Lowenthal, 2011-01-20 WINNER Mom's Choice Gold Award for parenting books. Mom's Choice Awards The best in family friendly media. My kid is smart but it takes more than school smarts to create a fulfilling life. In fact, many bright children face special challenges. Some are driven by perfectionism. Some are afraid of effort because they're used to instant success. Some routinely butt heads with authority figures. Some struggle to get along with their peers. Some are outwardly successful but just don't feel good about themselves. This practical and compassionate book explains the reasons behind these struggles and offers parents doable strategies to help children cope with feelings, embrace learning and build satisfying relationships. Drawing from research as well as the author's clinical experience, it focuses on the essential skills children need to make the most of their abilities and become capable, confident and caring people.

In *Smart Parenting for Safer Kids*, parents will learn how to: Recognise the dangers to children in modern Western society; Build stronger kids and help them make smart choices; Choose safe, high quality childcare and child minders; Safeguard children in potentially dangerous situations including bullying, cyberspace and the internet; Protect against child sexual abuse; Parent through adolescence; Choose safe student exchanges. Could my child become addicted to their smartphone? Why does every rule I set start a battle? Children today are growing up in a

world more connected than ever before exposing them to dangers their parents didn't even imagine and raising questions they've never considered. But in our rush to protect them we can do more harm than good. Outright bans and rules deemed unfair can push your child away when what they need most of all is you. Child psychotherapist and cybertrauma expert Catherine Knibbs has helped hundreds of families work together to build healthy boundaries around technology. In this science-backed guide Knibbs sets out what the evidence really says about the risks and where your fears may be misguided to empower you with the answers to make the right decisions for your family.
