*Whale Hunter* Nelson Cole, 2011-05-23 This is the narrative of a harpooner in the whale ship Charles W Morgan whose four year voyage in 1849-1853 took him from New

Bedford Massachusetts to the South Pacific and on around the world Before the days of the whale gun and its explosive warhead whaling was a dangerous and far from one sided pursuit indeed one of Haleys earliest experiences was the destruction of his boat by a whale attack and even when the harpoon hit the target the whaleboat would be towed at speed until the wounded whale was exhausted a terrifying experience that was known to whalers as a Nantucket sleigh ride Haleys narrative covers all the excitements and dangers of the business like trying to work on a slippery whale carcass while the surrounding waters seethed with sharks but also encompasses the long hours of boredom when sailors entertained each other with tall tales Many are recounted and surprisingly some of the least likely can be corroborated In fact Haleys anecdotes of the South Seas in transition form one of the great appeals of the book On the one hand there were still hostile islands with murderous inhabitants while others had been so strongly influenced by Christian missionaries that pleasures of the flesh were now entirely off limits Whaling was in effect the first oil industry a high risk business where huge fortunes were to be made Haleys is the authentic voice of those that chose its dangers
