative results are visualized in tables The work contains several contributions from practitioners who give insight into policy games and issues of national sensitivity not usually covered by purely scholarly publications The European environment has changed dramatically through the processes of regional integration and rising interdependence Relations between European states both inside and outside the EU are governed as never before by rules norms and fixed procedures The book investigates the consequences of these developments on the foreign and security policy of small states Academics and professionals from Austria Denmark Finland Ireland Lithuania Luxembourg Slovenia Sweden and Switzerland as well as from the European Commission and the Council of Ministers elaborate on these issues Institutional regulations and traditional power politics as well as the foreign and security policy traditions of the states concerned including the question of neutrality are investigated In addition the book identifies the main interests of small states in today's Europe and offers an overview of different strategies these states apply in the realm of foreign and security policy The book is interesting for the case studies it offers as well as for the reflections it contains regarding fundamental questions of the essence of statehood in today's Europe **Croatia and the European Union** Pero Maldini, Davor

Paukovi?, 2016-03-09 The accession of Croatia to the EU marked the end of a long and arduous period of transition Croatia had to meet significantly higher criteria than previous states with suspicion and concerns among existing members about further enlargement increasing Meanwhile initially strong public support in Croatia declined as inconsistencies in EU policy entry criteria and problems caused by the economic crisis all combined with fears about the loss of national identity and the ability to realize national interests The successful Croatian accession to the EU in 2013 shows that despite concerns on both

sides the EU continues to have meaning and significance and that membership remains highly desirable Through nine mutually interrelated chapters the contributors speak not only about the political and social situation in Croatia but also prospects for the European Union itself The New Member States and the European Union Michael J. Baun, Dan Marek, 2013 This book examines the impact of EU membership on the foreign policies of the 12 new member states that joined the EU in 2004 and 2007 Among scholars of European politics there is a general consensus that membership in the European Union changes the countries that join Yet considerable debate remains over what exactly changes to what extent how or why these changes happen and why some countries policies and institutions change more than others Expert contributors examine the impact of EU integration and membership with chapters on the 12 new EU entrants since 2004 Poland Czech Republic Hungary Slovakia Slovenia Estonia Latvia Lithuania Cyprus Malta Bulgaria and Romania Utilizing a common analytical framework each of the country case studies examines the impact of EU membership on the foreign policies of the new member states in three key areas foreign policy making institutions and procedures interests and preferences and strategies and actions The New Member States and the European Union will be of interest to students and scholars of European Studies and European Union Politics *From Eastern Bloc to European Union* Günther Heydemann, Karel Vodička, 2017-10-01 More than 25 years after the fall of the Soviet Union European integration remains a work in progress especially in those Eastern European nations most dramatically reshaped by democratization and economic liberalization This volume assembles detailed empirically grounded studies of eleven states Estonia Latvia Lithuania Poland the Czech Republic Slovakia Hungary Romania Bulgaria Slovenia and the former East Germany that went on to join the European Union Each chapter analyzes the political economic and social transformations that have taken place in these nations using a comparative approach to identify structural similarities and assess outcomes relative to one another as well as the rest of the EU **The European Union and South East Europe** Andrew Geddes, Charles Lees, Andrew Taylor, 2013-05-02 This book explores the interaction of the EU in Greece Slovenia Croatia and Macedonia in three key policy sectors cohesion border managements and the environment and assesses the degree to which the European Union s engagement with the democracies of South East Europe has promoted Europeanization and Multi Level Governance Although there is a tendency to view the Balkans as peripheral this book argues that South East European states are central to what the EU is and aspires to become and goes to the heart of many of the key issues confronting the EU It compares changing modes of governance in the three policy areas selected because they are contentious issues in domestic politics and have trans boundary policy consequences in which there is significant EU involvement The book draws on over 100 interviews conducted to explore actor motivation preferences and perceptions in the face of pressure to adapt from the EU and uses Social Network Analysis Timely and informative this book considers broader dilemmas of integration and enlargement at a time when the EU s effectiveness is under close scrutiny The European Union and South East Europe will

be of interest to students and scholars of European politics public policy and European Union governance and integration

