Nag, Harinder S. Kohli, 2023-08-16 Here is a hypothetical place where governance is poor rule of law is not respected and justice is often denied Many particularly the poor and the marginalised suffer daily indignities big and small and live a life marked by fear and insecurity Denmark on the other hand is where good governance prevails and is reflected in predictable and accountable actions by others including the State The journey From Here to Denmark is essentially a quest of ensuring good governance Improving governance needs good strong institutions Time history culture leadership and yes luck all have a role to play in this journey But the experiences of several countries which have made this transition convincingly point to the overriding importance of human capital and an empowered citizenry who can actively participate in the affairs of their society in building strong institutions     **Archaeologies of Consciousness** Gyrus, 2007 Collected for the first time these essays delve into the mysteries of the prehistoric human mind with intelligence passion and a radical approach to the unknowability of the evocative but obscure early chapters of the human story Starting from personal experiences with megalithic monuments and sites of ancient rock art Gyrus unfolds implications and speculations that keep one eye on the latest academic research the other on the unproven possibilities that intimacy with prehistoric relics affords Also includes a foreword by acclaimed antiquarian Julian Cope     **Everything Must Go** Dorian Lynskey, 2025-01-28 A rich captivating and darkly humorous look into the evolution of apocalyptic thought exploring how film and literature interact with developments in science politics and culture and what factors drive our perennial obsession with the end of the world As Dorian Lynskey writes People have been contemplating the end of the world for millennia In this immersive and compelling cultural history Lynskey reveals how religious prophecies of the apocalypse were secularized in the early 19th century by Lord Byron and Mary Shelley in a time of dramatic social upheaval and temporary climate change inciting a long tradition of visions of the end without gods With a discerning eye and acerbic wit Lynskey examines how various doomsday tropes and predictions in literature art music and film have arisen from contemporary anxieties whether they be comets pandemics world wars the Cuban Missile Crisis Y2K or the climate emergency Far from being grim Lynskey guides readers through a rich array of fascinating stories and surprising facts allowing us to keep company with celebrated works of art and the people who made them from H G Wells Jack London

W B Yeats and J G Ballard to The Twilight Zone Dr Strangelove Mad Max and The Terminator Prescient and original Everything Must Go is a brilliant sweeping work of history that provides many astute insights for our times and speaks to our urgent concerns for the future AID EVAPORATION Dr.Litha Musyimi-Ogana,2023-06-29 Aid Evaporation is a new Nortion It is based on an academic study that comprehensively examined how ODA is governed from the source to the destination Key ODA parameters emerged from the existing ODA governance frameworks namely mechanism ideology development approach and processes By unpacking elements contributing to aid ineffectiveness through these parameters exploring the existence of the aid evaporation and examining the key enablers of ODA Evaporatoon the study discovered supply side factors contributed significantly to Aid ineffectiveness It exposed different AID Evaporation enablers which play different hidden functions such as ODA Door Openers Appetixers Softeners Sponges Convertors Controllers Distorters as well as Carrot and Stick among others Key findings revealed that the prevailing perception that aid ineffectiveness was a demand side problem was only part of the story because supply side challenges were probably more responsible for billions of ODA that could not be accounted for It has recommended the re writing of the narrative that ODA ineffectiveness is predominantly premised on demand side by incorporating supply side factors Findings demonstrated that while there were indeed demand side challenges such as bad governance corruption and lack of strong institutions there were also supply donor side challenges such as over reliance of donor s own inefficient ODA governance frameworks as well as ODA delivery mechanisms the entrenchment of bilateral interest in ODA processess and geo political interests among other factors In this regard the study confirmed that the 62% of the ODA that could not be accounted for according to existing literature was either held up in the pipeline or evaporates mostly from the supply side This finding brought clarity on the weak impact of ODA and corroborated with existing literature on the mystery of unaccounted ODA While the notion of aid evaporation emerged as an attribution and part of a reflection on the problem of ODA dissipation at the preliminary stage of the literature review it became the central issue of focus throughout the research investigation which involved substantive field work to bring clarity on the problem The study has made theoretical and practical contributions to the existing concepts on ODA governance and proposed a new concept namely the Supply Baggage Concept The new concept should inform the Post Paris era in achieving Aid effectiveness by weding out Evaporation using the Aid Evaporation Detection Framework proposed in this book
