

A photograph of a desert landscape at sunset. In the foreground, there are several cholla cacti (Yucca elaeagnifolia) with their characteristic segmented, branching forms. The cacti are illuminated by the warm, golden light of the setting sun, which is visible as a bright glow on the horizon. In the background, a large, rugged mountain rises against a sky filled with soft, orange and yellow clouds. The overall scene conveys a sense of tranquility and the beauty of the desert environment.
