Slow Burn A Photodocument Of Centralia Pennsylvania:

Slow Burn Renée Jacobs, 2010 A pictorial chronicle of the Centralia Pennsylvania mine fire disaster in 1962 which led decades later to the destruction of the town Includes interviews and historical background Provided by publisher **Slow Burn**, 1986 **Myths and Mysteries of Pennsylvania** Kara Hughes, 2012-11-06 Part of the Myths and Mysteries series Myths and Mysteries of Pennsylvania explores unusual phenomena strange events and mysteries in Pennsylvania s history Each episode included in the book is a story unto itself and the tone and style of the book is lively and easy to read for a general audience interested in Pennsylvania s history Pennsylvania Myths and Legends Kara Hughes, 2022-09-01 Part of the Myths and Legends series Myths and Legends of Pennsylvania explores unusual phenomena strange events and mysteries in Pennsylvania s history Each episode included in the book is a story unto itself and the tone and style of the book is lively and easy to read for a general audience interested in Pennsylvania s history Featuring stories about the notorious Murder Swamp the coal mine that turned a vibrant town into a virtual ghost town the USS Eldridge vanishing from the Philadelphia Navy Yard and many more **Three Mile Island** Grace Halden, 2017-06-27 Three Mile Island explains the far reaching consequences of the partial meltdown of Pennsylvania s Three Mile Island power plant on March 28 1979 Though the disaster was ultimately contained the fears it triggered had an immediate and lasting impact on public attitudes towards nuclear energy in the United States In this volume Grace Halden contextualizes the events at Three Mile Island and the ensuing media coverage offering a gripping portrait of a nation coming to terms with technological advances that inspired both awe and terror Including a selection of key primary documents this book offers a fascinating resource for students of the history of science technology the environment and Cold War culture Centralia Deryl B. Johnson, 2004 Centralia is the saga of a Pennsylvania community consumed by an underground mine fire The town founded in 1866 has often been embroiled in tragedy and controversy Beginning with the infamous Molly Maguires Centralia was confronted with the murder of its founder and an assault upon its Catholic priest who cursed the town saying One day this town will be erased from the face of the earth Almost one hundred years later a vein of coal that ran underneath the town caught fire and has burned since 1962 In the 1990s the state of Pennsylvania declared eminent domain and forced most of the town s sixteen hundred residents to leave Ten people remain in Centralia today This book chronicles many of the images and stories from this fascinating and colorful Pennsylvania community The Face of Decline Thomas L. Dublin, Walter Licht, 2016-11-15 The anthracite coal region of Pennsylvania once prospered Today very little mining or industry remains although residents have made valiant efforts to restore the fabric of their communities In The Face of Decline the noted historians Thomas Dublin and Walter Licht offer a sweeping history of this area over the course of the twentieth century Combining business labor social political and environmental history Dublin and Licht delve into coal communities to explore grassroots ethnic life and labor activism economic revitalization and the varied impact of economic decline across generations of mining families The Face of

Decline also features the responses to economic crisis of organized capital and labor local business elites redevelopment agencies and state and federal governments Dublin and Licht draw on a remarkable range of sources oral histories and survey questionnaires documentary photographs the records of coal companies local governments and industrial development corporations federal censuses and community newspapers The authors examine the impact of enduring economic decline across a wide region but focus especially on a small group of mining communities in the region s Panther Valley from Jim Thorpe through Lansford to Tamaqua The authors also place the anthracite region within a broader conceptual framework comparing anthracite s decline to parallel developments in European coal basins and Appalachia and to deindustrialization in the United States more generally **Early American Technology** Judith A. McGaw,2014-01-01

This collection of original essays documents technology s centrality to the history of early America Unlike much previous scholarship this volume emphasizes the quotidian rather than the exceptional the farm household seeking to preserve food or acquire tools the surveyor balancing economic and technical considerations while laying out a turnpike the woman of child bearing age employing herbal contraceptives and the neighbors of a polluted urban stream debating issues of property odor and health These cases and others drawn from brewing mining farming and woodworking enable the authors to address recent historiographic concerns including the environmental aspects of technological change and the gendered nature of technical knowledge Brooke Hindle s classic 1966 essay on early American technology is also reprinted and his view of the field is reassessed A bibliographical essay and summary of Hindle s bibliographic findings conclude the volume The contributors are Judith A McGaw Robert C Post Susan E Klepp Michal McMahon Patrick W O Bannon Sarah F McMahon Donald C Jackson Robert B Gordon Carolyn C Cooper and Nina E Lerman The Texture of Industry Robert B.

