Small Georgian Houses In England And Virginia:

Small Georgian Houses in England and Virginia Daniel Drake Reiff, 1986 This is the first study which has seriously and thoroughly examined the English post Renaissance vernacular background for the famous Georgian houses of Virginia ca 1710 1760 and related them exhaustively to their American counter parts **The Gentleman's House in the British Atlantic World 1680-1780** S. Hague, 2015-06-23 The Gentleman's House analyses the architecture decoration and furnishings of small classical houses in the eighteenth century By examining nearly two hundred houses it offers a new interpretation of social mobility in the British Atlantic World characterized by incremental social change The Philadelphia Country House Mark E. Reinberger, Elizabeth McLean, 2015-10-21 Cedar Grove The Cliffs Grumblethorpe Mount Airy Bartram's House and Garden Accommodation of the Vernacular **A Field Guide to American Houses** Virginia Savage McAlester, 2015-07-29 The fully expanded updated and freshly designed second edition of the most comprehensive and widely acclaimed guide to domestic architecture in print since its original publication in 1984 and acknowledged everywhere as the unmatched essential guide to American houses This revised edition includes a section on neighborhoods expanded and completely new categories of house styles with photos and descriptions of each an appendix on Approaches to Construction in the 20th and 21st Centuries an expanded bibliography and 600 new photographs and line drawings George Washington's Mount Vernon Robert F. Dalzell Jr., Lee Baldwin Dalzell, 2000-02-24 George Washington's Mount Vernon brings together for the first time the details of Washington's 45 year endeavor to build and perfect Mount Vernon In doing so it introduces us to a Washington few of his contemporaries knew and one little noticed by historians since Here we meet the planter patriot who also genuinely loved building a man passionately human in his desire to impress on his physical surroundings the stamp of his character and personal beliefs As chief architect and planner of the countless changes made at Mount Vernon over the years Washington began by imitating accepted models of fashionable taste but as time passed he increasingly followed his own ideas Hence architecturally as the authors show Mount Vernon blends the orthodox and the innovative in surprising ways just as the new American nation would Equally interesting is the light the book sheds on the process of building at Mount Vernon and on the people slave and free who did the work Washington was a demanding master and in their determination to preserve their own independence his workers often clashed with him Yet as the Dalzells argue that experience played a vital role in shaping his hopes for the future of American society hope that embraced in full measure the promise of the revolution in which he had led his fellow citizens George Washington's Mount Vernon thus compellingly combines the two sides of Washington's life the public and the private and uses the combination to enrich our understanding of both Gracefully written with more than 80 photographs maps and engravings the book tells a fascinating story with memorable insight *Historical Dictionary of Colonial America* William A. Pencak, 2011-07-15 The years between 1450 and 1550 marked the end of one era in world history and the beginning of another Most importantly the focus of global commerce

Colonial Chesapeake Society Lois Green Carr, Philip D. Morgan, Jean B. Russo, 2015-05-18 Proof that the renaissance in colonial Chesapeake studies is flourishing this collection is the first to integrate the immigrant experience of the seventeenth century

with the native born society that characterized the Chesapeake by the eighteenth century Younger historians and senior scholars here focus on the everyday lives of ordinary people why they came to the Chesapeake how they adapted to their new world who prospered and why how property was accumulated and by whom At the same time the essays encompass broader issues of early American history including the transatlantic dimension of colonization the establishment of communities both religious and secular the significance of regionalism the causes and effects of social and economic diversification and the participation of Indians and blacks in the formation of societies Colonial Chesapeake Society consolidates current advances in social history and provokes new questions **Blackwood's Magazine** ,1913 *The Making of Home* Judith

Flanders,2015-09-08 The idea that home is a special place a separate place a place where we can be our true selves is so obvious to us today that we barely pause to think about it But as Judith Flanders shows in her best and most ambitious work to date home is a relatively new idea In *The Making of Home* Flanders traces the evolution of the house from the sixteenth to the early twentieth century across northern Europe and America showing how the homes we know today bear only a faint resemblance to homes though history What turned a house into the concept of home Why did northwestern Europe a politically unimportant sociologically underdeveloped region of the world suddenly become the powerhouse of the Industrial Revolution the capitalist crucible that created modernity While investigating these important questions Flanders uncovers the fascinating development of ordinary household items from cutlery chairs and curtains to the fitted kitchen plumbing and windows while also dismantling many domestic myths In this prodigiously researched and engagingly written book Flanders brilliantly and elegantly draws together the threads of religion history economics technology and the arts to show not merely what happened but why it happened how we ended up in a world where we can all say like Dorothy in *Oz* There s no place like home Proceedings of the ACSA Annual Meeting Association of Collegiate Schools of Architecture,1996 **George**

