Something Within Religion In African American Political Activism:

Something Within Fredrick C. Harris,1999 Going beyond the opiate inspiration debate that has dominated research on the subject author Fredrick C **Countervailing Forces in African-American Civic Activism, 1973-1994** Fredrick C. Harris,Valeria Sinclair-Chapman,Brian D. McKenzie,2005-12-12 In this study assessing black civic participation after the civil rights movement Fredrick C Harris Valeria Sinclair Chapman and Brian D McKenzie demonstrate that the changes in black activism since the civil rights movement is characterized by a tug of war between black political power on one side and economic conditions in black communities on the other As blacks gain greater access and influence within the political system black participation in political activities increases while downward turns in the economic conditions of black communities produce less civic involvement in black communities Examining changes in black activism from the early 1970s to the 1990s this tug of war demonstrates that the quest for black political empowerment and the realities of economic and social life act as countervailing forces in which negative economic and social conditions in black communities weaken the capacity of blacks to organize so that their political voices can be heard **Encyclopedia of African-American Politics, Third Edition** Robert Smith,2021-05-01 This A to Z volume examines the role of African Americans in the political process from the early days of the American Revolution to the present Focusing on basic political ideas court cases laws concepts ideologies institutions and political processes this book covers all facets of African Americans in American government Written by a nationally renowned scholar in the field the Encyclopedia of African American Politics Third Edition will enlighten readers to the struggles and triumphs of African Americans in the American political system Entries include Abolitionist Movement African immigrants Barack Obama Black Lives Matter Black Panther Party Civil Rights Act of 1964 Emancipation Proclamation Forty Acres and a Mule Freedmen s Bureau Hurricane Katrina Institutional racism Integrationism Juneteenth Lynching Malcolm X Million Man March Raphael Warnock **American Politics and the African American Quest for Universal Freedom** Hanes Walton,Robert C. Smith,2015-10-16 This dynamic and comprehensive text from two nationally renowned scholars continues to demonstrate the profound influence African Americans have had and continue to have on American politics Through the use of two interrelated themes the idea of universal freedom and the concept of minority majority coalitions the text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes The authors show that through the quest for their own freedom in the United States African Americans have universalized and expanded the freedoms of all Americans *Politics and Religion in the United States* Michael Corbett,Julia Corbett-Hemeyer,J. Matthew Wilson,2014-04-11 There is a complex relationship between religiosity and secularism in the American experience America is notable both for its strict institutional separation of church and state and for the strong role that religion has played in its major social movements and ongoing political life This book seeks to illuminate for readers the dynamics underlying this

seeming paradox and to examine how the various religious groups in America have approached and continue to approach the tensions between sacred and secular This much anticipated revision brings Corbett and Corbett's classic text fully up to date The second edition continues with a thorough discussion of historical origins of religion in political life constitutional matters public opinion and the most relevant groups all while taking theology seriously Revisions include fully updating all the public opinion data fuller incorporation of voting behavior among different religious and demographic groups enhanced discussion of minority religions such as Mormonism and Islam and new examples throughout

Dreaming Blackness Melanye T. Price, 2009-06 A complex portrait of contemporary black political stances Black Nationalism is one of the oldest and most enduring ideological constructs developed by African Americans to make sense of their social and political worlds In *Dreaming Blackness* Melanye T Price explores the current understandings of Black Nationalism among African Americans providing a balanced and critical view of today's black political agenda She argues that Black Nationalism continues to enjoy moderate levels of support by most black citizens but has a more difficult time gaining a larger stronghold because of increasing diversity among blacks and a growing emphasis on individualism over collective struggle She shows that black interests are a dynamic negotiation among various interested groups and suggests that those differences are not just important for the black agenda but also for how African Americans think and dialogue about black political questions daily Using a mix of everyday talk and impressive statistical data to explain contemporary black opinions Price highlights the ways in which Black Nationalism works in a post racial society Ultimately Price offers a multilayered portrait of African American political opinions providing a new understanding of race specific ideological views and their impact on African Americans persuasively illustrating that Black Nationalism is an ideology that scholars and politicians should not dismiss

Smart Suits, Tattered Boots Korie Little Edwards, Michelle Oyakawa, 2022-02 A compelling study of how race culture and civic organizing impact black religious leader mobilization in contemporary America Black ministers were at the heart of the Civil Rights movement but in recent years their level of social mobilization has decreased with much of their efforts being devoted to supporting the candidacies of Democratic politicians This book

explores the question of when and why black ministers mobilize for change and attempts to explain their relative lack of involvement in the Black Lives Matter movement and the broader movement for police reform Democracy in America? Benjamin I. Page, Martin Gilens, 2020-04-02 Important and riveting The solution isn't to redistribute wealth from the haves to the have lesses It's to redistribute political power to everyone Robert B Reich America faces daunting problems stagnant wages high health care costs neglected schools deteriorating public services How did we get here Through decades of dysfunctional government In Democracy in America veteran political observers Benjamin I Page and Martin Gilens marshal an unprecedented array of evidence to show that while other countries have responded to a rapidly changing economy by helping people who've been left behind the United States has failed to do so Instead we have actually exacerbated inequality enriching corporations and the wealthy while leaving ordinary citizens to fend for themselves What's the solution More democracy More opportunities for citizens to shape what their government does To repair our democracy Page and Gilens argue we must change the way we choose candidates and conduct our elections reform our governing institutions and curb the power of money in politics By doing so we can reduce polarization and gridlock address pressing challenges and enact policies that truly reflect the interests of average Americans Updated with new information this book lays out a set of proposals that would boost citizen participation curb the power of money and democratize the House and Senate Brilliant indispensable and highly accessible New York Journal of Books
