Somos Parte De Un Gran Equilibrio:

Economics, Ecology, and the Roots of Western Faith Robert R. Gottfried, 1995 Environmentalists have turned to Eastern religion Deep Ecology and Native American religion for alternatives to the Western view that humans should dominate nature In *Economics Ecology and the Roots of Western Faith* Robert R Gottfried persuasively demonstrates that the ancient Hebrew worldview found in the Torah and the New Testament is remarkably green Drawing on these insights from ancient Western thought and economic understanding of ecosystems and natural processes Gottfried analyzes the prerequisites for maintaining or improving human welfare and ecological vitality in terms of land economics and management *Deforestation, Colonization and Utilization of Land Resources in the Atlantic Zone of Costa Rico*, *The Social Causes of Environmental Destruction in Latin America* Michael Painter, William H. Durham, 1995 An important and timely study of environmental degradation in Central and South America **Practicing Anthropology in the South** James M. Tim Wallace, 1997-01-01 *No stone unturned. coordinator with the United Nations Research Institute for Social Development He is the author of *Economic Adjustment under the Sandinistas* UNRISD 1991 and *Economic Reform and Third World Socialism* Macmillan 1992 Originally published in 1993
