

Hinduism, Guénon mentions a relation between the symbol and the [Kundalini](#) shakti.

Perspectives on Initiation, first published at the close of World War II in 1946, extends a series of articles on the central subject of initiation originally written between 1932 and 1938 for *Le Voile d'Isis* (later renamed *Etudes Traditionnelles*). Initiation is introduced as the transmission, by the appropriate rites of a given tradition, of a "spiritual influence".^[49] Related articles were later published, in 1952, in the posthumous collection *Initiation and Spiritual Realization*. While the notion of initiation is introduced in the most general setting, it is impossible, writes Guénon, to write a complete and comprehensive book on the subject "for an indefinite number of questions could be raised – the very nature of the subject resisting any set limit".^[50] However, the subject of initiation being contemplated from a general point of view, the goal of Guénon goes beyond an introduction to the subject and, doing so, to make clear distinctions between what is relevant to initiation and what is not, according to Guénon. First, in particular, he insists on clarifying his position on the essential differences between "[mysticism](#)" and initiation so that, to him, initiation is, by its very nature, incompatible with mysticism:^[51]

In the case of mysticism the individual simply limits himself to what is presented to him and to the manner in which it is presented, having himself no say in the matter [...] In the case of initiation, on the contrary, the individual is the source of initiative towards 'realization', pursued methodically under rigorous and unremitting control, and normally reaching beyond the very possibilities of the individual as such.

Hindu doctrine of cosmic cycles

Guénon introduces some preliminary aspects of a particular (and extremely complex) cosmological science: the Hindu doctrine of *cosmic cycles*, for instance in the article "Some remarks on the doctrine of cosmic cycles".^[52] He writes that giving an overview of this theory and its equivalents in different traditional forms is merely an impossible task "not only because the question is very complex in itself, but specially

Beyond Mysticism James R. Horne, 2006-01-01 This study of the meaning and the experience of mysticism is a product of the author's personal interest in mysticism and his reflection as a philosopher on some of the philosophical questions raised by mysticism. Is a psychological process which occurs with varying degrees of intensity in everyone's life and the observation that this process changes the experiencer. The author goes on to discuss such questions as: Can we define mysticism and Can we describe mystical experiences? Is mysticism rational and What is the meaning of mystical experience?

The Graces of Interior Prayer Augustin Poulain, 1912 Gurdjieff Joseph Azize, 2020 This is the first analysis of all of Gurdjieff's published internal exercises together with those taught by his students George and Helen Adie. It includes a fresh biographical study of Gurdjieff with ground-breaking observations on his relationships with P. D. Ouspensky and A. R. Orage, especially why he wanted to collaborate with them and why that broke down. It shows that Gurdjieff was fundamentally a mystic and that his contemplation-like methods were probably drawn from Mt Athos and its hesychast tradition. It shows the continuity in Gurdjieff's teaching but also development and change. His original contribution to Western Esotericism lay in his use of tasks, disciplines, and contemplation-like exercises to bring his pupils to a sense of their own presence, which could to some extent be maintained in daily life in the social domain and not only in the secluded conditions typical of meditation. It contends that he had initially intended not to use contemplation-like exercises as he perceived dangers to be associated with these monastic methods and the religious tradition to be in tension with the secular guise in which he first couched his teaching. As Gurdjieff adapted the teaching he had found in Eastern monasteries to Western urban and post-religious culture, he found it necessary to introduce contemplation. His development of the methods is demonstrated and the importance of the three exercises in the Third Series, Life Is Real only then when I Am, is shown together with their almost certain borrowing from the exercises of the Philokalia. G. I. Gurdjieff, P. D. Ouspensky, A. R. Orage, George Adie. *Mysticism: Meditation, Contemplation, Fourth Way, Hesychasm, Western Esotericism*. Mysticism, 2021-09-06 Although very different and coming from a range of academic backgrounds, the contributors are nevertheless united in their attempts to understand more about mysticism from a perspective that puts the human being in the center. Mystical Experience and Religious Doctrine Philip C. Almond, 2015-02-06 No detailed description available for *Mystical Experience and Religious Doctrine*. selling autobiography *The Seven Storey Mountain* his ordination to the priesthood and his initial appointment as spiritual and intellectual guide of the young monks at the Abbey of Gethsemani The essays most of which have never been reprinted focus above all on aspects of the contemplative life but also consider the spiritual dimensions of literature and the social implications of Christian life Issued to coincide with the one hundredth anniversary of his birth this collection brings to fruition at long last Merton's own original plan of publishing these essays as a group and so makes available a previously little recognized and underutilized resource for understanding and appreciating a crucial transitional phase in his life as both monk and writer

Teaching Mysticism William B. Parsons, 2011-12-16 The term mysticism has never been consistently defined or employed either in religious traditions or in academic discourse The essays in this volume offer ways of defining what mysticism is as well as methods for grappling with its complexity in a classroom

Philosophy of Mysticism Richard H. Jones, 2016-03-23 A comprehensive exploration of the philosophical issues raised by mysticism This work is a comprehensive study of the philosophical issues raised by mysticism Mystics claim to experience reality in a way not available in normal life a claim which makes this phenomenon interesting from a philosophical perspective Richard H Jones's inquiry focuses on the skeleton of beliefs and values of mysticism knowledge claims made about the nature of reality and of human beings value claims about what is significant and what is ethical and mystical goals and ways of life Jones engages language epistemology metaphysics science and the philosophy of mind Methodological issues in the study of mysticism are also addressed Examples of mystical experience are drawn chiefly from Buddhism and Advaita Vedanta but also from Christianity Judaism Islam and Daoism This is a significant extension of the seminal work by Walter Stace *Mysticism and Philosophy* That work has stimulated much literature all of which Jones manages to review here He critically extends Stace's universal core and embeds it in a sophisticated discussion of the extent range and metaphysical implications of mysticism
