Some Mothers Daughter The Hidden Movement Of Prostitute Women Against Violence:

Some Mother's Daughter International Prostitutes Collective Staff, *Some Mother's Daughter* Nina Lopez-Jones,1999 **Sex Working and the Bible** Avaren Ipsen,2014-12-18 The Bible contains many stories of prostitution Feminist and liberation readings of these biblical narratives have often made sex workers invisible Sex Working and the Bible examines stories of biblical prostitution through the experiences and understanding of sex workers today The Bible narratives ranging across Rahab in the Book of Joshua the story of Solomon and the two prostitutes the anointing women traditions and the apocalyptic vision of the whore of Babylon in Revelation are set within both a practical and theoretical framework This radical book offers a new more inclusive way of approaching issues of gender sexuality and prostitution in the Bible **Prostitution, Women and Misuse of the Law** Helen J. Self,2004-08-02 This is an examination from a feminist historian s standpoint of the background to the present system of regulating prostitution in Britain which is generally admitted to be not only unjust and discriminatory but ineffective even in achieving its stated aims Concentrating on the 1950s and especially on the Wolfenden Report and the 1959 Street Offences Act it is a thorough exposure of the sexual double standard and general misogynist assumptions underlying legislation relating to prostitution In addition to the detailed analysis of the 1950s legislation and the background to it there is an exposition of the subsequent workings of the Act and of attempts to amend or repeal it **Safer Sex in the City** Maria Ioannou,2016-04-15 Throughout history prostitution has always been a source of fierce debate societies have either grudgingly tolerated it or tried always unsuccessfully to ban it With the emergence of much more overt acceptance of all forms of sexual activity it has become more apparent that sex workers who ply their trade on the streets of our cities are a particularly vulnerable group at risk of violent attacks and assaults The realization on the implications for such violence on society overall led to the emergence of this volume With research gathered from academics and practitioners hailing from various countries and fields this edited collection will be invaluable for those who want to better understand the experience of street sex workers the strategies available for managing this trade and how to help reduce the violence against the men and women who conduct it **Women and Media** Karen Ross,Carolyn M. Byerly,2008-04-15 Comprised of original research in diverse genres and medias Women and Media International Perspectives brings together eight international scholars to explore key issues of the gender media relation Provides important insights into how gender is implicated in media industries Address key issues of the gender media relation from an analysis of news media s coverage of women politicians to the marketing of girl power to strategizing for equality in newsrooms Highlights the theme that media have the potential both to reinforce the status quo in power arrangements in society but also to contribute to new more egalitarian ones Includes an introduction by the editors that carefully maps the contours of the international struggle between feminists and the media section overviews bibliographies key terms and discussion questions **Rape** Miranda Horvath,Jennifer Brown,2013-01-11 Rape remains one of the most

controversial issues within criminal justice and receives high profile coverage internationally Despite the many changes there have been to the law practice and procedure in the investigation of rape allegations and support available for victims victims are routinely blamed for their victimization Only a very small number of perpetrators ever face prosecution let alone conviction This book aims to take stock of current thinking and research about rape and the way it is handled in practice within the criminal justice system and to challenge some of the widely held but inaccurate beliefs about rape It brings together leading researchers in the field from psychology sociology and law considering new research and presenting new data from a strong theoretical and contextual base The main focus of the book is on adult victims of rape with chapters exploring such issues as rape and the media the use of alcohol and drugs in rape police decision making on rape cases conviction patterns in rape trials and interviewing victims of rape and sexual assault

Sex, Race, and Class—The Perspective of Winning Selma James, 2012-05-01 In 1972 Selma James set out a new political perspective Her starting point was the millions of unwaged women who working in the home and on the land were not seen as workers and their struggles viewed as outside of the class struggle Based on her political training in the Johnson Forest Tendency founded by her late husband C L R James on movement experience South and North and on a respectful study of Marx she redefined the working class to include sectors previously dismissed as marginal For James the class struggle presents itself as the conflict between the reproduction and survival of the human race and the domination of the market with its exploitation wars and ecological devastation She sums up her strategy for change as Invest in Caring not Killing This selection spanning six decades traces the development of this perspective in the course of building an international campaigning network It includes excerpts from the classic *The Power of Women and the Subversion of the Community* which launched the domestic labor debate the exciting *Hookers in the House of the Lord* which describes a church occupation by sex workers an incisive review of the C L R James masterpiece *The Black Jacobins* a reappraisal of the novels of Jean Rhys and of the leadership of Julius Nyerere the groundbreaking *Marx and Feminism* and more The writing is lucid and without jargon The ideas never abstract spring from the experience of organising from trying to make sense of the successes and the setbacks and from the need to find a way forward

Revisiting the Yorkshire Ripper Murders Louise Wattis, 2018-12-28 Between 1975 and 1980 Peter Sutcliffe who became known as the Yorkshire Ripper murdered 13 women in the North of England The murders provoked widespread fear amongst women and impacted the public consciousness at both the local and national level This book revisits the case applying a feminist and cultural criminological lens to explore a range of criminological concerns relating to gender violence and victimhood Combining research findings from oral history interviews analysis of popular criminological texts and academic commentary this volume explores what the case can tell us about feminism fear of crime gender and serial murder and the representation of victims and sex workers The volume contributes to a creative cultural criminology highlighting how excavating recent criminal history and reading across texts presents new ways for

understanding violence gender and representation in the contemporary context *The Streets Belong to Us* Anne Gray Fischer, 2022-01-11

Police power was built on women's bodies. Men, especially Black men, often stand in as the ultimate symbol of the mass incarceration crisis in the United States. Women are treated as marginal if not overlooked altogether in histories of the criminal legal system. In *The Streets Belong to Us*, a searing history of women and police in the modern United States, Anne Gray Fischer narrates how sexual policing fueled a dramatic expansion of police power. The enormous discretionary power that police officers wield to surveil, target, and arrest anyone they deem suspicious was tested, legitimized, and legalized through the policing of women's sexuality and their right to move freely through city streets. Throughout the twentieth century, police departments achieved a stunning consolidation of urban authority through the strategic discretionary enforcement of morals laws, including disorderly conduct, vagrancy, and other prostitution-related misdemeanors. Between Prohibition in the 1920s and the rise of broken windows policing in the 1980s, police targeted white and Black women in distinct but interconnected ways. These tactics reveal the centrality of racist and sexist myths to the justification and deployment of state power. Sexual policing did not just enhance police power; it also transformed cities from segregated sites of urban vice into the gentrified sites of Black displacement and banishment we live in today. By illuminating both the racial dimension of sexual liberalism and the gender dimension of policing in Black neighborhoods, *The Streets Belong to Us* illustrates the decisive role that race, gender, and sexuality played in the construction of urban police regimes.
