Lamberton, John McGovern, 1899 Six Thousand Years of History Edgar Sanderson, John Porter Lamberton, 1899 Six Thousand Years of History: Great philosophers Edgar Sanderson, John Porter Lamberton, Charles Morris, 1909 The National Union Catalog, Pre-1956 Imprints ,1968 **A Bibliography of Thomas Carlyle's Writings and Ana** Isaac Watson Dyer, 1928 **Union Catalog of the Graduate Theological Union** Graduate Theological Union. Library, 1972 The Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1904 Publishers' circular and booksellers' record ,1900 **A Cultural History of the Modern Age Vol. 1** Egon Friedell, Historian philosopher critic playwright journalist and actor Egon Friedell was a key figure in the extraordinary flowering of Viennese culture between the two world wars His masterpiece *A Cultural History of the Modern Age* demonstrates the intellectual universality that Friedell saw as guarantor of the continuity and regeneration of European civilization Following a brilliant opening essay on cultural history and why it should be studied the first volume begins with an analysis of the transformation of the Medieval mind as it evolved from the Black Death to the Thirty Years War The emphasis is on the spiritual and cultural vortex of civilization but Friedell never forgets the European roots in pestilence death and superstition that animate a contrary drive toward reason refinement intellectual curiosity and scientific knowledge While these values reached their apogee during the Renaissance Friedell shows that each cultural victory is precarious and Europe was always in danger of slipping back into barbarism Friedell's historical vision embraces the whole of Western culture and its development It is a consistent probing for the divine in the world's course and is therefore theology it is research into the basic forces of the human soul and is therefore psychology it is the most illuminating presentation of the forms of state and society and therefore is politics the most varied collection of all art creations and is therefore aesthetics Thomas Mann regarded Friedell as one of the great stylists in the German language Like the works of the great novelist *A Cultural History of the Modern Age* offers a dramatic history of the last six centuries showing the driving forces of each age The new introduction provides a fascinating biographical sketch of Friedell and his cultural milieu and analyzes his place in intellectual history **A Cultural History of the Modern Age Vol. 3** Egon Friedell, Volume three of *A Cultural History of the Modern Age* finishes a journey that begins with Descartes in the first volume and ends with Freud and the psychoanalytical movement in the third volume Friedell describes the contents of these books as a series of performances starting with the birth of the man of the Modern Age followed by flowering of this epoch and concludes with the death of the Modern Age This huge landscape provides an intertwining of the material and the cultural the civil and the military from the high points of creative flowering in Europe to death and emptiness The themes convey multiple messages romanticism and liberalism opens the cultural scene encased in a movement from The Congress of Vienna and its claims of peaceful coexistence to the Franco German War The final segment covers the period from Bismarck's generation to World War I In each

instance the quotidian life of struggle racial religious and social class is seen through the lens of the mighty figures of the period The works of the period s great figures are shown in the new light of the human search for symbolism the search for superman the rise of individualism and decline of history as a source for knowledge This third volume is painted in dark colors a foreboding of the world that was to come of political extremes and intellectual exaggerations The author looks forward to a postmodern Europe in which there is a faint glean of light from the other side What actually appeared was the glare of Nazism and Communism each claiming the future
