Oral Epics from Africa John William Johnson,Thomas Albert Hale,Thomas A. Hale,Stephen Paterson Belcher,1997-04-22 It seems incredible that heretofore there has not been an introductory anthology of African epics presented in English Western literary culture has long emphasized the heritage of such well known epics as the Iliad the Odyssey and Aeneid But it is only recently that scholars have turned their attention toward capturing the rich oral tradition that is still alive in Africa The twenty five excerpts in this volume have been selected and introduced so as to offer English speaking readers a broad sample of the extensive epic traditions in Africa The general introduction and the background on

each epic will enable readers to understand the context of each epic and will also provide leads for further inquiry **A**

Grammar of Iconism Earl R. Anderson, 1998 Literary criticism often includes ad hoc comments about onomatopoeia synaesthesia or other forms of iconism In *A Grammar of Iconism* Earl Anderson discusses these phenomena systematically According to Anderson modern post Saussurian linguistics has as its central tenet the arbitrariness of linguistic signs Thus linguistic elements that bear some relationship to their referent have been seen as marginal to the system of language or at best similar in their arbitrariness to other linguistic signs As an example of the latter while most languages have an onomatopoeic element different languages imitate sounds differently Anderson argues against the standard view provides a detailed critique of the negative arguments against iconism and offers a positive typology that demonstrates the extensiveness and complexity of iconism in language **A Companion to Ancient Epic** John Miles Foley, 2008-11-03 A

Companion to Ancient Epic presents for the first time a comprehensive up to date overview of ancient Near Eastern Greek and Roman epic It offers a multi disciplinary discussion of both longstanding ideas and newer perspectives A *Companion to the Near Eastern Greek and Roman epic traditions* Considers the interrelation between these different traditions Provides a balanced overview of longstanding ideas and newer perspectives in the study of epic Shows how scholarship over the last forty years has transformed the ways that we conceive of and understand the genre Covers recently introduced topics such as the role of women the history of reception and comparison with living analogues from oral tradition The editor and contributors are leading scholars in the field Includes a detailed index of poems poets technical terms and important figures and events **The Cambridge History of World Literature** Debjani Ganguly, 2021-09-09 World Literature is a vital part of

twentieth first century critical and comparative literary studies As a field that engages seriously with function of literary studies in our global era the study of World literature requires new approaches The *Cambridge History of World Literature* is founded on the assumption that World Literature is not all literatures of the world nor a canonical set of globally successful literary works It highlights scholarship on literary works that focus on the logics of circulation drawn from multiple literary cultures and technologies of the textual While not rejecting the nation as a site of analysis these volumes will offer insights into new cartographies the hemispheric the oceanic the transregional the archipelagic the multilingual local that better reflect the multi scalar and spatially dispersed nature of literary production It will interrogate existing historical methodological and cartographic boundaries and showcase humanistic and literary endeavors in the face of world scale environmental and humanitarian catastrophes **The Epic of Askia Mohammed** Thomas Albert Hale, Thomas A.

Hale, 1996-02-22 Askia Mohammed is the most famous leader in the history of the Songhay Empire which reached its apogee during his reign in 1493 1528 Songhay approximately halfway between the present day cities of Timbuktu in Mali and Niamey in Niger became a political force beginning in 1463 under the leadership of Sonni Ali Ber By the time of his death in 1492 the foundation had been laid for the development under Askia Mohammed of a complex system of administration a well

equipped army and navy and a network of large government owned farms The present rendition of the epic was narrated by the griot or jeser Nouhou Malio over two evenings in Saga a small town on the Niger River two miles downstream from Niamey The text is a word for word translation from Nouhou Malio s oral performance **Women's Studies Quarterly (97:3-4)** Tuzyline Jita Allan,1997 Authoritative creative and groundbreaking original literary essays about an important emerging area of study
