Some Rollicking Bull Light Verse And Worse On Victorian Photography:

Some Rollicking Bull Bill Jay, 1994 **Positive Pleasures: Early Photography and Humor**, 1998 *Photography and Other Media in the Nineteenth Century* Nicoletta Leonardi, Simone Natale, 2018-02-05 In this volume leading scholars of photography and media examine photography's vital role in the evolution of media and communication in the nineteenth century. In the first half of the nineteenth century the introduction of telegraphy, the development of a cheaper and more reliable postal service, the rise of the mass circulation press, and the emergence of the railway dramatically changed the way people communicated and experienced time and space. Concurrently, photography developed as a medium that changed how images were produced and circulated. Yet for the most part, photography of the era is studied outside the field of media history. The contributors to this volume challenge those established disciplinary boundaries as they programmatically explore the intersections of photography and new media during a period of fast-paced change. Their essays look at the emergence and early history of photography in the context of broader changes in the history of communications, the role of the nascent photographic press in photography's infancy, and the development of photographic techniques as part of a broader media culture that included the mass consumed novel, sound recording, and cinema. Featuring essays by noteworthy historians in photography and media history, this discipline-shifting examination of the communication revolution of the nineteenth century is an essential addition to the field of media studies. In addition to the editors, contributors to this volume are Geoffrey Batchen, Geoffrey Belknap, Lynn Berger, Jan von Brevern, Anthony Enns, Andr Gaudreault, Lisa Gitelman, David Henkin, Erkki Huhtamo, Philippe Marion, Peppino Ortoleva, Steffen Siegel, Richard Taws, and Kim Timby.

Study in Black and White Tanya Sheehan, 2018-11-26 In this volume, Tanya Sheehan takes humor seriously in order to trace how photographic comedy was used in America and transnationally to express evolving ideas about race, black emancipation, and civil rights in the mid 1800s and into the twentieth century. Sheehan employs a trove of understudied materials to write a new history of photography, one that encompasses the rise of the commercial portrait studio in the 1840s, the popularization of amateur photography around 1900, and the mass circulation of postcards and other photographic ephemera in the twentieth century. She examines the racial politics that shaped some of the most essential elements of the medium, from the negative-positive process to the convention of the photographic smile. The book also places historical discourses in relation to contemporary art that critiques racism through humor, including the work of Genevieve Grieves, Adrian Piper, Lorna Simpson, Kara Walker, and Fred Wilson. By treating racial humor about and within the photographic medium as complex social commentary rather than a collectible curiosity, *Study in Black and White* enriches our understanding of photography in popular culture. Transhistorical and interdisciplinary, this book will be of vital interest to scholars of art history and visual studies, critical race studies, U.S. history, and African American studies.

Doctored Tanya Sheehan, 2011 Examines the relationship between photography and medicine in American culture. Focuses on the American Civil War and postbellum Philadelphia to explore how medical models

and metaphors helped establish the professional legitimacy of commercial photography while promoting belief in the rehabilitative powers of studio portraiture Provided by publisher *The Painted Photograph, 1839-1914* Heinz K. Henisch, Bridget Ann Henisch, 1996 As photography grew more popular following its invention in 1839 its admirers did not understand how a medium that rendered shapes and textures in exquisite detail could fail to render them in realistic color Also disappointing was the tendency of the captured images to fade over time Photographers ever eager to please their public began painting their photographs with substances ranging from water colors and oil to chalk and crayon Images were enlarged enhanced and framed to simulate the splendors of the traditional portrait With its rich variety of illustrations in color and duotone *The Painted Photograph* is the first comprehensive history of overpainting from its origins to World War I The 131 illustrations featured draw upon original nineteenth and early twentieth century sources most from America and Britain but also representing Japan Turkey Austria Germany Poland Canada Bohemia India Australia Norway Holland and Russia In describing a multitude of early techniques the authors survey overpainting on various types of photographs including daguerreotypes tintypes and imprinted porcelain milk glass enamel magic lantern slides and textiles Particularly fascinating are discussions of overpainted death portraits most commonly those of children and the origins of popular picture postcards featuring overpainted landscape scenes The Henisches address also the eager acceptance of the painted photograph throughout the world despite the hostility of the art critical establishment *The Painted Photograph* will appeal to a wide public interested in photography history sociology social anthropology folk art popular fashion and antiques
