Sonata In Bflat Major Op 107

Stephen Lehmann, Marion Faber

Sonata In Bflat Major Op 107:

Rudolf Serkin Stephen Lehmann, Marion Faber, 2003-01-16 This book is the first biography of 20th century pianist Rudolf Serkin providing a narrative of Serkin's life with emphasis on his European roots and the impact of his move to America. Based on his personal papers and correspondence as well as extensive interviews with friends, family and colleagues, the authors focus on three key aspects of Serkin's work, particularly as it unfolded in America: his art and career as a pianist, his activities as a pedagogue including his long association with the Curtis Institute in Philadelphia and his key role in institutionalizing a redefinition of musical values in America through his work as artistic director of the Marlboro Music School and Festival in Vermont. A candid and colorful blend of narrative and interviews, it offers a probing look into the life and character of this very private man and powerful musical personality. *The Finale in Western Instrumental Music* Michael Talbot, 2001 The knowledge that finales are by tradition and perhaps also necessarily different from other movements has been around a long time, but this is the first time that the special nature of finales in instrumental music has been examined comprehensively and in detail. Three main types of finale are labelled: relaxant, summative and valedictory. Each type is studied closely with a wealth of illustration and analytical commentary covering the entire period from the Renaissance to the present day. The history of finales in five important genres: suite, sonata, string quartet, symphony and concerto is traced, and the parallels and divergences between these traditions are identified. Several wider issues are mentioned, including narrativity, musical rounding, inter-movement relationships and the nature of codas. The book ends with a look at the finales of all Shostakovich's string quartets in which examples of most of the types may be found. **Beethoven and His World** H. P. Clive, 2001 Following the author's acclaimed biographical dictionaries on Schubert and Mozart, *Beethoven and His World* offers an extremely comprehensive and up-to-date survey of the composer's relations with a multitude of persons with whom he associated on a personal or professional basis: relatives, friends, acquaintances, librettists, poets, publishers, artists, patrons and musicians. With more than 450 entries, the dictionary is the result of a wide-ranging examination of primary and secondary sources and critically assesses the use which scholars have made of the considerable documentation now available. In particular, there are numerous references to Beethoven's correspondence and conversation books which have recently been published in excellent new editions. The book places the composer and his music in a fuller context and a wider perspective than might be possible in a traditional biography; it will appeal to all music lovers, both the scholar and the non-specialist alike. **Beethoven** Lewis Lockwood, 2013-05-06 An authoritative work offering a fresh look at Beethoven's life, career and milieu. *Magisterial* New York Review of Books. This brilliant portrayal weaves Beethoven's musical and biographical stories into their historical and artistic contexts. Lewis Lockwood sketches the turbulent personal, historical, political and cultural frameworks in which Beethoven worked and examines their effects on his music. The result is that rarest of achievements: a profoundly humane work of scholarship that will, or at least should, appeal to specialists and

promoter of Beethoven's music in the later nineteenth century **Schubert's Beethoven Project** John M. Gingerich, 2014-05-22 Why couldn't Schubert get his great C Major Symphony performed? Why was he the first composer to consistently write four movements for his piano sonatas? Since neither Schubert's nor Beethoven's piano sonatas were ever performed in public, who did hear them? Addressing these questions and many others, John M. Gingerich provides a new understanding of Schubert's career and his relationship to Beethoven. Placing the genres of string quartet, symphony, and piano sonata within the cultural context of the 1820s, the book examines how Schubert was building on Beethoven's legacy. Gingerich brings new understandings of how Schubert tried to shape his career to bear on new hermeneutic readings of the works from 1824 to 1828 that share musical and extra-musical preoccupations centering on the Death and the Maiden Quartet and the Cello Quintet, as well as on analyses of the A minor Quartet, the Octet, and of the great C Major Symphony.

Mendelssohn, Time and Memory Benedict Taylor, 2011-10-27 Felix Mendelssohn has long been viewed as one of the most historically minded composers in western music. This book explores the conceptions of time, memory, and history found in his instrumental compositions, presenting an intriguing new perspective on his ever-popular music. Focusing on Mendelssohn's innovative development of cyclic form, Taylor investigates how the composer was influenced by the aesthetic and philosophical movements of the period. This is of key importance not only for reconsideration of Mendelssohn's work and its position in nineteenth-century culture, but also more generally concerning the relationship between music, time, and subjectivity. One of very few detailed accounts of Mendelssohn's music, the study presents a new and provocative reading of the meaning of the composer's work by connecting it to wider cultural and philosophical ideas **The Universal Library of Music** Karl Klauser, 1913
