Picard, Thomas M. Mogale, Caitlin C. Corrigan, 2024-09-10 This book examines the nature of the 1994 political transition in South Africa and its impact on post apartheid South Africa Specifically it examines the failures of liberalism within the context of the transitional process that led to the institution if not the practice of a non racial state in 1994 The term liberal is an eclectic term defining a several of views political and economic We use the term here within context but essentially define it as a commitment to open views the willingness to

consider change and to value basic human rights The nature of institutional change in South Africa as it moved towards a democratic state would influence whether South Africa would succeed as a newly industrializing pluralist democratic country or collapse into yet another African failed state As South Africa moves toward its fourth decade of majority rule the view towards the future is much less promising than it was in 1994

Turning and Turning Judith February, 2018-08-01 South Africans often are deeply polarised in our perspectives of the present and the past Our ways of seeing are fraught with division and we fail to understand the complexities when we do not see what lies beneath the surface There is no denying that the Jacob Zuma presidency took a significant toll on South Africa exacerbating tensions and exposing the deep fractures that already exist in our society along the lines of race class and even ethnicity The Zuma years were marked by cases of corruption and state capture unprecedented in their brazenness and increased social protests many of which were accompanied by violence aggressive public discourse lack of respect for reason and an often disturbing resistance to meaningful engagement Importantly those years also placed enormous pressure on our democratic institutions many of which still bear the scars and challenged the sovereignty of the Constitution itself As an analyst and governance specialist at the Institute for Democracy in South Africa IDASA for twelve years February has had a unique perch Turning and turning is a snapshot of her IDASA years and the issues tackled which included work on the arms deal and its corrosive impact on democratic institutions IDASA's party funding campaign which February helped lead as well as work on accountability and transparency Combining analytical insight with personal observations and experience February highlights the complex process of building a strong democratic society and the difficulties of living in a constitutional democracy marked by soaring levels of inequality There is a need to reflect on and learn from the country's democratic journey if citizens are to shape our democracy effectively and to fulfill the promise of the Constitution for all South Africans

South African Horror Cinema Calum Waddell, 2025-08-21 This is the first study to explore South Africa both in horror cinema and as a formidable producer of celluloid scares From framing the notorious apartheid system as a mental asylum in the ground breaking and criminally underseen Jannie Totsiens Jans Rautenbach 1970 to such seventies exploitation shockers as The Demon Percival Rubens 1979 through to the blockbuster hit District 9 Neill Blomkamp 2009 and beyond this book suggests that South Africa should finally obtain its rightful place in the canon of wider genre studies and horror cinema fandom Taking in the 80s nightmares of Darrell Roodt and concluding with an analysis of the recent boom period in South African fright films including discussion of such contemporary efforts as The Tokoloshe Jerome Pikwane 2018 and the Troma-esque leanings of Fried Barry Ryan Kruger 2020 South African Horror Cinema focuses on ever changing identities and perspectives and embraces the frequently carnivalesque and grotesque elements of a most unique lineage in macabre motion pictures