Genocide and Victimology Yarin Eski, 2020-11-29 Genocide and Victimology examines genocide in its diverse features from different yet connected perspectives to offer an interdisciplinary victimological imagination of genocide It will include in its exploration critical and cultural victimologies and criminologies of genocide accompanied by and recognising the rich scholarship on genocide in the fields of religion and history theatre studies and photography philosophy and existentialism post colonialism and ethnography and biography Bringing together theory with empirical research and drawing on a range of case studies such as the Treblinka extermination camp the Bosnian and Rwandan genocides the Sagkeeng First Nation in Manitoba Canada and genocidal violence in Syria and Iraq this book engages the victimological imagination towards an interdisciplinary cosmopolitan victimology of genocide Bundled and intertwined the wide yet integrated variety of perspectives on genocide gives readers a victimological kaleidoscope to discover and for victimology hitherto unexplored theory and methodology This way readers can develop their own more epistemologically theoretically and methodologically robust victimology of genocide a victimology of genocide as envisioned by Nicole Rafter The book hopes to canvas an understanding and a starting point for a diverse appreciation of genocide victimhood and survivorship from which the real post genocidal harms and sites post traumatic stress disorder courts and tribunals and overall meaningful justice will benefit Written in a clear and direct style this book will appeal to students and scholars in criminology sociology cultural studies philosophy history religious studies English literature and all those concerned with not repeating a history of genocide

The European Union: A Very Short Introduction John Pinder, Simon Usherwood, 2007-12-13 This Very Short Introduction explains the European Union in plain English Fully updated for 2007 to include controversial and current topics such as the Euro currency the EU s enlargement and its role in ongoing world affairs this accessible guide shows how and why the EU has developed from 1950 to the present Covering a range of topics from the Union s early history and the ongoing interplay between eurosceptics and federalists to the single market agriculture and the environment the authors examine the successes and failures of the EU and explain the choices that lie ahead in the 21st century

The Max Planck Handbooks in European Public Law Armin von Bogdandy, Peter M. Huber, Christoph Grabenwarter, 2023 The fourth volume of the Max Planck Handbooks in European Public Law series compares European constitutional jurisdiction in the perspective of the European legal space It examines the structures of the organization the appointment of judges the procedures and the methods of argumentation and interpretation their impact on state and society their legitimacy or their role in the division of powers and thus completes the picture following the country reports in Volume III This comparative perspective is supplemented by an examination that illustrates the relationship to the ECJ the ECtHR and the Venice Commission as well as their constitutional function Finally the volume is devoted to the challenges currently facing constitutional jurisdiction in the European Legal Space The historical political and theoretical foundations as well as the

basic doctrinal features of constitutional jurisdiction are presented in such a way that the discussion about its role and further development in this legal space is sustainably stimulated

Canadian Slavonic Papers, 2003

The Walls Came Tumbling Down Gale Stokes, 2012

Gale Stokes' *The Walls Came Tumbling Down* offered one of the most respected interpretations of the East European revolutions of 1989 for many years. It provides a sweeping yet vivid narrative of the two decades of developments that led from the Prague Spring of 1968 to the collapse of communism in 1989. Highlights of that narrative include among other things discussions of Solidarity and civil society in Poland, Charter 77 and the Velvet Revolution in Czechoslovakia and the bizarre regime of Romania's Nicolae Ceaușescu and his violent downfall. In this second edition now appropriately subtitled *Collapse and Rebirth in Eastern Europe*, Stokes not only has revised these portions of the book in the light of recent scholarship but has added three new chapters covering the post communist period including analyses of the unification of Germany and the collapse of the Soviet Union, narratives of the admission of many of the countries of the region to the European Union and discussion of the unfortunate outcomes of the Wars of Yugoslav Succession in the Western Balkans.

