Smoking in Public Places Great Britain: Parliament: House of Commons: Health Committee,Kevin Barron,2005-12-19 The Government announced its intention to ban smoking from 2008 in enclosed public places in England in its White Paper Cm 6374 ISBN 010163742X published in November 2004

Tobacco Regulation, Economics, and Public Health, Volume II Samuel C. Hampsher-Monk,James E. Prieger,Sudhanshu Patwardhan,2024-05-30 For millions e cigarettes provide a means to relieve nicotine cravings while avoiding harmful cigarette smoke In the second volume in this three volume resource the authors provide a critical review of evidence concerning the health effects of vaping and whether using e cigarettes helps or

hinders cessation from smoking The empirical evidence however does not help decision makers resolve the normative questions relating to e cigarettes Different priorities values and interpretations of available data have led to seemingly intractable disagreements between stakeholders about the promise of e cigarettes for smoking cessation and the risks they pose to public health The misinformation and motivated bias surrounding issues regarding vaping both follow from but also enhance polarization perpetuating confusion about e cigarettes and leading to poor decision making by government agencies and people who smoke The authors argue that ultimately the safety and efficacy of e cigarettes for smoking cessation are not immutable properties of the product class itself diverse and dynamic but are also contingent upon the conditions of the regulatory environment and the manner in which e cigarettes are discussed by regulators and the media This volume provides important context to help decision makers at all levels better understand the risk and benefits of e cigarettes and the tradeoffs between them
