Slow Emergencies:

Emergency Claire Laurier Decoteau, 2024-12-16 A forceful critique of how and why states failed to protect marginalized communities in their responses to the COVID 19 pandemic and the implications of ignoring the existing emergencies that exacerbated the pandemic's devastating effects The COVID 19 pandemic inaugurated a state of emergency unprecedented for most Americans Some could observe this emergency from the relative safety of their homes but those in marginalized communities without access to the same privileges were forced to risk their health and well being In *Emergency* sociologist Claire Laurier Decoteau documents and theorizes the emergencies of COVID 19 by looking at the experiences of Chicagoans and the policies that shaped their lives She describes the uneven racial impact of COVID 19 on Black and Latinx Chicagoans as a crisis within a crisis caused by a convergence of emergencies a state of emergency that protected white supremacy and wealth the slow emergencies racially marginalized populations have faced for decades due to the long term gutting of care infrastructure and deindustrialization and the sacrifice essential workers were asked to make to protect the United States economy As Decoteau shows the city's racial equity project used data to determine which communities would be given scarce resources but once positivity or death rates declined resources were retracted and redistributed elsewhere City officials thus attempted to manage these converging emergencies by manipulating epidemiological data and orchestrating systems for interpreting that data Decoteau makes clear that the emergencies precipitated by COVID 19 long predated the pandemic and that we will continue to live with their compounding crises if we do not tackle their structural underpinnings

States of Emergency and Human Rights Protection Monika Florczak-Wątor, Fruzsina Gárdos-Orosz, Jan Malíř, Max Steuer, 2024-02-13 Emergencies are ubiquitous in 21st century societal discourses From the rise of emergency pronouncements in the United States since 9 11 accompanied by the associated violations of fundamental rights through talks of crises in the EU in relation to the economy Putin's occupation of Crimea as recently amplified by the full scale invasion of Ukraine or refugees to the long neglected looming climate catastrophe emergency discourses have been catapulted to the centre of attention by the critical juncture of the COVID 19 pandemic This volume presents and compares the existing regulations and practices of emergencies and human rights protection in the Visegrad V4 countries As such the analysis covers Czech Republic Hungary Poland and Slovakia Although these European countries share a common historical experience and are now members of the EU and NATO they differ in some of their constitutional traditions and also in the dynamics of their political regimes Divided into three parts the first two comprehensively discuss the constitutional models of emergency and human rights protection in each of the V4 countries while the third part illustrates how these models and the general framework of rights protection materialised in the limitations of the selected human rights during the COVID 19 pandemic The volume provides a compass for more in depth comparative and interdisciplinary inquiries into the forms and practices of emergencies in one of the EU regions that faces illiberalisation and the consequences of the ongoing invasion of Ukraine by the Russian Federation on its

eastern borders It will be a valuable resource for academics researchers and policymakers working in the areas of Constitutional Law and Politics The Introduction Chapter 7 and Chapter 10 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Hot Mess Sarah Marie Wiebe, 2024-09-26T00:00:00Z No longer is the climate emergency purely an external threat to our wellbeing this profoundly political circumstance is deeply personal The summer after giving birth Sarah Marie Wiebe and her baby endured the 2021 heat dome in British Columbia with temperatures over 20 degrees above normal creating all time heat records across the province It was the deadliest weather event in Canadian history The extreme heat landed Wiebe in the hospital dehydrated and separated from her nursing baby from dawn until dusk So began a year of mothering through heat fires and floods The climate emergency's many incarnations shaped Wiebe's politics of parenting and revealed the layers textures and nuances of the disastrous emergencies we encounter in a world dominated by extractive capitalism Drawing on hospital codes to explore the connections Wiebe opens up tender conversations about intimate matters of how our bodies respond to emergency interventions informed consent emergency C sections reproductive mental health and anti colonial and anti racist resistance A critical ecofeminist scholar Wiebe invites collective envisioning and enacting of caring ethical relations between humans and the planet including our atmospheres lands waters animals plants and each other

Law, Climate Emergency and the Australian Megafires Nicole Rogers, 2021-09-09 This book addresses the ways in which the Black Summer megafires influenced the development of climate narratives throughout 2020 It analyses the global pandemic and its ensuing restrictions as a countervailing force in the production of such narratives Lives and properties were lost in the spring and summer of 2019 and 2020 when catastrophic bushfires burnt through millions of hectares of mainland Australia Nearly 3 billion native animals died And for millions of Australians and others worldwide it was through the Australian megafires that the global climate emergency became tangible and concrete no longer a comfortably deferred albeit problematic abstraction which could be consigned to future generations to deal with This book explores the legal and other implications of new understandings of climate emergency arising from the fires and the emergence of a hierarchy of emergencies as the pandemic came to dominate global and domestic political discourses It examines narratives of culpability and legal avenues for seeking retribution from government and big fossil fuel emitters It also considers the impact of the fires on the burgeoning phenomenon of climate activism particularly in Australia and the ways in which pandemic restrictions curtailed such activism Finally the book reflects on the fires through the lenses offered by climate fiction and apocalyptic fiction more generally in order to consider how these shape and might shape our responses to them This important and timely book will appeal to environmental lawyers and socio legal theorists as well as other scholars and activists with interests in climate change and its impact It is recommended for anyone concerned about current and future climate disasters and the shortcomings in legal political and

