Mars Adapting Francis Hoffman, 2021-03-15 As Clausewitz observed In war more than anywhere else things do not turn out as we expect The essence of war is a competitive reciprocal relationship with an adversary Commanders and institutional leaders must recognize shortfalls and resolve gaps rapidly in the middle of the fog of war The side that reacts best and absorbs faster increases its chances of winning Mars Adapting examines what makes some military organizations better at this contest than others It explores the institutional characteristics or attributes at play in learning quickly Adaptation requires a dynamic process of acquiring knowledge the utilization of that knowledge to alter a unit s skills and the sharing of that learning to other units to integrate and institutionalize better operational practice Mars Adapting explores the internal institutional factors that promote and enable military adaptation It employs four cases drawing upon one from each of the U S armed services Each case was an extensive campaign with several cycles of action counteraction In each case the military institution entered the war with an existing mental model of the war they expected to fight For example the U S Navy prepared for decades to defeat the Japanese Imperial Navy and had developed carrier based aviation Other capabilities particularly the Fleet submarine were applied as a major adaptation The author establishes a theory called Organizational Learning Capacity that captures the transition of experience and knowledge from individuals into larger and higher levels of each military service through four major steps The learning change cycle is influenced he argues by four institutional attributes leadership organizational culture learning mechanisms and dissemination mechanisms

The dynamic interplay of these institutional enablers shaped their ability to perceive and change appropriately *The Life and Adventures of Delbert Spool* Joseph Gary Roy-Rick O'Connor II, 2022-12-05 The story of Delbert Spool's life is truly an American adventure. He was a child of Bulgarian immigrant parents who fled Europe as the storm clouds of WWII gathered. From birth, Delbert was physically gifted and unique in many ways. The only son in a small working class family, he had a typical American upbringing in Hackensack, New Jersey. In his middle class neighborhood, like many of the children, he grew up with he attended the local Catholic schools where he both learned and suffered the discipline they are famous for. Delbert showed both courage and kindness at an early age, coming to the aid of those in danger despite his own risk. These traits would define him throughout his life. As Delbert grew, he became an exceptional athlete, excelling at football and earning a scholarship to the University of Delaware. But college and his dreams were cut short by a string of personal tragedies that introduced him to death. The despair that hardened him and cast him adrift led him to the military, as it has so many young men who lose their direction in life. In the Army, Del Spool was forged into a man. His early military assignments provided adventures all their own. A doer, Del chose to join America's elite military brotherhood by attending Airborne Ranger and Special Forces training. He earned an officer's commission through Officer Candidate School where he excelled and was a top graduate, honing his leadership skills and learning that always being prepared was the key to excellence. During two combat tours in Vietnam, Del's courage earned him warrior status and the respect of all with whom he served. Some would call him a hero; he was well decorated for his selfless bravery. But Del would just say he did what he was expected to do. Nonetheless, he served his country with honor and integrity. Del's time in Europe during the Cold War, when the Army struggled to rebuild itself after Vietnam, provided its own set of unique adventures to say the least, yet left Del unfulfilled. And in the rapidly changing peace time Army, Del chose to leave the service and see what the civilian world had to offer an adventurous, disciplined, highly decorated warrior.

The Price of the Sky: Phantom Empire Gaurav Garg, In the sun-baked dust of Sinaloa, Aurelio Carrillo is a new breed of narco. He scoffs at brutal chaotic violence, envisioning a meticulously managed logistics network, a transnational corporate empire moving tons of cocaine with cold, calculated precision. His brainchild, the Air Bridge, a fleet of repurposed Boeing 727s flying undetected, makes him the undisputed Lord of the Skies, challenging traditional cartels and even governments. But Aurelio's invisible ascent draws the unwavering gaze of Jack Keller, a sharp, disillusioned DEA agent haunted by personal tragedy and exiled to the US-Mexico border. Convinced the system is riddled with corruption, Keller begins a relentless financial investigation, unearthing a shocking truth. Aurelio's protection extends to the highest echelons of the Mexican military, including the nation's celebrated drug czar, General Mateo Navarro. As courageous journalist Sofia Delgado uncovers the unspeakable femicides in Juarez, inadvertently connecting them to the city's reigning narco kingpin and the pervasive impunity, the quiet war explodes into a public crisis. Aurelio faces a multi-front assault: fierce turf battles from cunning rivals like El Corto Guzmán, a devastating military raid on his sanctuary, and a global

financial dragnet orchestrated by Keller's clandestine task force Will Aurelio achieve complete erasure and become the true ghost he always envisioned leaving justice with a hollow victory Or will the hunt finally pull him from the shadows in a war that never truly ends This gripping crime thriller explores power betrayal and the ultimate price of invisibility Bernard Alvers; and The War Witch: a Poetical Romance ...