Washington Reconsidered Don Higginbotham,2001 George Washington heroic general of the Revolution master of Mount Vernon and first president of the United States remains the most enigmatic figure of the founding generation with historians and the public at large still arguing over the strengths of his character and the nature of his intellectual and political contributions to the early republic Representing the finest recent scholarship on Washington these thirteen essays by the leading scholars in the field strike a balance between Washington s personal life and character and his public life as a soldier and political figure Editor Don Higginbotham provides an introduction about Washington and his treatment by historians and an afterword devoted to how the American people have viewed Washington including the 1999 commemorations of the bicentennial of his death With three essays written specifically for this volume *George Washington Reconsidered* is the first collection of its kind to be published in over thirty years *Consumption and the World of Goods* John Brewer,Roy

Porter,2013-06-17 The study of past society in terms of what it consumes rather than what it produces is relatively speaking a new development The focus on consumption changes the whole emphasis and structure of historical enquiry While human

beings usually work within a single trade or industry as producers as say farmers or industrial workers as consumers they are active in many different markets or networks And while history written from a production viewpoint has by chance or design largely been centred on the work of men consumption history helps to restore women to the mainstream The history of consumption demands a wide range of skills It calls upon the methods and techniques of many other disciplines including archaeology sociology social and economic history anthropology and art criticism But it is not simply a melting pot of techniques and skills brought to bear on a past epoch Its objectives amount to a new description of a past culture in its totality as perceived through its patterns of consumption in goods and services Consumption and the World of Goods is the first of three volumes to examine history from this perspective and is a unique collaboration between twenty six leading subject specialists from Europe and North America The outcome is a new interpretation of the seventeenth and eighteenth centuries one that shapes a new historical landscape based on the consumption of goods and services Landscape Archaeology Rebecca Yamin, Karen Bescherer Metheny, 1996 As the editors note This volume includes many searching looks at the landscape not just to understand ourselves but to understand the context for other peoples lives in other times to unravel the landscapes they created and explain the meanings embedded in them *American Studies* Jack Salzman, 1990-05-25 This volume supplements the acclaimed three volume set published in 1986 and consists of an annotated listing of American Studies monographs published between 1984 and 1988 There are more than 6 000 descriptive entries in a wide range of categories anthropology and folklore art and architecture history literature music political science popular culture psychology religion science and technology and sociology *Houses from Books* Daniel D. Reiff, 2010-11-01 Many homes across America have designs based on plans taken from pattern books or mail order catalogs In *Houses from Books* Daniel D Reiff traces the history of published plans and offers the first comprehensive survey of their influence on the structure and the style of American houses from 1738 to 1950 *Houses from Books* shows that architectural publications from Palladio's *I Quattro Libri* to Aladdin's Ready Cut Homes played a decisive role in every aspect of American domestic building Reiff discusses the people and the firms who produced the books as well as the ways in which builders and architects adapted the designs in communities throughout the country His book also offers a wide ranging analysis of the economic and social conditions shaping American building practices As architectural publication developed and grew more sophisticated it played an increasingly prominent part in the design and the construction of domestic buildings In villages and small towns which often did not have professional architects the publications became basic resources for carpenters and builders at all levels of expertise Through the use of published designs they were able to choose among a variety of plans styles and individual motifs and engage in a fruitful dialogue with past and present architects *Houses from Books* reconstructs this dialogue by examining the links between the published designs and the houses themselves Reiff's book will be indispensable to architectural historians architects preservationists and regional historians Realtors and homeowners will also find it of

great interest A catalog at the end of the book can function as a guide for those attempting to locate a model and a date for a particular design Houses from Books contains a wealth of photographs many by the author that enhance its importance as a history and guide