Challenged Borderlands Vera Pavlakovich-Kochi, Barbara J. Morehouse, 2017-03-02

In the early 1990s borders within Europe and between the United States and Mexico began to open. The increasing flow of goods, capital, ideas and people across boundaries promised to reduce physical and cognitive distances. Simultaneously challenges to identity have arisen within and between the European nation states driven not only by internal cultural and political dynamics but also by processes of globalization. Concurrently the US-Mexican border emerged in public consciousness as a location of new opportunities largely due to public perception of the benefits of the North American Free Trade Agreement (NAFTA). This book explores some of the contradictory yet simultaneous processes affecting border regions. A team of leading scientists offers a wide range of perspectives on global, national, regional and local processes and provides a useful matrix for understanding their complex, multilayered implications. Key concepts such as globalization, borders and identities are illustrated through local and regional case studies.

The Outer Limits of European Union Law Catherine Barnard, Okeoghene Odudu, 2009-03-05

A commonly expressed view is that the citizens and the Member States are destined to be overcome by the European Union. There is a sense that the Union of today is not what was intended to be created or acceded to by the Member States or its citizens. *The Outer Limits of European Union Law* brings together a diverse group of legal scholars to consider aspects of EU substantive constitutional and procedural law in a manner highlighting the many senses in which the European Union is or can be limited and so demonstrating that the fear of being overcome is largely a false fear. By exploring the mechanisms and devices used to limit the European Union, the contributors also reveal not only the strengths of the various limits but also, and more crucially, the weakness of the limits, thereby demonstrating that the prospect of being overcome may be a genuine risk to be guarded against. By considering general themes (e.g. legitimacy) and core subject areas (e.g. policing, free movement of goods, remedies), the book reveals the various techniques used by the Court of

Justice Community institutions and Member States to define and modify the outer limits of the European Union and European Union Law *Explaining Post-communist Diversity* Mieczyslaw Pawel Boduszynski,2004 **Geospatial Challenges in the 21st Century** Kostis Koutsopoulos,Rafael de Miguel González,Karl Donert,2019-01-16 This book focuses on 21st century geospatial technologies GT It highlights their broad range of capabilities and their essential role in effectively addressing and resolving critical everyday issues such as environment sustainability climate change urban planning economy culture and geopolitics Featuring chapters written by leading international scientists it discusses the application of GT tools and demonstrates that the problems requiring such tools transcend national boundaries cultures political systems and scientific backgrounds on a global scale In addition it enhances readers spatial understanding of and geographical reasoning in connection with societal issues The book will appeal to scientists teachers and students of geography the earth sciences and related areas as well as decision makers interested in the application and capabilities of geospatial technologies and new spatial methods for addressing important issues *Globalization and Europe's Rural Regions* Birte Nienaber,2016-03-03 This book examines the multiple ways in which rural regions in Europe are being restructured through globalization and the regional development responses that they have adopted It provides an understanding of the key challenges and opportunities for rural regions arising from the major economic social political and cultural changes associated with globalization including trade liberalization and economic deregulation increased international migration and the rise of global consciousness about environmental issues Drawing on examples and findings from a major European research project DERREG the book presents detailed case studies of ten regions in different parts of Europe exploring the factors that lead to different experiences of globalization in each of the regions and highlighting examples of good practice in regional development responses The book concludes by proposing a typology of regional responses to globalization and considering the policy implications of the research findings As such *Globalization and Europe's Rural Regions* is important reading for geographers sociologists planners and economists interested in understanding the impact of globalization in rural regions and for rural development professionals seeking to mobilize effective responses *Peace Psychology in the Balkans* Olivera Simić,Zala Volčič,Catherine R. Philpot,2012-03-06 The volume covers the development of peace psychology in the Balkans The Balkans is a region marked by post communist and post conflict transitional turmoil and this book provides a comprehensive introduction to research in peace psychology in this part of the world written by scholars primarily working in the Balkan area It brings together innovative scholarship that examines interdisciplinary aspects of peace psychology researched and written by scholars from Kosovo Serbia Bosnia Bulgaria Romania Macedonia Croatia and Slovenia as well as presenting research that responds to contemporary global issues by tracking the ways in which peace psychology is developing and implementing in the Balkans *Nominations of the 110th Congress, Second Session* United States.