Gordon,Patrick M. Malone,1997-02-06 While historians have given ample attention to stories of entrepreneurship invention and labor conflict they have told us little about actual work places and how people worked Workers seldom wrote about their daily employment However they did leave behind their tools products shops and factories as well as the surrounding industrial landscapes and communities In this book Gordon and Malone look at the industrialization of North America from the perspective of the industrial archaeologist Using material evidence from such varied sites as Indian steatite quarries automobile plants and coal mines they examine manufacturing technology transportation systems and the effects of industrialization on the land Their research greatly expands our understanding of industry and focuses attention on the contributions of anonymous artisans whose skills shaped our industrial heritage The Day the Earth Caved In Joan Quigley,2007-04-03 The Day the Earth Caved In is an unprecedented and riveting account of the nation s worst mine fire beginning on Valentine s Day 1981 when twelve year old Todd Domboski plunged through the earth in his grandmother s backyard in Centralia Pennsylvania In astonishing detail award winning journalist Joan Quigley the granddaughter of Centralia miners ushers readers into the dramatic world of the underground blaze from the media circus and back room deal

making spawned in the wake of Todd's sudden disappearance to the inner lives of every day Centralians who fought a government that wouldn't listen. Drawing on interviews with key participants and exclusive new research, Quigley paints unforgettable portraits of Centralia and its residents from Tom Larkin the short order cook and ex hippie who rallied the activists to Helen Womer a bank teller who galvanized the opposition denying the fire's existence even as toxic fumes invaded her home. Here too we see the failures of major political and government figures from Centralia's congressman Dapper Dan Flood a former actor who later resigned in the wake of corruption allegations to James Watt a former lawyer lobbyist for the mining industry who became President Reagan's controversial interior secretary. Like Jonathan Harr's *A Civil Action* *The Day the Earth Caved In* is a seminal investigation of individual rights corporate privilege and governmental indifference to the powerless. Exposing facts in prose that reads like fiction, Quigley shows us what happens to a small community when disaster strikes and what it means to call someplace home. Praise for *The Day the Earth Caved In*. Her scene by scene narrative reads like fiction but inspires outrage in the muckraking tradition of Lincoln Steffens and Rachel Carson. *The New York Times* As a piece of explanatory journalism *The Day The Earth Caved In* shines. *Washington Post* Book World It is quite a story. *The Wall Street Journal* First rate research and journalism combining to tell a sad often infuriating tale. *Kirkus Reviews* starred Quigley's riveting account of the nation's most devastating mine fire will change the way you think about so called natural disasters and the emotions we attach to the places we call home. This is an extraordinary book. Sean Wilentz author of *The Rise of American Democracy* Quigley's tale is a real life epic of brutally indifferent government greedy corporations and the unlikely heroes who fight for their basic human rights. It's all here made in America. You'll feel enraged to know the truth of what happened in our mountains and proud of your fellow Americans who took on Goliath. John Passacantando Executive Director Greenpeace USA If you can imagine a book that combines the gritty dignity of *How Green Was My Valley* with the muckraking of *Silent Spring* then you have some sense of this deeply affecting work. Samuel G Freedman author of *Upon This Rock* Joan Quigley the granddaughter of coal miners has combined meticulous reporting and personal passion to bring us this important book one that illuminates an underground blaze that many corporate and government officials sought to smother and conceal. Gay Talese author of *A Writer's Life* *The Energy Reader* Laura Nader, 2010-05-17 *The Energy Reader* presents a series of readings that examine the energy problem from an anthropological perspective and look at energy holistically including social and cultural components and long term implications for global and social environmental change. Brings a unique critical approach to the problem of energy and its complexity. Presents the topic as both a human and a technological problem differentiating long term perspectives from short term fixes. Includes coverage of the politics of energy the protection of future generations the avoidance of dangerous waste products efficiency resilience and democratic relevance. Features selections drawn from the work of physicists economists business experts engineers journalists historians and entrepreneurs. **Small Town**, 1986 [Human Services in the Rural](#)
