Church as Network Jeffrey H. Mahan, 2021-12-15 Just as the emergence of print and literacy created conditions for vast religious change at the time of the Reformation the emergence of a digital culture shaped by computers and the internet has led to radically different assumptions about religious identity how people connect and maintain transformative relationships and how people follow and give authority to leaders The central issues concerning this digital culture are not technological but theological and anthropological Old models of stable religious identity and community seem irrelevant in a culture in which everyone is in motion The book identifies three profound changes produced by digital culture which challenge existing understandings of church 1 a shift to seeing Christian identity as an ongoing constructive project 2 the development of fluid networked forms of community and 3 the emergence of less hierarchical more conversational forms of leadership The Evangelical Herald ,1918 **The Church Historians of England** ,1855 מוזיאון ישראל Muze'on Yiśra'el (Jerusalem),1997 The Israel Museum Jerusalem The Shrine of the Book summer 1997 *Comparative Statement of the State Charitable and Correctional Institutions from ...* ,1900 The Book of Martyrs ...