popular responses to the climate crisis Life against States of Emergency Sarah Marie Wiebe, 2023-02-15 For six weeks in 2012-13 Attawapiskat chief Theresa Spence undertook a high profile ceremonial fast to advocate for improved Canadian Indigenous relations Framed by the media as a hunger strike her fast was both a call to action and a gesture of corporeal sovereignty Life against States of Emergency responds to the central question she asked the Canadian public to consider What does it mean to be in a treaty relationship today Arguing that treaties are critical and vital matters of environmental justice Sarah Marie Wiebe offers a nuanced discussion of the political environment that caused treaty relations in Attawapiskat to break down amid a history of repeated state of emergency declarations This incisive work draws on community engaged research lived experiences critical discourse analysis ecofeminist and Indigenous studies scholarship art activism and storytelling to advance a transformative future oriented approach to treaty relationships By centring community voices Life against States of Emergency cultivates a more deliberative democratic dialogue **Superyacht Captain** Brendan O'Shannassy, 2022-04-14 In Superyacht Captain a professional at the zenith of one of the world's most lavish and exclusive industries gives a rare insight into a career that makes for eyebrow raising reading as entertaining as it is instructive The tale of an ordinary boy whose career takes him on a most extraordinary journey this book begins with Brendan messing about in boats in a sleepy coastal Australian town and ends with him becoming one of the most successful and respected superyacht captains in the industry the consummate Billionaire's Captain Spanning two decades and circling the globe his story draws readers into the real world of superyachts their crew and their owners in the most intimate of ways Brendan weaves in the lessons he's learned as he's progressed from deck hand to captain and these insights are valuable for anyone leading teams with demanding objectives As captain Brendan was expected to achieve excellence every single time and here he reveals how he learnt to deal with the everyday demands of the job as well as emergency situations Surprisingly humble and self aware in a world of glitter and extravagance you can see why he's trusted All of this is told against a backdrop of seemingly impossible glamour at the most extravagant edge of the boating spectrum with plenty of entertaining stories of the superyacht lifestyle A brilliant read for all sailors and motorboaters for the many superyacht fans out there as well as anyone interested in leadership and management techniques from someone at the top of their game working for those who define the rules of the game **Climate Change** Mike Hulme, 2021-07-27 Written by a leading geographer of climate this book offers a unique guide to students and general readers alike for making sense of this profound far reaching and contested idea It presents climate change as an idea with a past a present and a future In ten carefully crafted chapters Climate Change offers a synoptic and interdisciplinary understanding of the idea of climate change from its varied historical and cultural origins to its construction more recently through scientific endeavour to the multiple ways in which political social and cultural movements in today's world seek to make sense of and act upon it to the possible futures of climate however it may be governed and imagined The central claim of the book is that the full breadth and power of the idea of

climate change can only be grasped from a vantage point that embraces the social sciences humanities and natural sciences This vantage point is what the book offers written from the perspective of a geographer whose career work on climate change has drawn across the full range of academic disciplines The book highlights the work of leading geographers in relation to climate change examples illustrations and case study boxes are drawn from different cultures around the world and questions are posed for use in class discussions The book is written as a student text suitable for disciplinary and inter disciplinary undergraduate and graduate courses that embrace climate change from within social science and humanities disciplines Science students studying climate change on inter disciplinary programmes will also benefit from reading it as too will the general reader looking for a fresh and distinctive account of climate change Habit's Pathways Tony

Bennett,2023-08-28 Habit has long preoccupied a wide range of theologians philosophers sociologists psychologists and neuroscientists In Habit s Pathways Tony Bennett explores the political consequences of the varied ways in which habit s repetitions have been acted on to guide or direct conduct Bennett considers habit s uses and effects across the monastic regimens of medieval Europe in plantation slavery and the factory system through colonial forms of rule and within a range of medicalized pathologies He brings these episodes in habit s political histories to bear on contemporary debates ranging from its role in relation to the politics of white supremacy to the digital harvesting of habits in practices of algorithmic governance Throughout Bennett tracks how habit s repetitions have been articulated differently across divisions of class race and gender demonstrating that although habit serves as an apparatus for achieving success self fulfillment and freedom for the powerful it has simultaneously served as a means of control over women racialized peoples and subordinate classes

Handbook of Critical Environmental Politics Pellizzoni, Luigi, Leonardi, Emanuele, Asara, Viviana, 2022-10-20 This timely Handbook offers a comprehensive outlook on global environmental politics providing readers with an up to date view of a field of ever increasing academic and public significance Its critical perspective interrogates what is taken for granted in current institutions and social and power relations highlighting the issues preventing meaningful change in the relationship between human societies and their biophysical underpinnings This title contains one or more Open Access chapters

Replace the State Sasha Davis, 2025-08-05 A practical call to action against oppression Across the globe millions of people have participated in protests and marches donated to political groups or lobbied their representatives with the aim of creating lasting social change overturning repressive laws or limiting environmental destruction Yet very little seems to improve for those affected by rapacious governments Replace the State brings new hope for social justice movements by looking to progressive campaigns that have found success by unconventional and more direct means Sasha Davis an activist and scholar of radical environmental advocacy focuses on the strategies of movements many of them Indigenous that have occupied contested sites and demonstrated their effectiveness at managing or governing them Including case studies of resistance to development on Indigenous lands in Hawai i nuclear testing in the Nevada desert and the U S military occupation of Okinawa he offers insight and direction for activists students academics and others dedicated to protecting and improving the well being of their communities and beyond It would be easy to succumb to pessimism and political apathy in the face of governing institutions that are increasingly unresponsive to calls for change and repressive in response to protest even as they violate human rights ignore existential climate catastrophes and concentrate power into fewer and fewer hands Instead Davis finds inspiration for genuine political change through social movements that are successfully replacing the state and taking over the day to day governance of threatened places From contesting

environmental abuse to reasserting Indigenous sovereignty these social movements demonstrate how people can collectively wrest control over their communities from oppressive governments and manage them with a more egalitarian ethics of care
